*Packing My Library* Alberto Manguel,2018-03-20 A best-selling author and world-renowned bibliophile meditates on his vast personal library and champions the vital role of all libraries In June 2015 Alberto Manguel prepared to leave his centuries-old village home in France's Loire Valley and reestablish himself in a one-bedroom apartment on Manhattan's Upper West Side. Packing up his enormous, 35,000+volume personal library, choosing which books to keep, store, or cast out, Manguel found himself in deep reverie on the nature of relationships between books and readers, books and collectors, order and disorder, memory and reading. In this poignant and personal reevaluation of his life as a reader, the author illuminates the highly personal art of reading and affirms the vital role of public libraries. Manguel's musings range widely, from delightful reflections on the idiosyncrasies of book lovers to deeper analyses of historic and catastrophic book events, including the burning of ancient Alexandria's library and contemporary library lootings at the hands of ISIS. With insight and passion, the author underscores the universal centrality of books and their unique importance to a democratic, civilized, and engaged society.

**Chasing Cassandra** Lisa Kleypas,2020-02-18 ONE OF OPRAH MAG'S BEST ROMANCES OF 2020! Everything has a price . . . Railway magnate Tom Severin is wealthy and powerful enough to satisfy any desire as soon as it arises. Anything—or anyone—is his for the asking. It should be simple to find the perfect wife—and from his first glimpse of Lady Cassandra Ravenel, he's determined to have her. But the beautiful and quick-witted Cassandra is equally determined to marry for love—the one thing he can't give. Everything except her . . . Severin is the most compelling and attractive man Cassandra has ever met, even if his heart is frozen. But she has no interest in living in the fast-paced world of a ruthless man who always plays to win. When a newfound enemy nearly destroys Cassandra's reputation, Severin seizes the opportunity he's been waiting for. As always, he gets what he wants—or does he? There's one lesson Tom Severin has yet to learn from his new bride: Never underestimate a Ravenel. The chase for Cassandra's hand may be over. But the chase for her heart has only just begun . . .

Unpacking My Library Leah Price,2011-11-29 As words and stories are increasingly disseminated through digital means, the significance of the book as object—whether pristine collectible or battered relic—is growing as well. *Unpacking My Library: Writers and Their Books* spotlights the personal libraries of thirteen favorite novelists who share their collections with readers. Stunning photographs provide full views of the libraries and close-ups of individual volumes: first editions, worn textbooks, pristine hardcovers, and childhood companions. In her introduction, Leah Price muses on the history and future of the bookshelf, asking what books can tell us about their owners and what readers can tell us about their collections. Supplementing the photographs are Price's interviews with each author, which probe the relation of writing to reading, collecting, and arranging books. Each writer provides a list of top ten favorite titles, offering unique personal histories along with suggestions for every bibliophile. *Unpacking My Library: Writers and Their Books* features the personal libraries of Alison Bechdel, Stephen Carter, Junot Díaz, Rebecca Goldstein and Steven Pinker, Lev Grossman and Sophie Gee, Jonathan Lethem, Claire Messud and James Wood, Philip Pullman, Gary Shteyngart, and Edmund White.

**Unpacking My Library** Walter Benjamin,2022-08 I fully realize that my discussion of the mental climate of collecting will confirm many of you in your conviction that this passion is behind the times, in your distrust of the collector type. Nothing is further from my mind than to shake either your conviction or your distrust. Walter Benjamin was one of the great cultural critics of the twentieth century. In *Unpacking My Library* he offers a strikingly personal meditation on his career as a book collector and on the strange relations that spring up between objects and their owners. Witty, erudite and often moving, this book will resonate with bibliophiles of all kinds. Eris Gems make available in the form of beautifully produced saddle-stitched booklets a series of outstanding short works of fiction and non-fiction.

**Not in My Library!** Sanford Berman,2013-07-26 Foreword by Mitch Freedman, a reprinted Counterpoise interview and 45 of Sanford Berman's U\*L columns dealing with book-burning, genocide, government secrecy and repression, cataloging, indexing, classism, self-censorship and free speech for library staff (et cetera!). Index by Chris Dodge.

Proving Your Library's Value Alan Fishel,Jillian Wentworth,United for Libraries,2020-10-27 You know the value of your library, but elected officials, donors, community leaders, funders, and other important stakeholders may not. How can you make the library a priority for these groups, who may have preconceived notions about what the library does, as you compete with other important community organizations for funding? In this book from United for Libraries, you'll learn how to use The E's of Libraries® (Education, Employment, Entrepreneurship, Engagement, and Empowerment) to quickly demonstrate why your library is essential and worthy of funding, using messaging that is organized, persuasive, and memorable. With the help of worksheets, charts, and prompts, you will learn how to use language designed to win over stakeholders, funders, and partners; craft custom messaging in several formats that is easily accessible and memorable, including elevator speeches, budget presentations, and annual appeals; and create presentations and other materials tailored to any audience based on the sample documents included. This book's innovative framework can be used by any size or type of library, and by any library advocate, including Friends groups, library staff, trustees, and foundations.

