**Beyond Well-Being** Martin Dowson, Stuart Devenish, Maureen Miner, 2012-08-01 This volume arose out of a deep concern to assist people in their struggle to lead a flourishing life. Fractured, stressed, relationally broken and spiritually empty people may instinctively reach for the supposed panacea of happiness. But happiness is often a transitory state. More stable and worthwhile than the pursuit of happiness is leading a flourishing life. But what is flourishing? Is spirituality necessary for human flourishing and, if so, in what ways might spirituality provide a unique and important contribution to flourishing? The volume provides complementary yet diverse accounts of human flourishing. Each account argues that spirituality in general, and Christian spirituality in particular, are vital contributors to flourishing. The volume will be valuable for those who are dissatisfied with popular hedonistic approaches to flourishing. Such people are ready for a change in approach, but often do not have a clear alternative in view. The Volume will provide a clear alternative to popular culture's representation of the flourishing person, which is largely vested in conspicuous consumption. The book will also be valuable for those who have considered alternatives to popular culture, but who lack an informed basis on which to evaluate these alternatives. Finally, the book will be valuable for those who are committed to Christian spirituality but may not appreciate the rich resources which Christian faith offers for human flourishing. Amongst the latter group are included Christian leaders such as priests and pastors, voluntary church workers and lay people who may or may not be involved in formal religion but who long to flourish in their own lives and to enable others to do the same.

**COMMANDERS IN CRISIS VOL. 2: THE REACTION** Steve Orlando, 2021-12-08 Our world sits in the final reality. Empathy, unity, decency...every day, we lose something we thought we couldn't live without. To save us all, the Crisis Command must give up everything they know—from their egos to their idealism—and go on a journey of rediscovery as the clock ticks towards annihilation. Standing in their way is the Extinction Society, an organization convinced that the only reasonable act for civilization is self-destruction. To survive, the Crisis Command has to be something more than superheroes, they have to be something better—and they have to inspire the last earth to do the same, so they can all meet tomorrow, together. The emotional conclusion to a prescient series from acclaimed writer STEVE ORLANDO (Wonder Woman, Doom Patrol: Milk Wars, Martian Manhunter) and artist DAVIDE TINTO (Marvel Action: Spider-Man). Collects COMMANDERS IN CRISIS #7-12

Using Aspect-Oriented Programming for Trustworthy Software Development Vladimir O. Safonov, 2008-06-09 Learn how to successfully implement trustworthy computing tasks using aspect-oriented programming This landmark publication fills a gap in the literature by not only describing the basic concepts of trustworthy computing (TWC) and aspect-oriented programming (AOP), but also exploring their critical interrelationships. The author clearly demonstrates how typical TWC tasks such as security checks, in-and-out conditions, and multi-threaded safety can be implemented using AOP. Following an introduction, the book covers: Trustworthy computing, software engineering, and computer science Aspect-oriented programming and Aspect.NET Principles and case studies that apply AOP to TWC Coverage includes Aspect.NET, the AOP framework developed by the author for the Microsoft.NET platform, currently used in seventeen countries. The author discusses the basics of Aspect.NET architecture, its advantages compared to other AOP tools, and its functionality. The book has extensive practical examples and case studies of trustworthy software design and code using the Aspect.NET framework. In addition, the book explores other software technologies and tools for using AOP for trustworthy software development, including Java and AspectJ. This book also includes a valuable chapter dedicated to ERATO, the author's teaching method employed in this book, which has enabled thousands of students to quickly grasp and apply complex concepts in computing and software engineering, while the final chapter presents an overall perspective on the current state of AOP and TWC with a view toward the future. Software engineers, architects, developers, programmers, and students should all turn to this book to learn this tested and proven method to create more secure, private, and reliable computing.

