**Success for All** Melisa N. Choroszy,Theodor M. Meek,2020-04-15 While the most important measure of success for many degree-seeking students is the timely attainment of a Bachelor's degree, there remains a host of other indicators of student success that vary by student population and students' personal goals. Many of these smaller successes lead to the ultimate goal of graduation and are significant triumphs throughout the journey through higher education. Success for All is a strategic guide for administrators and educators that offers methods for advising students through the myriad of challenges they face. Every bit of success contributes to the accomplishment of a larger goal, and this book highlights success at every level. It provides a specific roadmap to the research, services, and programs at the University of Nevada, Reno and Truckee Meadows Community College that support student success in undergraduate and graduate programs regardless of a student's social, emotional, or prior academic experiences. Contributors discuss how to make students feel welcome in their social and educational environments and how to directly assist them with the timely completion of their degree. Administrators and educators demonstrate how these programs help make a positive contribution to the students and the institutions they serve while implementing practical solutions to increase graduation rates.

**Psychosocial Approaches to Deeply Disturbed Persons** E Mark Stern,Peter R Breggin,2013-11-19 At a time when biological psychiatry claims that drugs and electroshock are the best methods for helping deeply disturbed persons, mental health professionals need to be reminded that psychological and social approaches to mental illnesses remain more effective, less harmful, and much more able to address the real needs of recovery, growth, and development for affected persons. Psychosocial Approaches to Deeply Disturbed Persons empowers counselors, psychiatrists, psychologists, and social workers to trust their intuitive and clinical understanding of how to help seriously disturbed people through humane, caring approaches. Psychosocial Approaches to Deeply Disturbed Persons introduces mental health professionals to an array of psychological and social alternatives that are available for helping patients considered "psychotic" or very emotionally disturbed. Focusing on psychological and social approaches to helping people who become labeled "psychotic" or who carry serious psychiatric diagnoses, contributors show mental health professionals psychological, social, and spiritual alternatives for approaching or treating these individuals. Readers learn about: a successful model for nonmedical, non-drug residential treatment centers utilizing the artwork of psychotic patients case histories of psychoanalytic therapy group therapy to help families with a "schizophrenic" member improve communication Re-evaluation Counseling (RC) with disturbed individuals psychoanalytically-oriented therapy World Health Organization research which demonstrates the positive effect of extended family and social relationships and the negative effect of modern biopsychiatric treatment research demonstrating the efficacy of psychotherapy with persons labeled "schizophrenic" These chapters combined with a review of empirical studies demonstrate to readers the efficacy of psychotherapy with psychotic patients. Students or experienced professionals in any of the mental health fields, including psychotherapy, counseling, clinical psychology, clinical social work, and Re-evaluation Counseling will find Psychosocial Approaches to Deeply Disturbed Persons a necessity for most effectively and humanely treating clients with serious psychiatric diagnoses.

Fragile Learning David Mathew,2018-03-22 What are the barriers and obstacles to adults learning? What makes the process of adult learning so fragile? And what exactly do we mean by Fragile Learning? This book addresses these questions in two ways. In Part One, it looks at challenges to learning, examining issues such as language invention in a maximum security prison, geography and bad technology, and pedagogic fragility in Higher Education. Through a psychoanalytic lens, Fragile Learning examines authorial illness and the process of slow recovery as a tool for reflective learning, and explores ethical issues in problem-based learning. The second part of the book deals specifically with the problem of online anxiety. From cyberbullying to Internet boredom, the book asks what the implications for educational design in our contemporary world might be. It compares education programmes that insist on the Internet and those that completely ban it, while exploring conflict, virtual weapons and the role of the online personal tutor.

*Methodologies in Semantic Fieldwork* M. Ryan Bochnak,Lisa Matthewson,2015 This volume brings together papers that discuss methodological issues in conducting elicitation on semantic topics in a fieldwork situation. Each author pairs explicit methodological proposals with concrete examples of their use in the field. The range of languages discussed span 11 language families and four continents.

Life After Death : A Mother's Story Jeany Pavett,2010-10-11 When parents lose a child, it seems like the pain will never end. But through God, all things are possible. Author Jeany Pavett and her husband lost their first daughter before she even turned a year old. Writing honestly and openly about the traumatic events of her life, Life After Death: A Mother's Story is the story of baby Gabrielle's birth, her life, and her death; it is also about the death of Jeany's own childhood because of the abuse she suffered as a child, how she felt, the fear, helplessness and trauma. And it's a story of how almost losing another daughter really tested her family, yet her faith in God remained constant. Jeany's story tells how God has always been by her side to be her strength, even though there were times it really didn't seem that way.

