*The Past Life Perspective* Ann Barham,2016-06-07 Previously published as: Nine lives (and counting).

**Children's Past Lives** Carol Bowman,2012-02-01 Has your child lived before? In this fascinating, controversial, and groundbreaking book, Carol Bowman reveals overwhelming evidence of past life memories in children. Not only are such experiences real, they are far more common than most people realize. Bowman's extraordinary investigation was sparked when her young son, Chase, described his own past-life death on a Civil War battlefield--an account so accurate it was authenticated by an expert historian. Even more astonishing, Chase's chronic eczema and phobia of loud noises completely disappeared after he had the memory. Inspired by Chase's dramatic healing, Bowman compiled dozens of cases and wrote this comprehensive study to explain how very young children remember their past lives, spontaneously and naturally. In *Children's Past Lives*, she tells how to distinguish between a true past life memory and a fantasy, offers practical advice to parents on how to respond to a past life memory, and shows how to foster the spiritual and healing benefits of these experiences. Perhaps the most moving, convincing, and best-documented evidence yet for life after death, *Children's Past Lives* will stand alongside the classics of Betty J. Eadie, Raymond Moody, and Brian Weiss in its power to comfort, uplift, and transform our thinking about life after death

**In My Past Life I was Cleopatra** Amal Awad,2021-02-02 For as long as humans have existed, we have consulted everything from the stars to stones with symbols on them. Growing up in an Arab Muslim family, SBS journalist and TEDx presenter Amal Awad was keenly aware of the unseen forces at play in her life - superstition, fatalism and magical jinn were more real to her than any

Hollywood fantasy. From religious devotion to New Age love and light, Amal has tried ... a lot. While this doesn't make her an expert in healing your life, it does make her a well-versed one, fluent in the boundless healing modalities on offer in our ever-expanding retail universe. From psychic mediums and spirit guides to Paleo diets and empowerment, there are questionable (and downright fraudulent) solutions being sold to the masses. Yet, arguably, there is still a lot of good to be found in these offerings. In this funny and shrewdly observed book, Amal shares her personal journey to peace and empowerment via a wide array of psychics, healers and witches, considering the smorgasbord of spiritual thinking on offer for people wanting to #livetheirbestlife and exploring whether these practices can help, harm or both in the quest for spiritual enlightenment.

**Flipside** Richard Martini, 2012-01-11 What happens after we die? \_x000D\_ \_x000D\_ Author and award winning filmmaker Richard Martini explores startling new evidence for life after death, via the life between lives, where we reportedly return to find our loved ones, soul mates and spiritual teachers. Based on the evidence of thousands of people who claim that under deep hypnosis, they saw and experienced the same basic things about the Afterlife, the book documents interviews with hypnotherapists around the world trained in the method pioneered by Dr. Michael Newton, as well as examining actual between life sessions. The author agrees to go on the same journey himself, with startling and candid results, learning we are fully conscious between our various incarnations, and return to connect with loved ones and spiritual soul mates, and together choose how and when and with whom we'll reincarnate. Martini examines how Karmic law is trumped by Free will, with souls choosing difficult lives in order to learn from their spiritually; no matter how difficult, strange or complex a life choice appears to be, it was made in advance, consciously, with the help of loved ones, soul mates and wise elders. Extensively researched, breathtaking in scope, Flipside takes the

reader into new territory, boldly going where no author has gone before to tie up the various disciplines of past life regression, near death experiences, and between life exploration. In the words of author Gary Schwartz, Phd, once you've read Flipside you'll never see the world in the same way again. \_x000D\_ \_x000D\_ Praise for Flipside: \_x000D\_ \_x000D\_ Richard has written a terrific book. Insightful, funny, provocative and deep; I highly recommend it! - Robert Thurman, author of Why the Dalai Lama Matters \_x000D\_ \_x000D\_ "Inspiring, well written and entertaining. The kind of book where once you have read it, you will no longer be able to see the world in the same way again." - Gary E. Schwartz, author of The Sacred Promise \_x000D\_ \_x000D\_ Everyone should have a Richard Martini in their life. - Charles Grodin, author of If I Only Knew Then... What I Learned From Mistakes

*Past Life Dreamwork* Sabine Lucas, 2008-04-18 The first book to approach reincarnation from the perspective of dreams • Identifies soul bloodlines, the key to past life therapies • Combines the author's own experiences with case studies and dreamwork with empirical research • Reveals how the analyst and client are often karmically linked In *Past Life Dreamwork*, Sabine Lucas examines "soul bloodlines"--character traits, talents, and life issues that are the common elements and circumstances of successive past lives. Found threaded through our dreams, these bloodlines reveal the forces manifesting in this life, and, taken together, they shape individuality as well as destiny within the reincarnation cycle. Though a wealth of past life related material regularly surfaces in dreams, until now dreamwork has been largely ignored as a therapy for successfully integrating past life experiences. Using the results of 27 years of personal and professional work, Lucas explains that past life memories help us work out karma on the macro level and trauma on a micro level. She

distinguishes three types of past life dreams--classic, informatory, and hybrid--and demonstrates how to distinguish these from other dreams. Her dramatic case studies illustrate the effectiveness of dream therapy in recognizing and integrating the resonant and recurrent circumstances and ethical dilemmas that are played out in the subconscious mind. These psychologically revealing stories bear witness to how individuals are made whole through the integration of common strands of forgotten or repressed past lives. Lucas shows that the integration of past lives enriches the conscious self and also promotes universal tolerance through an understanding of the patterns of our psychic soul inheritance.

