**Roulette Strategy - Dozens and Columns Using CONTROL** Johnny Depot,2012-10-31 Roulette Strategy -Dozens & Columns using C.O.N.T.R.O.L. teaches the gambler an effective and winning system when playing american roulette. Many casino players are lured to the roulette wheel, but have no idea on how to attack casino roulette. Most players over-bet and make bad decisions like betting on favorite numbers, birthdays and many other foolish things. If you want to play with the roulette odds in your favor, then you need to have a plan. My book provides a complete plan and the best part is it works for casino roulette and internet roulette. It doesn't matter if you like to take a trip to the local casino, go to vegas or play roulette online since our roulette strategy works everywhere. The fact of the matter is that most roulette players lose money. I know, since I used to be one of them. I realized that if I wanted to have a chance at beating the roulette wheel, I needed to change my thinking. I needed to quit dreaming about the wheel barrow full of money I was going to win and start concentrating on how little I would lose. My roulette strategy needed to be simple, but my approach need to change. That's when I invented C.O.N.T.R.O.L. I knew how to play american roulette, but I had no concept of how to bet. C.O.N.T.R.O.L. gave me the answers I needed by answering the important questions like how much money do I bring to play roulette, which plays do I make (no matter if I was playing casino roulette or internet roulette) and how much do I bet. In today's era you can log into your computer and play roulette online twenty four hours a day, seven days a week. You need to have some kind of control (no pun intended) to keep yourself from going broke too fast. C.O.N.T.R.O.L. completes my roulette strategy and teaches mw how to make the most money when things are going good and more importantly when to stop and cut my losses down when things are going bad.

*Roulette* Brett Morton,2004-02-01 Roulette is a percentage game, and winning occasionally is simple. The aim is to win consistently. After watching, listening, and playing all over the world, Brett Morton distilled a wealth of information—and began to understand why he had been losing so often. Each spin of the wheel is a new and usually random event. Every spin is a fight against the casino’s advantages. It was a challenge to debunk the theorists, especially those who had never played. His research and hard work proved he was right—winning consistently is possible. Morton explains the methods to use, rates many of the well-known systems, but above all brings a clear and refreshing vision to this exciting game.

The Longevity Betting Strategy for Winning at Roulette Mark Roberts,2012-06-11 Many have tried and failed to come up with some sort of “system” to beat the odds at Roulette. And many have sold supposed “fool-proof” strategies “guaranteed: to make their customers rich, strategies that ultimately have proven to be foolhardy. The truth is that there is no guaranteed system that will ensure riches in the game of Roulette or any game of chance. But that doesn’t mean you can’t shift the odds in your favor. This strategy isn’t meant to give readers false hope that one day they’ll be jet-setting millionaires laughing about how they made their fortunes in the casinos. No. That’s just a fairy tale that charlatans use to sell you their latest scam.

**Understanding Roulette** Nick Radchen,2018-06-12 Roulette wheels have been in existence for over two hundred years, and during this time many books have been published on the subject of how to beat them. Only a tiny fraction of players who take up the challenge do so though. Just why is this? Within “Understanding Roulette, Nick Radchen examines the underlying dynamics of the game; the numbers, the probabilities, the impact of the house edge and the myths, and sets out to explain why becoming a lifetime winning player at Roulette is a tall order. Understanding Roulette is an ideal primer for those looking to inform themselves about the game and offers some practical pointers for playing recreationally, as well as touching on the subject of advantage play and the thorny matter of problem and compulsive gambling behaviour. If you're going to play Roulette, even for modest amounts of money, it makes sense to understand just why you win and why you lose. This book has been written with the aim of helping you to understand just that

**The Roulette fox** Paul M. Goldek,2014-05-14 The author is convinced that Roulette over a long time is not just pure gambling. **The Roulette Supernova System (RSS15)** Stephen Tabone,2020-01-22 The Roulette Supernova System (RSS15) / Flat Betting 15 Numbers into Profit - For use on European or American Roulette Wheels / The automatized skill of The Roulette Supernova System RSS15 is capable of outperforming the cleverest of computer programmes and the seasoned professional roulette bettor. It is the ultimate roulette predicting system. For use on European or American Roulette Wheels. / I am very excited to write about my new Roulette System. If you are looking for a roulette system that actually works, i.e. one that is able to make a profit during a Roulette session (certain amount of games/spins) most of the time, then look no further. This is it! The Roulette Supernova System (RSS15) works on single, double and triple zero 'live' wheels. When I write live, I mean human dealer-initiated games that are truly random and where games are conducted in regulated casinos, not online, non-random algorithms or manipulated air wheels.After developing and testing RSS15, I discovered an anomaly. Now, when I observe live roulette wheels in casinos, I began to see roulette as all very easy and predictable. In using RSS15, I now consider a wheel as being small and the games in motion not so complex in terms of being able to generate profits.For more than 20 years I have studied bet selection options on the table layout in relation to previous outcomes. I have observed sequences of outcomes and considered the