**Maximizing the Impact of Comics in Your Library** Jack Phoenix,2020-03-06 This unique guide offers fresh insights on how graphic novels and comics differ from traditional books and require different treatment in the library—from purchasing, shelving, and cataloging to readers' advisory services, programs, and curriculum. Challenging librarians to rethink some of their traditional practices, *Maximizing the Impact of Comics in Your Library* provides creative and proven solutions for libraries of all types that want to get comics into the hands of fans and promote readership. The author describes how libraries would benefit from an in-house

classification system and organization that accounts for both publishers and series. In addition, acquiring comics can often be tricky due to renumbering of series, reboots, shifting creative teams, and more—this book shows you how to work around those obstacles. Shelving and displays that reflect comic readers' browsing habits, creative programs that boost circulation of comics and graphic novels, and how comics can play a vital role in educational institutions are also covered.

**Creating Your Library Brand** Elisabeth Doucett, 2008-05-12 Branding is one part of the marketing process that focuses on developing a laser-clear message and the means to communicate that message to the intended audience. But as a library, where does branding fit?

Recharge Your Library Programs with Pop Culture and Technology: Linda D. Behen, 2013-06-17 Learn how to integrate pop culture and technology into school library programs and classrooms, and make today's digital content, mobile devices, and students' changing interests work to the educator's advantage. Today's school libraries need to evolve and meet the needs of 21st-century students—the instruction, programming, and library services must be relevant to today's learners. Additionally, the interactions between educators and the students are what make the critical difference in the students' learning, and turn the library and classroom into places where they will find, assimilate, experience, and understand information. This book provides practical strategies for using pop culture and technology trends to connect with easily distracted middle and high school students and hold their attention. Author Linda D. Behen addresses why school libraries are in transition and why there is a need for dramatic change. She discusses the evolution of all libraries in response to digital content; ubiquitous mobile devices such as smart phones, iPads, and other tablet computers; patrons' changing interests; and the ways in which schools and school libraries have found to effectively adapt to technology changes and student needs. This book is essential for middle and high school librarians and educators, library school students and instructors, and young adult public librarians.

*Measuring Your Library's Value* Donald S. Elliott, 2007 With tax-funded organizations under microscopic scrutiny, library directors need to make a strong public case for the value their library provides. *Measuring Your Library's Value*, designed to serve large to medium-sized public libraries, gives librarians the tools to conduct a defensible and credible Cost-Benefit Analysis (CBA). Based on research funded by IMLS and PLA, this hands-on reference covers the economic basics with librarian-friendly terms and examples, preparing library leaders to collaborate with economist-consultants. Library directors and trustees will learn how to credibly measure the dollars and cents value your community receives from library services and access proven examples for communicating what different community stakeholders need to hear.

**Making the Most of Your Library Career** Lois Stickell, Bridgette Sanders, 2014-01-22 Benefiting those fresh out of library school as well as experienced professionals, career librarians from every corner of the profession offer a personal, down-to-earth view of what it's really like out there.

**Liven Up Your Library** Julia Torres, Valerie Tagoe, 2022-09-02 Learn how librarians can positively effect change in areas like digital equity and inclusiveness, while creating powerful programming for middle and high school students. Developing programs for learners can be an ongoing challenge for librarians – especially first-year librarians. Current books on the topic primarily focus on makerspaces or read alouds, and are aimed at elementary school grades, with a surface-level approach. This book addresses deeper issues that librarians face, while illustrating how to serve teens and tweens specifically by offering programming relevant to their lives. The authors offer practical ideas for developing effective programming through collaborating with the community to develop and implement programs, connecting programs to ISTE Standards and curriculum, and addressing curricular and socio-emotional needs. They also share practical advice on budgeting and funding to support programs, scheduling, maximizing the use of technology to aid in programming and much more. The book also explores ways library programs can have a positive impact on school culture, such as addressing the digital divide, inclusion and cultural relevance. This book: • Discusses why programming is critical and covers how to develop library programs that are inclusive, culturally relevant and beneficial for students transitioning from high school to college. • Shows how library programming aligns with American Association of School Librarians (AASL), Future Ready Librarians framework and the ISTE Standards. • Provides checklists and templates to help readers develop their own programming ideas and lesson plans. • Offers guidance on building consensus from various stakeholders and involving students, faculty and community in the development of programs. • Shares stories from librarians in K-12 and higher education, addressing how they design their programs and offer career and educational paths for students. Programming for teens and young adults is a catalyst for learning and exploration. The activities and learning experiences shared in this book will empower librarians and deepen student learning. Audience: Middle and high school librarians, tween and teen public librarians, first-year experience librarians.