**American Literature in the Era of Trumpism** Dolores Resano, 2022-08-23 This edited collection offers an exploration of American literature in the age of Trumpism—understood as an ongoing sociopolitical and affective reality—by bringing together analyses of some of the ways in which American writers have responded to the derealization of political culture in the United States and the experience of a 'new' American reality after 2016. The volume's premise is that the disruptions and dislocations that were so exacerbated by the political ascendancy of Trump and his spectacle-laden presidency have unsettled core assumptions about American reality and the possibilities of representation. The blurring of the relationship between fact and fiction, bolstered by the discourses of 'fake news' and 'alternative facts,' has not only drawn attention to the shattering of any notion of 'shared' reality, but has also forced a reexamination of the purpose and value of literature, especially when considering its troubled relation to the representation of 'America.' The authors in this collection respond to the invitation to reassess the workings of fiction and critique in an age of Trumpism by considering some of the most recent literary responses to the (new) American reality(ies)—including works by Colson Whitehead, Ben Winters, Claudia Rankine, Gary Shteyngart, Jennifer Egan, and Steve Erickson, to name but a few—, some of which were composed in the run-up to the 2016 election but were able to accurately and incisively imagine the world to come.

Becoming Trader Joe Joe Coulombe, 2021-06-22 Build an iconic shopping experience that your customers love—and a work environment that your employees love being a part of—using this blueprint from Trader Joe's visionary founder, Joe Coulombe. Infuse your organization with a distinct personality and culture that draws customers in a way that simply competing on price cannot. Joe Coulombe founded what would become Trader Joe's in the late 1960s and helped shape it into the beloved, quirky food chain it is today. Realizing early on that he could not compete and win by playing the same game his bigger competitors were playing, he decided to build a store for educated people of somewhat modest means. He brought in unusual products from around the world and promoted them in the Fearless Flyer, providing customers with background on how they were sourced and their nutritional value. He also gave the stores a tiki theme to reinforce the exotic trader ship concept with employees wearing Hawaiian shirts. In this way, Joe laid down a blueprint for other business owners to follow to build their own unique shopping experience that customers love, and a work environment that employees love being a part of. In *Becoming Trader Joe*, Joe shares the lessons he learned by challenging the status quo and rethinking the way a business operates. He shows readers of all types: How moving from a pure analytical approach to a more creative, problem-solving approach can drive innovation. How finding an affluent niche of passionate customers can be a better strategy than competing on price and

volume. How questioning all aspects of the way you do business leads to powerful results. How to build a business around your values and identity.

**The Gig Economy** Brian Dolber,Michelle Rodino-Colocino,Chenjerai Kumanyika,Todd Wolfson,2021-05-30 This edited collection examines the gig economy in the age of convergence from a critical political economic perspective. Contributions explore how media, technology, and labor are converging to create new modes of production, as well as new modes of resistance. From rideshare drivers in Los Angeles to domestic workers in Delhi, from sex work to podcasting, this book draws together research that examines the gig economy's exploitation of workers and their resistance. Employing critical theoretical perspectives and methodologies in a variety of national contexts, contributors consider the roles that media, policy, culture, and history, as well as gender, race, and ethnicity play in forging working conditions in the 'gig economy'. Contributors examine the complex and historical relationships between media and gig work integral to capitalism with the aim of exposing and, ultimately, ending exploitation. This book will appeal to students and scholars examining questions of technology, media, and labor across media and communication studies, information studies, and labor studies as well as activists, journalists, and policymakers.

**Sport, Politics and the Charity Industry** Kyle Bunds,2017-09-01 Sport is commonly used by charities and philanthropic organisations as a way of acquiring donors and fundraisers. In this ground-breaking study, Kyle Bunds examines the nexus of sport, politics and the charity industry through an investigation of water development agencies that raise funds in the developed world to build water systems in the developing world. Using innovative auto-ethnographic research methods, this book examines the links between water charities, charity running events and water development projects in the UK, USA, Canada and Africa. By exploring the political economy of philanthropy from a critical perspective, it suggests new ways in which to support and improve the relationships between sport, wider society and the environment. Posing important questions about the potential environmental impact of sport on an international level, this study presents a compelling vision of the future of water charities across the globe. Sport, Politics and the Charity Industry: Running for Water is fascinating reading for all those interested in sport and politics, sports geography, sport and the environment, sports development, or sport and the charity industry.