probabilities of one and more numbers appearing in any one session of play pertaining to a limited number of games. I have analysed many hundreds of thousands of live and random computer-generated outcomes. I have played and watched countless players bet in various casinos, considering why we chose the number/s we do and on what basis we believe those number/s have a chance of occurring moreover in most instances before the dealer has even spun the ball. No doubt you would have realized too that Roulette is a hard game to beat. I thought so too until I started to look at what drives the game. And by this, I mean the dealer, ball, wheel relationship. You see most people who play Roulette focus on their numbers, their lucky numbers, or where the dolly marker is placed on the table betting layout from spin to spin or go against or going with streaks of even chances or any of the 2-to-1 pay-out betting option odds. On the whole players are struggling to maintain not only a profitable advantage but are fighting to keep their bankrolls alive. It is like trying to keep a patient alive on life support while the vampire dealers, the casino bosses and demon house edge conspire to suck the blood from the poor souls. There are two main elements to winning when playing Roulette. The first is knowing when to stop and the second is knowing how to get to the profitable side of stopping. To know how to achieve both in order to win as an Advantage Player and Pro Roulette player, you need a proven Roulette System that will deliver. One that is able to hold its own on 'any live Roulette wheel' and you will need to learn when you should take profits and end a session and why this is important. I cover all these aspects in this book as I explain what my roulette system is, how and why it works and how to apply it in practice. Contents: Introduction to, The Roulette Supernova System (RSS15) Up and Down Waves Why Flat Betting for RSS15? Why RSS15 Works Why 15 Numbers? Live Wheels vs Computer or Air Wheels for Testing Outcomes How to Play RSS15 in Practice and why it works Session Winning Target How Much Profit to aim for Session Stop Loss Pros and cons of RSS15 Tweaking RSS15 End Statement

Pawlicki shows you visible wheel tracking techniques that can give you the edge by visually predicting where the ball is going to land. In addition, this book will show you how to sector slice to increase the speed and accuracy of your predictions.

**Roulette-Slots** John Patrick, 1983-11

Roulette, Breaking the Bank and Winning Monster Peter Zhang, 2016-04-21 Roulette game has been around for centuries and yet gamblers have gone broke just over 2.7% house edge. Now you may laugh at me and comment that I am losing 2.7% at every spin cumulatively. Of course you are right in saying that and you may tell me that it is highly negative expected value in the long run. But can you ignore these facts Roulette will produce winning and losing streaks Roulette will allow gamblers to win big by giving them 36 times of whatever they put straight up If a person goes hot and gets 2 times a number correct he stands to win 36\*36 times the amount bet consecutively. Giving you returns of 1296 times or if you just bet 25 dollars which anyone can afford to lose in a casino he will have won 32 thousand 400 dollars or \$32,400. Now with such low house edges anyone can go on a hot streak, but everyone loses. And now if I tell you I have a system that will allow you to take shots at the game of Roulette and if you win you compound your profits and cut losses and take profits then certainly the casinos will a lot fun, a lot entertainment and a hell lot more fun, then would you deny it? In this manual and in the coming pages I am going to convey to you the secrets of my winning system of Roulette, every Roulette player must read this book at least one and what have you got to lose? You are just going to get saved a lot of money and this is an indispensable guide to winning in casinos a cart full of money, all crisp 100 dollar bundles. And who knows you may even break the bank at roulette table. A lot of players go to the casinos and assume they are lucky and going to win and this is the wrong mentality to win at poker, because if you believe you are going to win you are going to compound your losses following bad strategies like Martingale. The Martingale strategy works best for the casino and they prevent losses by limiting the maximum amount of bets that could be placed and of course players like you and me don't have access to infinite resources that will allow us to keep doubling our bets forever. We need to win big and we need to win with a small amount of money. In this manual I am going to give you solid advice that will allow players to reduce the house edge of casinos and who knows if everyone read my book probably the casinos will stop the game of Roulette altogether. Because I have a system that really does beat the casinos. And the rules which I will tell you precisely in later part of the book are as follows 1. Take Profits 2. Try to go on a hot streak 3. Cut losses 4. Go for big wins like betting straight up 5. An intuitive pattern recognition system that makes phrases out of meaningless numbers for identification of wheel bias. (This works on every Roulette Wheel in Vegas, Atlantic City, every casino in the world and all machines open and closed and even automatic Roulette machines which have a ball inside a chamber) This is a short book that will give you the right tools to approach the game of Roulette and every chapter will convey the topics that I have told you above and you must use all of these tools at once so that you will make big money or be break-even or have very little losses in the game of Roulette. Good Luck and wish you a lot of fun and entertainment in the casinos.
