Text Resources and Lexical Knowledge Angelika Storrer, Alexander Geyken, Alexander Siebert, Kay-Michael

Würzner,2008-11-03 This book contains selected state-of-the-art contributions to the 9th conference on natural language processing, KONVENS 2008 (Konferenz zur Verarbeitung natürlicher Sprache), with the central theme: text resources and lexical knowledge. The collection is unique in its placement of focus on the interaction between both of the above-mentioned fields, illustrating in particular the importance of methods in corpus linguistics for building lexical resources on the one hand, and the relevance of lexical resources for the analysis of and intelligent search methods for text corpora on the other. The selected articles all present novel approaches to one of three different research areas which in turn define the three parts of the book: Techniques and models for the linguistic analysis of text resources: contributions from computational linguistics Methods and tools for the acquisition of lexical knowledge from digitized and linguistically annotated text resources Approaches to the representation of lexical knowledge in digital media for various purposes.

Researching Geography Gopal Krishan,Nina Singh,2019-08-21 This book is a one-stop comprehensive guide to geographical inquiry. The volume: traces the step-by-step account of the whys and the hows of research methodology; introduces complexities of the geographical perspective, selection of research topic, choice of supervisor and formulation of research proposal; fine-tunes the sequence of data collection, analysis, representation and interpretation, and spells out the skill of writing research with geographic flavour; and reinforces concepts and ideas with examples so as not to leave any scope for ambiguity. The second edition updates on the variety of emerging perspectives in geographic research, use of spatial technologies in practice, sampling at different spatial levels and insightful interpretation of data. Lucid, engaging and accessible, this book

will be an essential companion for researchers and students of geography, social sciences and South Asian studies.

St. Teresa of Avila - 100 Themes on Her Life and Work

Tomás Alvarez, OCD, 2011 The Original Spanish Edition was published in 2007 under the title 100 Fichas Sobre Teresa de Jesus, Para Aprender y Enseñar, by Monte Carmelo.

On Subject and Theme Ruqaiya Hasan, Peter H.

Fries, 1995-11-23 The ten papers in this volume focus on Subject and Theme. Theme began its life as a semantic notion in the work of Vilém Mathesius, while Subject has traditionally been seen as just a syntactic entity. More recently two related perspectives on these concepts have attracted linguists' attention: the formal criteria for their recognition and the relations between the two concepts. Using the systemic functional model as their point of departure, the papers in the present volume consider the two notions in a wider context by relating them to the interpersonal and textual metafunctions of language. By contrast with the current linguistic approaches, the primary focus here is neither simply on formal recognition criteria nor on the relation of these elements to each other; instead, the notions of Subject and Theme are examined from the point of view of their function in the economy of discourse, with studies of their significance in English and French, as well as in a range of non-Indo-European languages. Definitions of the concepts are offered on the basis of their discourse functions, which are also important in selecting the formal recognition criteria and in understanding their mutually supportive role vis à vis each other. Most of the papers in the volume are a selection from presentations made at the 19th International Systemic Functional Congress at Macquarie University.

The Dynamics of Biblical Preaching Jonathan

Lamb, 2016-09-30 The purpose of our lives is to know the God of the universe who made us and loves us. It is this purpose that biblical preaching meets through explaining God's word. Biblical preaching centres around proclaiming God's Word and preachers are to be mouthpieces for God as we encounter the living Christ through Scripture. Jonathan Lamb illustrates the power of God's Word by focusing our attention on the heart, task and purpose of preaching by leading us through Nehemiah 8:1-12. Reworked to benefit from the authors' years of experience working alongside indigenous preaching movements around the world, this book includes excellent resources for group studies, preaching preparation and running a preachers' group.

Principles of Knowledge Representation and Reasoning

Bernhard Nebel, Charles Rich, William R. Swartout, 1992
Stringently reviewed papers presented at the October 1992 meeting held in Cambridge, Mass., address such topics as nonmonotonic logic; taxonomic logic; specialized algorithms for

temporal, spatial, and numerical reasoning; and knowledge representation issues in planning, diagnosis, and natural language processing.

The Essential 25 Marilee Sprenger, 2021-07-06 Determine the main idea of a text and explain how it is supported by key details; summarize the text. Your students may recognize the words determine, explain, and summarize in this standard, but would they understand and be able to apply these concepts? Students encounter these and other academic vocabulary words throughout their school years, but too often, they don't have a firm grasp of these words' meanings or what skills they require. Enter vocabulary expert Marilee Sprenger, who has curated a list of 25 essential high-frequency words that students must know to be academically successful, especially on standardized tests, and be ready for college and career. In this indispensable guide for all educators, she provides * Pre- and post-assessments to help you evaluate your students' understanding of the essential 25. * A detailed entry for each word, including activities and strategies that will help students internalize the word's meaning and application. * Retrieval games to help students practice the words in fun, engaging ways and reinforce the networks for those words in their brains. * Downloadable blank templates for many of the strategies used throughout the book. Every student needs to know and understand these words to perform at their best. If educators get behind this effort and make the essential 25 part of the fabric of their schools, students will be equipped to thrive in school and beyond.

The Syntax of Sentence and Text Světlá

Šmejrová, František Světlá, 1994-01-01 This is a collection of papers inspired by the work of František Danes and is published in honour of his 75th birthday. Danes' international contribution to the development of Prague School functionalism, the theory of functional sentence perspective, discourse studies and semantics is reflected in the 27 papers collected in four thematic sections of

this volume.

Art Themes Marjorie Cohee Manifold, 2017-11-20 Flexible in approach and full of colorful examples, this textbook provides a basic introduction to what art is and can be in the lives of people who do not necessarily think of themselves as artists. You will be taught about a variety of art themes, genres, materials, and processes that appeal to novice art makers. The lessons are organized by themes of general subject matter or media. Options are available for work in mixed media, crafts, photography and digital media, as well as in traditional drawing or painting media. After picking a theme of particular interest to you, look next at the four strands of lessons presented in that thematic unit. Moving from left to right, select one lesson from each consecutive strand and complete that lesson. Because each lesson builds upon previously presented knowledge and developed skill, as you progress through four lessons, one from each strand, you should grow in your understanding of art concepts, meanings, and processes, while also improving your art making skills. Completing this course will help you develop a new appreciation for the power and possibilities of art learning, by understanding better the art others create, as well as making it yourself.

Preaching to Head and Heart Thomas R. Swears, 2019-11-26 Preachers have long been faced with two options. On the one hand they can appeal to their congregations' intellects, teaching them the substance of the faith from the pulpit. On the other they can seek to stir their hearers' emotions, wooing or warning them with the gospel. Usually we reserve these two forms of preaching for different tasks or audiences. If you are preaching an evangelistic message to the unchurched, then your preaching style will draw more heavily on the emotional aspects. If you are leading the faithful into a deeper grasp of the Christian message, then you will more likely draw on the intellectual components of preaching. While most preachers know that the choice between the head and the heart is a false one, they often don't know how

to bring the two together effectively. In this book Thomas Swears offers detailed, practical advice on how to preach to both head and heart. He shows how both emotions and intellect function any time one tried to convey meaning from the pulpit, regardless of the kind of message one is preaching. Without abandoning the conventional wisdom on evangelistic vs. teaching sermons, he nonetheless insists that preaching with integrity—in which the Word is truly embodied—will always involve the whole person and personality of both the preacher and the congregation.
