One Degree, Many Choices Liu Fook Thim,2012 An early crossroad in life is choosing a field of study at the university. This lays the foundation for the rest of our lives. This book records the career choices of the first batch of 557 engineering graduates from the Nanyang Technological Institute (NTI) as NTU was known in 1985. Engineering was then the only discipline offered. The passage of 25 years yielded deep insights as these pioneers reflected on the impact of their engineering education on their careers. Demonstrating the reach and significance of engineering will arouse the curiosity and imagination of the young, especially those good at maths and science. These life stories showcase the options open to an engineering graduate. If this book inspires some to take up an engineering education in general and at NTU in particular, it will have achieved its purpose.

Planning Your Will, Trust, Lpa & More: Estate Planning for the Modern Family Keon Chee, 2020-09-24 With society's rising affluence, children and families stand to inherit properties and

many thousands and millions of dollars when parents and relatives pass away. The importance of setting out clear instructions about the distribution of your assets or wealth while you are still alive cannot be overstated. This process of estate planning involves making a will and perhaps setting up a trust, depending on your personal circumstances. The rise of the modern family and what such a family is likely to own, add to the diversity of planning required. In addition to the traditional two-parent family, we have families with single parents, partners of different races, nationalities and faiths, and same-sex partners. The modern family is likely to own foreign assets, a business, pets and digital assets, and likely to consider charitable giving in their estate planning. In this book, well-known estate planner Keon Chee takes you through the various aspects of estate planning, including the writing of a will, the setting up of a trust, planning your Lasting Power of Attorney (LPA) and setting out other important final wishes. The author has invited several highly experienced practitioners to share their specialist knowledge throughout the book enhancing the breadth of coverage.

Happy In The Minority Chan Joon Yee, 2020-06-08 After witnessing what seemed like a political awakening among normally apathetic Singaporeans in the 2011 General Elections, the results of GE2015 threw a major upset. Many voters, optimistic of greater freedom and democracy, were disappointed. The results belied all the robust debates and discussions on social media. What happened? This book is a collection of Chan Joon Yee's blog posts made just before and after GE2015. Revisiting these writings help us capture the hope and despair of the non-conformists back then. As GE2020 approaches in the midst of the Covid-19 pandemic, should the non-conformists be optimistic that there is hope for change? Or should they be prepared to live happily in the minority.

Marbles, Mayhem and My Typewriter: The unfadable life of an ordinary man Mano Sabnani,2017-11-15 In a world where so many people believe that they cannot go far because they were not born gifted or with a silver spoon, Mano Sabnani's story provides profound inspiration - showing how an ordinary man can achieve extraordinary things by following a very simple and ethical set of principles. From greenhorn journalist to Editor of the Business Times, Managing Editor of the Straits Times, CEO/Editor-in-Chief of TODAY, and Managing Director at DBS, Mano enjoyed a front-row seat to the transformation of Singapore since independence and the painful trade-offs that had to be made as it achieved its phenomenal economic success. In this memoir, Mano relates the story of his life, career and family, from an idyllic boyhood in Joo Chiat through to National Service,

university days, a shoestring trek through Asia and Europe, marriage and fatherhood, to his role as an “activist investor” speaking up on behalf of ordinary shareholders. Along the way, Mano offers unique stories and special insight into a myriad of topics: friendship, leadership, values, the existence of God, the role of man in nature – and life itself.

Eat, Sleep, Innovate Scott D. Anthony, Paul Cobban, Natalie Painchaud, Andy Parker, 2020-10-20
From the author of *The Little Black Book of Innovation*, a new guide for using the power of habit to build a culture of innovation. Leaders have experimented with open innovation programs, corporate accelerators, venture capital arms, skunkworks, and innovation contests. They've trekked to Silicon Valley, Shenzhen, and Tel Aviv to learn from today's hottest, most successful tech companies. Yet most would admit they've failed to create truly innovative cultures. There's a better way. And it all starts with the power of habit. In *Eat, Sleep, Innovate*, innovation expert Scott Anthony and his impressive team of coauthors use groundbreaking research in behavioral science to provide a first-of-its-kind playbook for empowering individuals and teams to be their most curious and creative—every single day. Throughout the book, the authors reveal a collection of BEANs—behavior enablers, artifacts, and nudges—they've collected from workplaces across the globe that will unleash the natural innovator inside everyone. In addition to case studies of normal organizations doing extraordinary things, they provide readers with the tools to create their own hacks and habits, which they can then use to build and sustain their own models of a culture of innovation. Fun, lively, and utterly unique, *Eat, Sleep, Innovate* is the book you need to make innovation a natural and habitual act within your team or organization.