I've Been Here Before Sara Yoheved Rigler, 2021-11-15 This ground-breaking book opens a closet and allows hundreds of people of this generation to emerge, with their nightmares, phobias, and flashbacks suggestive of an incarnation in the Holocaust. Through that open door, author Sara Rigler introduces the reader to people from all over the world whose stories defy rational explanation--unless they are indeed reincarnated souls from the Holocaust. Because the purpose of reincarnation is to rectify past mistakes and failings, Part Two narrates the journeys of souls who in their current lifetime replaced fear with courage, hatred with love, and guilt with self-forgiveness. Fascinating and convincing, this page-turner will quicken your awareness of your own soul and how your inexplicable fears, attractions, and repulsions may be comprehensible through the notion of past-life experiences. Sara Rigler has written a powerful and gripping narrative.... The stories make for fascinating reading. --Rabbi Yitzchak A. Breitowitz, Kehillat Ohr Somayach An eye-opening journey. --Alicia Yacoby, Founder, Our6Million Sara Rigler's extensive research and collection of past-life Holocaust memories confirms the reality of this phenomenon, and offers hope for healing the trauma that carried over for many of us. For those who have not had their own memories, the

case studies offer compelling evidence for the continuation of a personal consciousness after death. -  
-Carol Bowman, author of Children's Past Lives This book is not only credible, it is important. -  
Rebbetzin Tziporah (Heller) Gottlieb, author and lecturer Sara Rigler has done exceptional work in meticulously compiling, recording, and describing personal stories of Jews and non-Jews from many countries. By doing so she has rendered an invaluable service ... to humanity. --Sabine Lucas, Ph.D., Jungian analyst

**Journey to My Past Lives** Nathalia Sunaidi, 2006-10 What is past life regression? Do you believe in reincarnation? Do you believe that you were someone else? Do you have previous life before your current life? How can past life regression (PLR) guide you? Many people over the world believe they have experienced reincarnation. And those reincarnation experiences have a positive impact that can be used as part of a healing process in therapy. Many people are searching for a path and way to know more about their previous life before their present life. So, this book pretty much will guide you to answer those complex questions above. PLR-its literal definition-is a journey into past life. When you are hypnotized, you can track that period before your present life. What if you don't believe in past life regression? Even if you don't believe in reincarnation, most people believe that when we die, our soul will continue to live in a different live as a different person. Meaning that, after we die, our soul will continue to occupy a different body until that body or physical form also becomes old and an improper vessel for the soul. Maybe you read this book because you or people you know believe in a previous life. There is unique way to know your previous life through hypnotherapy. I suggest that you open your mind to this possibility and read Nathalia Sunaidi's book.

True Real Life Stories of Reincarnation Richard Bullivant, 2015-10-01 Have you lived

before? Suddenly the idea of reincarnation has produced a wave of resonance in modern society and struck a chord. This book documents the growing public acceptance of the possibility that all of us will live again after we finish our present 'go-around' on the planet Earth. The ancient concept of reincarnation and past lives has not only re-emerged into our modern consciousness, but seems to have become a more natural and accepted part of our world view. Some studies show that twenty-five percent of people in modern western countries now agree that reincarnation is not only possible, but a reality. The implications of this are enormous. Imagine a population that has been released from the fear of death. Suddenly, we have all the time in the world - eternity, in fact! Life now takes on a new dimension of meaning. We realize that this is not all there is and we also understand that we are more than our physical bodies and because we are more than our physical bodies, we can access that which is beyond the physical. Our potential is virtually unlimited. Freedom from the fear of death is a kind of universal freedom that can flow across all aspects of life and living. Knowing that we are not mere physical lumps of biological matter, but indestructible souls constructed of pure consciousness is a magnificent vision for humanity. Knowing that we are 'souls' means that we can live out our lives from that basic understanding. It is the ultimate empowerment. No doubt many will remain sceptical about the possibility of reincarnation. But it seems this is a concept and a phenomenon that is not going away. Those amazing headlines in the media just keep coming. Every day more people - average, ordinary everyday people - are discovering that they have an undeniable connection to something larger, something infinite and something absolutely amazing.

*Journeys Through Time* Jenny Cockell, 2008-11-06 Jenny Cockell has always had memories of living before. In her first book, 'Yesterday's Children', she described her search for the past life family which had haunted her from her earliest childhood. She remembered living as Mary Sutton, an Irishwoman who had died over 20 years before she was born. She gave an extraordinary account of how she successfully found Mary's surviving children, and was reunited with them in the present. Her new book, 'Journeys Through Time', brings readers up to date with her story. Jenny gives details of the four past lives that she remembers most clearly and explains how she has tried to trace them all. In particular, she remembers a life in Japan, which she has desperately sought to verify and uncover. Beginning with flashes of memories that she experienced in childhood, Jenny describes how she 'found' Mary and her children, her subsequent researches into her Japanese life, and what it all means. It is a page-turning account of one woman's journey to find the lives she lived before.
