Developing a sales strategy for the 'T-Mobile International' account in the Siemens Mobile Network business unit Daniel Weber, 2006-10-08 Diploma Thesis from the year 2006 in the subject Information Management, grade: 1,7, Cologne University of Applied Sciences, 124 entries in the bibliography, language: English, abstract: This document deals with the development of a sales strategy for a key account customer conducting business across domestic boundaries. The idea of key account management and the geographic distinction of it as well as the process of strategic management in this context are discussed. The focus lays on the adaptation of the strategic management process to the particularities of international key account management. In the course of this paper it is illustrated how key account management, with the key account customer as the core element, affects the strategic management process by using it with focus on a single customer instead for a whole industry. For the purpose of taking key account management on an international level, different levels of internationalisation are described and applied to the concept of key account management. As a result of this description the expanded concept of key account management to a global level – global account management – is presented. After describing the essentials of strategy, key account management and strategic management, these elements are merged and the different underlying analytical concepts are presented. The main analytical concept is based on Michael E. Porter's 'competitive strategy' and the five competitive forces. Following the description and the merging of the models, the theoretical framework is applied to the practical case of the 'T-Mobile International' account at Siemens Mobile Networks. The practical case

includes the analysis of the business relationship and leads to a final strategy. Keywords: Global account management Key account management Strategic management Strategy development Geographical distinction

Don't Travel without iPhone Jimmy Chang,

Beyond Everywhere Greg Ennis,2023-07-20 Eighteen billion Wi-Fi devices are in use around the world, with four billion more added every year. Connecting everyone to everything, it is central to our lives today. How did this happen? Beyond Everywhere is the surprising story in its entirety: the techno/political conflicts at its birth, the battles against competing technologies as it was being nurtured, and the international diplomatic intrigue as it spread across the planet. This vivid narrative about the people who gave Wi-Fi to the world is told with humor, insight, and charm by one of Wi-Fi's key developers. "An accessible account of how Wi-Fi tech became a crucial part of our work, society, and lives." —Kirkus Reviews "Whether you are a fan of technology or simply a fan of great storytelling, you will be captivated by Beyond Everywhere, the heretofore untold story of how the fundamental Wi-Fi connectivity we all rely on came to be. Because of his unique and longstanding position at the very center of the Wi-Fi world, there is no one better than Greg Ennis to

tell this dramatic tale. Now synonymous with the internet itself—and with billions of users—the Wi-Fi story has finally been told.”
—Edgar Figueroa, President and CEO, Wi-Fi Alliance

Order of Protection From God Exavier Rodgers,2020-06-16 This book tells the story of: how one's life, simultaneously guided and sustained by God, could still enter, an in-depth journey, with excruciating hardship & trials to face, throughout an unknown period of time. In a developing story of one who proclaims to love Christ, to one who truly walks with Christ,' you will witness! Meanwhile; multiple phases of hardship are to occur throughout this book. Then the testing of one's character such as - Love, Patience, Courage, Stewardship, Trust, and Communion - together, are the fruit of the spirit that needs tooling in this spiritual quest.