**Educational Transitions and Social Justice** Aina Tarabini,2022-09-22 Drawing on qualitative analysis in Barcelona and Madrid, this book explores upper secondary educational transitions in urban contexts, the different political, institutional and subjective dimensions of these transitions and the multiple mechanisms of inequality that traverse them.

*The Girl from the Papers* Jennifer L. Wright,2023-08-08 Inspired by one of America's most notorious couples, Bonnie and Clyde, Jennifer L. Wright delivers a riveting tale set during the public enemy era of the Great Depression. Beatrice Carraway has dreams. Although she's aged out of the childhood pageant circuit, she's intent on carrying her talents all the way to the big screen—if only she can escape the poverty of West Dallas first. But as the Great Depression drags the working class further and further under, Beatrice struggles just to keep herself, her mother, and her younger sister afloat. After a string of failed auditions, she feels defeated. And then in walks Jack Turner. Though Beatrice is determined to pull herself up by her bootstraps, Jack has decided on a different path out of the gutters. It isn't long before Beatrice is swept into an exciting and glamorous life of crime beside the man she loves. Keeping one step ahead of the law, she sees her dreams of fame come true when her name and picture are plastered in newspapers across the country. Yet as their infamy grows, the distance between them widens. While Jack begins seeking bigger payouts and publicity, Beatrice starts to long for a safe, quiet life and something deeper to fill the emptiness in her soul. But when the danger of Jack's schemes ratchets up, Beatrice fears her dreams—and her future—will end up going down in a hail of bullets.

**Assessment Reform in Science** Benny B.H.W Yung,2006-01-09 The conclusions and recommendations made in the book are derived from a study of ten teachers in Hong Kong as they tried to change their practice following a reform of the Hong Kong assessment system. Hong Kong is simply a context that provided the opportunity to gather very rich and informative data on issues pertaining to assessment reforms which also have very wide implications in many countries' contexts. The book is written for practising teachers, teachers-in-training, teacher educators, policy makers and researchers who are interested in teachers' classroom practices, teacher beliefs, teacher professionalism, implementation of educational reforms in general and high stakes assessment reforms in particular. The structure of the book is organized in a manner that rapidly presents the case stories of the teachers to the readers. These stories can be helpful to all teachers, whether in training or experienced, in a number of ways: (1) as a set of ideas to be debated upon and to act as a springboard for reflection on the purposes of assessment in education and on the role of teachers in these purposes; (2) as examples of practice that can be compared to the readers' own existing practices; and (3) as a source of models of practice to apply and test in readers' own classrooms. These case stories are followed by a discussion of a number of issues that arise from this group of teachers' beliefs and practices. To cater for research-oriented readers, the relevant literature, theoretical underpinnings, and the intriguing research methodology that led to the case stories will appear as appendices.

**George MacDonald's Challenging Theology of the Atonement, Suffering, and Death** Miho Yamaguchi,2007-06 This book sheds light on the challenging theology of nineteenth-century Scottish writer George MacDonald concerning the true meaning of the Atonement, the purpose of trials and suffering, the nature of the unpardonable sin, hope for growth, and death. Under consideration is Thomas Hooker's Poor Doubting Christian Drawn unto Christ on the redemption of Joan Drake and its influence on MacDonald's Wingfold trilogy; MacDonald's version of the Wandering Jew; MacDonald's interpretation of Coleridge's The Rime of the Ancient Mariner and Dante's Divine Comedy; and similarities and differences between the theological ideas of MacDonald, C. S. Lewis, Elizabeth Prentiss, and Shusaku Endo.

