*Seventeenth-century Roman Palaces* Patricia Waddy, 1990 Buildings have lives in time, observes Patricia Waddy in this pioneering study of the relation between plan and use in the palaces of the Borghese, Barberini, and Chigi families.

*Recuerdos* Mariano Guadalupe Vallejo, 2023-03-02 A generation after the U.S. conquest of California, Mariano Guadalupe Vallejo set out to write the story of the land he knew so well—a history to dispel the romantic vision quickly overtaking the state's recent past. The five-volume history he produced, published here for the first time in English translation, is the most complete account of California before the gold rush by someone who resided in California at the time. Mariano Guadalupe Vallejo (1807–90) grew up in Spanish California, became a leading military and political figure in Mexican California, and participated in some of the founding events of U.S. California, such as the Monterey Constitutional Convention and the first legislature. With his project, undertaken for historian and publisher Hubert Howe Bancroft, Vallejo sought to correct misrepresentations of California's past, which dismissed as insignificant the pre-gold rush Spanish and Mexican periods—conflated into one “Mission era.” Instead, Vallejo's history emphasized the role of the military in the Spanish colonization of California and argued that the missionaries after Junípero Serra, with their medieval ideas, had actually retarded the development of California until secularization in the early 1830s. Culture, he contended, was of intense interest to the Californio people, as was the education of children. His accounts of Indigenous peoples, while often sympathetic, were also characteristic of his time: he and other California military leaders, Vallejo maintained, had successfully subdued “hostile” Indians and established mutually beneficial relationships with others. Out of keeping with Bancroft's American triumphalism, Vallejo's monumental project was consigned to the archives. With their deft translation and commentary, Rose Marie Beebe and Robert M. Senkewicz—authors of a companion volume on Vallejo's work—have brought to light a remarkable perspective, often firsthand, on important events in early California history. Their efforts restore a critical chapter to the story of California and the American West.

*Undocumented Saints* William A. Calvo-Quirós, 2022 Undocumented Saints follows the migration of popular saints from Mexico into the US and the evolution of their meaning. The book explores how Latinx battles for survival are performed in the worlds of faith, religiosity, and the imaginary, and how the socio-political realities of exploitation and racial segregation frame their popular religious expressions. It also tracks the emergence of inter-religious states, transnational ethnic and cultural enclaves unified by faith. The book looks at five vernacular saints that have emerged in Mexico and whose devotions have migrated into the US in the last one hundred years: Jesús Malverde, a popular bandido turned saint caudillo; Santa Olguita, an emerging feminist saint linked to border women's experiences of sexual violence; Juan Soldado, a murder-rapist soldier who is now a patron

for undocumented immigrants and the main suspect in the death of an eight-year-old victim known now as Santa Olguita; Toribio Romo, a Catholic priest whose ghost/spirit has been helping people cross the border into the US since the 1990s; and La Santa Muerte, a controversial personification of death who is particularly popular among LGBTQ migrants. Each chapter contextualizes a particular popular saint within broader discourses about the construction of masculinity and the state, the long history of violence against Latina and migrant women, female erasure from history, discrimination against non-normative sexualities, and as US and Mexican investment in the control of religiosity within the discourses of immigration.

**Inigo** Jonathan Moore, 2017-03-02 The fast-paced story of one man's journey from sinner to saint as he battles the Inquisition and the corruption of the Catholic Church. Inigo (Ignatius of Loyola) begins as a hot-headed, street-fighting sensualist, in this action-packed play but due to serious injury in a sword-fight, he becomes disabled and has to spend time recovering and reassessing his dissolute life. This stage version of his life follows his transformation to become the co-founder of the Jesuits in the sixteenth century, battling the powers of the day and the Inquisition. In Moore's bold, funny play, he asserts Inigo's position as a radical figure bent on changing the Catholic Church. It is ideal for performing in schools, colleges and theatres. Of special interest to schools and colleges, many of which are named after Inigo (Ignatius of Loyola). Inigo's spiritual tools for change have informed modern self-development programs such as the 12 step program for recovering drug and alcohol addicts. As Pope Francis is a Jesuit, this is a timely exploration of one of history's major spiritual leaders and reformers. This is the most interesting play text to have reached me for a while... Ignatius of Loyola, founder of the Jesuits is not the most obvious choice for a play subject until you remember that he was effectively a counter-cultural radical fighting an implacable establishment suddenly it is both topical and relevant. I hope this thoughtful, engaging and very funny in places eight-hander will get more outings very soon. If not read the text anyway. --Susan Elkin, The Stage Impressive...entertaining. Enlightening. ★★★★★ LondonTheatre1 Historically accurate, comic and thought-provoking while still incredibly relevant. ★★★★★ Plays To See Brilliantly written and acted...a great evening of thoughtful and dynamic theatre --Mark Lawson (Writer, Arts Broadcaster and Journalist) The intelligence of the production, and especially the vitality and versatility of the performances make for a moving, stimulating and enjoyable experience. The structure and dynamism of the play, the art with which Jonathan Moore makes Ignatius accessible to us, capturing much of the drama of the Spiritual Exercises themselves, would also make 'Inigo' an excellent discovery for schools and colleges. I hope that is something we may look forward to. --James Hanvey, Master of Campion Hall, Oxford University. (on [thinkingfaith.org](http://www.thinkingfaith.org)) (Full article: <http://www.thinkingfaith.org/articles/forging-soul-'inigo'-white-bear-theatre>) Condensing a life so full of internal struggle, complex relationships and momentous incident into two hours of drama is an astonishing achievement. Jonathan Moore has honed the story with skill and passion and also a good measure of humour. --Jane Hellings, Jesuits and Friends Jonathan Moore is an award-winning actor, writer and director. As an actor he has

