**My First Baby Signs** Linda Acredolo,Linda P. Acredolo,Susan Goodwyn,2002-05-07 Babies have a lot to say! My First Baby Signs introduces ten of the most popular signs and provides parents a place to begin. Once baby waves bye-bye, the possibilities are endless. Baby signing is easy and natural. Infants and toddlers can learn how to say what they need, what they see, and even what they feel long before their vocal chords are developed enough to let them use actual words. Both books include the most popular signs and provide parents a place to begin 'talking' with their little one from the start. In this revolutionary breakthrough in parent

**Baby Signs** Joy Allen,2008-02-14 Long before they're able to talk, babies have a whole lot to say! Widen their world with this delightful modern classic—a must-have for growing families and a perfect baby shower or new-baby gift. With this adorable board book of essential signs, babies and toddlers can easily learn how to communicate their needs, wants, and feelings and even make basic observations with a simple gesture. Studies show that babies who use sign language feel less frustrated, throw fewer tantrums, and often learn to talk more easily. Just point to a sign in the book, say the word while making the sign, and the baby will soon be signing. Communicating a wet diaper or a hungry belly, asking for help or saying all done becomes as easy as waving hello or good-bye. And these are just a few of the thirteen signs inside this small and adorably illustrated board book,

perfect for little hands and minds to grasp.