**Swing It!** John Sforza,2014-07-11 In the years before and after World War II, there were no bigger voices than those of the Andrews Sisters. Maxene, LaVerne, and Patty charted more top ten Billboard hits than Elvis or the Beatles and went on to become the top-selling female vocal group of all time, selling approximately 100 million records. They recorded such instant hits as Beer Barrel Polka, Boogie Woogie Bugle Boy, Don't Fence Me In, and I Can Dream, Can't I? They dominated the music scene for fifteen years with some 600 recordings, appearances in seventeen films, cabaret performances, and countless radio and television appearances. Swing It! is the first published biography of this incredibly popular trio. The book includes many rarely published photos and features extensive career data, including a detailed discography, filmography, and listing of their radio and television appearances between 1938 and 1967. The Andrews Sisters had their big break with the 1937 release of the Yiddish tune Bei Mir Bist Du Schon (Means that You're Grand), which sold 350,000 copies in one month and established the trio as successful recording artists. The sisters are now probably best remembered for their work entertaining troops in World War II. They traveled across the U.S. and to Italy and Africa, and their recording of Boogie Woogie Bugle Boy for the film Buck Privates became synonymous with the war effort. Part of the reason for the success of the Andrews Sisters was their ability to perform so many different types of music. They repeatedly achieved major hits with melodies derived from many different countries, becoming the first and most prominent artists of their time to bring ethnic-influenced music to the forefront of America's hit parade. The Andrews Sisters separated for two years in the 1950s as the strain of constantly living, working, and playing together for over four decades took its toll. They reunited in 1956 and continued to perform together until LaVerne's death from cancer in 1967. The Andrews Sisters remain the most successful and enduring female vocal group in the history of show business. Theirs are the voices that defined an era.

**Degsy Hay, A Juvenile Redeemed** Brian S Montgomery,2018-12-04 Sixteen-year-old Degsy is roughing it on the snowy streets of London with no one for company but Sadface, the three-legged dog he saved from the bins. He's spent his whole life in and out of jail, rising to power as the gaffer, dealing, cracking skulls, but he always looks after his own and those who can't look after themselves. He learnt that from Gladys - the little old lady whose life he saved when he was a kid - and from his violent, drug-addicted mum, who showed him exactly what it feels like to be powerless and alone. He was cut from her belly, kicking and screaming, in a prison cell and spent his first four years there in hell. It was tough - he has the scars to prove it - but he has no idea how tough until he finds her diary: The Devil's Book. Her cheerful boasts of violence, humiliation and torture

leave him breathless. Then her evil scrawl gets darker still, and sexual, and just as he is about to discover the full horror of his childhood, he finds that the pages he needs to read are missing. But he must look forward now. He’s determined to keep his nose clean. He can’t go back to prison, not again. He wants to make a better life for himself. And he wants to help others, too: kids in gangs, like he was, the homeless, the elderly, like Gladys – he can’t bear the thought of them getting beaten up or feeling like prisoners in their own homes. He has a vision. He wants to turn an abandoned school and hospital into a housing project for young people – Unit 16-21. It will cost millions of pounds, and he can’t even afford a bag of crisps, but it’s a dream that keeps him warm at night (along with hooch, weed and the pills that the vet gave him for Sadface’s injuries). He wants to change the world ... but the world has other ideas. See, he takes on a final job to score a little cash – dumping a scooter for the TWC, a gang with a reputation for violence and connections to a mysterious crime lord with eyes, ears and guns on every corner: MR-K. It turns out the scooter was used to mow down a copper, and members of the TWC take photos of him dumping it. Now he’s just waiting to be arrested for a crime he didn’t commit. And then there’re the kids to worry about: more and more missing kid posters are pasted all over London, and when his mate, Dipper, goes missing, he knows that it’s a problem he can’t ignore. As Degsy searches for the truth about his past, the whereabouts of the missing children and a better way of life, losing the game of cat and mouse with street predators and the police, he is slowly drawn back into a world of trouble that he will be lucky to escape with his life intact. But Degsy’s is a story of transformation and redemption, of strength and hope, of holding onto an impossible dream and watching it become a reality ... no matter what the cost.