played leading roles at the Royal Shakespeare Co, Royal Court, Donmar, the Royal Exchange and on BBC TV. He has directed theatre and opera world premieres at the Almeida, Donmar, West End, Royal Exchange, Gate, English National Opera, Covent Garden, La Fenice in Venice and on TV among many others. He has directed world premieres by composers such as Turnage, MacMillan, Henze, Schnittke, Nyman, Copeland and more, and his early work was sponsored by Joe Strummer of The Clash. He has collaborated with members of punk band Killing Joke and on several projects with Industrial group Test Dept. A published playwright and librettist, his work has been performed at leading theatres including the Donmar, Royal Exchange, Gate, BBC TV, radio and internationally. Jonathan was asked by Mark Rylance to direct the large-scale immersive project for over fifty performers *What You Will*, a co-production for Shakespeare's Globe, The Cultural Olympiad and Mayor's Office and several subsequent Shakespeare projects. He is due to direct a large-scale site-specific immersive project for Ludovico Einaudi in Italy and a new opera project with Stewart Copeland. He is on the Artistic Advisory Committee of the Royal Academy of Dramatic Art. He has had a Who's Who entry since 2007. A collection of Moore's plays has been previously published by Aurora Metro Books.

Our Lady of Happy Endings Jenifer McVaugh, 2016-10-11 In the snow-drenched Canadian winter of 1995, poet Mimi Clement succumbs to writer's block. She will do anything to summon enough faith to get her through another cold, drab day, even if she has to pray for it. Her brother Damon tells her she needs a man, not faith, but he kindly drives her to the airport to begin a pilgrimage. High in the mountains of western México, Mimi finds Nuestra Señora del Buen Suceso - Our Lady of Happy Endings. This virgin wears a rosary of skulls carved by an admirer: "memento mori." Mimi takes it as a sign. For nine days Mimi says her remembered rosary prayers, as she struggles not to forget death. Ignore the sensuous temptations of paradise: memento mori! Tune out the screams of fighting cocks and the rumours of macho abuses: memento mori! Turn a blind eye to the discovery of a lost El Greco masterpiece. Memento mori! There is no better place to look for faith than in the close-up of a new reality.

**Subterranean Struggles** Anthony Bebbington, Jeffrey Bury, 2013-11-15 Over the past two decades, the extraction of nonrenewable resources in Latin America has given rise to many forms of struggle, particularly among disadvantaged populations. The first analytical collection to combine geographical and political ecological approaches to the post-1990s changes in Latin America's extractive economy, *Subterranean Struggles* closely examines the factors driving this expansion and the sociopolitical, environmental, and political economic consequences it has wrought. In this analysis, more than a dozen experts explore the many facets of struggles surrounding extraction, from protests in the vicinity of extractive operations to the everyday efforts of excluded residents who try to adapt their livelihoods while industries profoundly impact their lived spaces. The book explores the implications of extractive industry for ideas of nature, region, and nation; "resource nationalism" and environmental governance; conservation, territory, and indigenous livelihoods in the Amazon and Andes; everyday life and livelihood in areas affected by small- and large-scale mining alike; and overall patterns of social mobilization across the region. Arguing that such struggles are an integral part of the new extractive economy in Latin America, the authors document the increasingly conflictive character of these interactions, raising important challenges for theory, for policy, and for social research methodologies. Featuring works by social and natural science authors, this collection offers a broad synthesis of the dynamics of extractive industry whose relevance stretches to regions beyond Latin America.

**Outlawing the Spoils** Ari Hoogenboom, 1968

*From Enron to Evo* Derrick Hindery, 2013-06-06 Offering a critique of both free-market piracy and the dilemmas of resource nationalism, *From Enron to Evo* is a groundbreaking book for anyone concerned with Indigenous politics, social movements, and environmental justice in an era of expanding resource development.

**From Movements to Parties in Latin America** Donna Lee Van Cott, 2007-04-30 Provides a detailed treatment of an important topic that has received no scholarly attention: the surprising transformation of indigenous peoples' movements into viable political parties in the 1990s in four Latin American countries (Bolivia, Colombia, Ecuador, Venezuela) and their failure to succeed in two others (Argentina, Peru). The parties studied are crucial components of major trends in the region. By providing to voters clear programs for governing, and reaching out in

particular to under-represented social groups, they have enhanced the quality of democracy and representative government. Based on extensive original research and detailed historical case studies, the book links historical institutional analysis and social movement theory to a study of the political systems in which the new ethnic cleavages emerged. The book concludes with a discussion of the implications for democracy of the emergence of this phenomenon in the context of declining public support for parties.

**Weaponizing Maps** Joe Bryan, Denis Wood, 2015-03-11 Maps play an indispensable role in indigenous peoples' efforts to secure land rights in the Americas and beyond. Yet indigenous peoples did not invent participatory mapping techniques on their own; they appropriated them from techniques developed for colonial rule and counterinsurgency campaigns, and refined by anthropologists and geographers. Through a series of historical and contemporary examples from Nicaragua, Canada, and Mexico, this book explores the tension between military applications of participatory mapping and its use for political mobilization and advocacy. The authors analyze the emergence of indigenous territories as spaces defined by a collective way of life--and as a particular kind of battleground.