**The Secret History of a Woman Patient** Janet Rhys Dent,2018-10-08 When Janet Rhys Dent is diagnosed with a life-threatening illness, she decides to try to be a good patient. With any luck, this role will give her the best chance of recovery during the six months of medical testing and treatment that she faces. This book reveals her secret dilemmas and discoveries both inside and outside the hospital. It also records her successes and many failures as she becomes seriously involved in the quest to find out what makes a good patient. Her experiences lead her to reflect on her life, to look further into the roles of patients, to join a support group and to seek information and enlightenment on internet sites and in philosophy and popular self-help methods. What she learns brings about a change in her attitudes, not only to being a patient but also to life and living. As to the essence of being a good patient, she discovers that the answer is simpler and more life-affirming than she had ever imagined. 'Though names and personal details have been changed for the sake of others' privacy, all the episodes in the book are true, real-life events. I portray the new world I am thrown into; the search for knowledge about it; the people I meet; my attempts to understand and trust the hospital staff, system and

treatment; and my failures and successes in adapting to many other challenges both outside and inside the hospital.' - Janet Rhys Dent, in the Introduction.

How Can You Eat That? Lily Johns,2023-10-25 Lily Johns began life as a confident, happy child but in her teenage years started to suffer from lack of self-esteem and confidence. This spiralled into anorexia and depression that held her captive from her teenage years to her early 40s. She was never able to speak to anyone who had recovered from anorexia because "the system" never gave her the opportunity. She therefore never believed that recovery was possible. This harrowing but ultimately uplifting book charts her descent into a world of distorted and delusional thinking, years of well-meaning treatment that did little to get to the root of the problem, and the turning-point that put hope back on the agenda. Lily, who describes herself as being "in remission" from the illness, tells her story with unflinching honesty. When she found it hard to communicate because of the barrage of negative thoughts, she began to draw: the results allowed outsiders a glimpse of what she was going through, and many of them are reproduced in this book. This is the ideal book for parents, siblings, friends, partners, carers or nurses who want a better understanding of the "anorexic mind", as well as offering hope to fellow sufferers.

Intimate Grammars Anthony K. Webster,2016-05 On April 24, 2013, Luci Tapahonso became the first poet laureate of the Navajo Nation, possibly the first Native American community to create such a post. The establishment of this position testifies to the importance of Navajo poets and poetry to the Navajo Nation. It also indicates the Navajo equivalence to the poetic traditions connected with the U.S. poet laureate and the poet laureate of the United Kingdom, author Anthony K. Webster asserts, as well as its separateness from those traditions. *Intimate Grammars* takes an ethnographic and ethnopoetic approach to language and culture in contemporary time, in which poetry and poets are increasingly important and visible in the Navajo Nation. Webster uses interviews and linguistic analysis to understand the kinds of social work that Navajo poets engage in through their poetry. Based on more than a decade of ethnographic and linguistic research, Webster's book explores a variety of topics: the emotional value assigned to various languages spoken on the Navajo Nation through poetry (Navajo English, Navlish, Navajo, and English), why Navajo poets write about the "ugliness" of the Navajo Nation, and the way contemporary Navajo poetry connects young Navajos to the Navajo language. Webster also discusses how contemporary Navajo poetry challenges the creeping standardization of written Navajo and how boarding school experiences influence how Navajo poets write poetry and how Navajo readers appreciate contemporary Navajo poetry. Through the work of poets such as Luci Tapahonso, Laura Tohe, Rex Lee Jim, Gloria Emerson, Blackhorse Mitchell, Esther Belin, Sherwin Bitsui, and many others, Webster provides new ways of thinking about contemporary Navajo poets and poetry. *Intimate Grammars* offers an exciting new ethnography of speaking, ethnopoetics, and discourse-centered examinations of language and culture.

Strange But True Dr. A.H. Khan,2022-10-31 Written clearly, the aim of the book "Strange but True" is to highlight some points. There are many incidences that occurred in the hospitals which are of general interest to the general readers. The author is conscious that some points may be sensitive so he made it clear that the book is not meant to insult, degrade, defame or anything like this to anyone. The author believes that this world and this country (U.K.) have given him so much, which he wants to give back to the world/country for the benefit of other people. As a Muslim, the author has questioned many beliefs common among Asian Muslims, which are frequently addressed in the mosques, written in so-called Islamic literature and believed by many Muslims. In addition to his professional knowledge as a medical doctor, the author's overall general knowledge and knowledge in sciences is of high standard. He was selected to be trained as a magistrate, went through two stages of interviews, but because of his heavy workload as a consultant in the NHS, could not complete his training. His consultant colleagues from his last hospital, the manager of that hospital and the consultants from his previous jobs in NHS, where he worked as a junior doctor, speak very highly about him.

