Finish Jon Acuff,2018-12-04 #1 Wall Street Journal bestseller! Jon Acuff, New York Times best-selling author of Do Over, Quitter, and Start, offers strategies for anyone who's ever wondered, Why can't I finish what I started? According to studies, 92 percent of New Year's resolutions fail. You've practically got a better shot at getting into Juilliard to become a ballerina than you do at finishing your goals. For years, I thought my problem was that I didn't try hard enough. So I started getting up earlier. I drank enough energy drinks to kill a horse. I hired a life coach and ate more superfoods. Nothing worked, although I did develop a pretty nice eyelid tremor from all the caffeine. It was like my eye was waving at you, very, very quickly. Then, while leading a thirty-day online course to help people work on their goals, I learned something surprising: The most effective exercises were not those that pushed people to work harder. The ones that got people to the finish line did just the opposite- they took the pressure off. Why? Because the sneakiest obstacle to meeting your goals is not laziness, but perfectionism. We're our own worst critics, and if it looks like we're not going to do something right, we prefer not to do it at all. That's why we're most likely to quit on day two, "the day after perfect"-when our results almost always underperform our aspirations. The strategies in this book are counterintuitive and might feel like cheating. But they're based on studies conducted by a university researcher with hundreds of participants. You might not guess that having more fun, eliminating your secret rules, and choosing something to bomb intentionally works. But the data says otherwise. People who have fun are 43 percent more successful! Imagine if your diet, guitar playing, or small business was 43 percent more successful just by following a few simple principles. If you're tired of being a chronic starter and want to become a consistent finisher, you have two options: You can continue to beat yourself up and try harder, since this time that will work. Or you can give yourself the gift of done.

Out of Reach But in Sight Andrew Lacivita,2014-01-20 Why do some people achieve great heights in life while others struggle? It's not just luck; luck only takes you so far. It's not just hard work; many people work diligently their entire lives and never attain their goals. So what's the secret to success and happiness? Recruitment consultant, author, and inspirational speaker Andrew LaCivita believes there's no single path to success. Ask fifty successful people their secret and you'll get fifty different answers, none of which might work for you. Those same fifty people, however, have something in common. They understand the importance of identifying, analyzing, setting, and achieving their goals. They don't just enjoy accomplishing goals-they enjoy the journey toward accomplishment. Out of Reach but in Sight is based on a speech LaCivita made to a three-hundred-member audience on the importance of proper goal-setting for achievements and happiness. Once you know the formula for setting and achieving goals, you can develop your own, unique path to success.

What are Your Goals Gary Ryan Blair, 2010

How To Set And Achieve Goals James David Rockefeller, 2017-11-17 Have you lately wondered what you have achieved in the last year or even in your life? Do you feel like a lost ship that doesn't know where it is going or why is it moving at all? Does it feel like you are living your life without any goals in sight? If yes, you probably need to focus on setting goals. Having a goal in life gives you focus and direction. It gives you control over where your life is heading. It also provides a benchmark to determine your success in specific areas of your life. Goal setting is important for achieving success, and it doesn't matter which area of your life you want to succeed in. If you want to succeed in the work arena, you need to have goals to achieve. If you need success in the relationships arena, you need to set goals there too. Whether it is your health, relationships, career, or anything, for success you need to set goals. Your goals could be for the day, such as, "I will complete a chapter of my book today." Or it could be for a month, such as, "I will showcase my products to five clients by the end of this month." Or it could be for a year, such as, "I will spend a hundred hours this year helping the needy." It could also be for your life, such as, "I want a house of my own." In other words, your goals are the dreams you have for yourself, your life, your family, or for your career. But a simple "I want" will not work. It is not going to happen by saying "I want" and just sitting on the couch watching TV. Your "I want" statements could get you started on what goals you would like to achieve. But that's only the first step in goal setting. So, how can you set goals and achieve success? What are the steps involved in setting and achieving your goals? Read this guide and find out.