**Integrated Treatment for Co-Occurring Disorders** Jack Klott,2013-02-26 The definitive guide to identify, assess, and create individualized treatment plans for high-risk clients who suffer from challenging co-occurring disorders Treat the person and not the diagnosis. Respect that all behaviors are purposeful. Remain mindful that nobody changes behaviors without motivation. These essential guiding principles are the framework of this book. They will be repeated quite often as we examine the challenging population of men and women with co-occurring disorders. –From *Integrated Treatment for Co-Occurring Disorders* Annual studies reveal that 70 percent of men and women who died by suicide were diagnosed with a mental illness or personality disorder and used drugs to gain temporary relief from the symptoms. Until now, very little has been written about how to identify, assess, and treat this population. *Integrated Treatment for Co-Occurring Disorders: Treating People, Not Behaviors* addresses that need. Respectful of the client and filled with practical advice, this book: Examines the guiding principles for treating clients with co-occurring disorders Details the methods of formulating an evidence-based individualized treatment plan for the self-medicating mentally ill Explores how to assess this population for suicide risk and vulnerability Focuses on the person and not a behaviorally defined diagnostic category Reflects state-of-the-art knowledge for the treatment of co-occurring disorders Illustrates how Motivational Enhancement Therapy can be an effective treatment strategy With numerous clinical case studies to illustrate key points and reinforce learning, *Integrated Treatment for Co-Occurring Disorders* encourages a flexible, person-centered treatment approach that focuses on the individual rather than the diagnosis.

Coming Full Circle Suzanne Ruggles,2019-12-09 In this book Suzanne shares a childhood vision which gave her the early clues for humanity's interconnectedness with nature and the Higher realms. Nature as a repeated motif for hope, threads throughout her story. She arrived in the Emergency Department with septicaemia and a deadly form of meningitis and tracks back and forth through her life viewed from the reduced and darkened vantage point of her hospital bed, battling never ending hallucinations and skull shattering pain. A frank discussion with her doctor revealed it might be too late to avoid brain damage. As her condition worsened, in a dramatic unfolding of events she tells how she begged to be given the chance to live to finish her "beloved" patient project. She received an answer; the first of many heart-rending signs of Divine help and with it the realization that her life had come full circle.

*Psychoanalysis from the Inside Out* Lena Theodorou Ehrlich,2020-07-28 In the face of considerable scepticism over the function and effectiveness of psychoanalysis, Lena Ehrlich demonstrates how analysis is unique in its potential to transform patients at an emotionally cellular level by helping them access and process long-standing conflicts and traumatic experiences. Using detailed clinical vignettes, the author illustrates that when analysts practice from the inside out, i.e. consider that external obstacles to initiating and deepening an analysis inevitably reflect analysts' fears of their internal world and of intimacy, they become better able to speak to patients' long-term suffering. This book, free from psychoanalytic jargon, stands out in its ability to help readers feel more effective, confident, and optimistic about practicing psychoanalysis by providing insights and recommendations about beginning and deepening analysis and sustaining oneself as an analyst over time. It will appeal to both beginners and experienced analysts, as well as supervisors, educators, and those interested in the workings of their minds and in building more intimate relationships.

*All White's Not White* Sisir Kumar Saha,2011-09-01 Most of the facts in the startling new book *All White's Not White* refer to author and surgeon Sisir Kumar Saha's experiences in dealing with the racial conflicts involved in medical care. The author took seven years to complete writing this book that outlines unfairness in the world in medicine. My past experiences in handling the injustices incurred in all walks of ethnic people encouraged me to compile the facts in this book, he says. Dr. Saha was inspired to write about this topic because of his life's journey. Brought up in a poor Bengali family, I was born in a remote village, where there was no school, no hospital, and no doctors. Now I am in a different world. The author has delivered prestigious lectures to the Royal College of Surgeons of Edinburgh, Royal Society of Medicine of London, and was a guest speaker at the annual conferences in IMA, and also at the conference of Association of Surgeons of India. He has published many research projects on prospective studies since 1976 on various aspects of medical and surgical sciences. His works have been published throughout the world, including in the United States, Europe, Japan and India. Dr. Saha has written a textbook on operative surgery and has also written two novels.
