The newer versions of the Mustang have departed from the older architecture and have now included fully independent rear suspension. The 2016 version will now represent the 51st anniversary of the Ford Mustang which was originally revealed in 1964. The sixth generation Mustang represented the first Ford Mustang to have been marketed and sold globally. This represented the very first time right hand and left hand drive mustangs were made. This happened to fall under the Ford plan of having a "One Ford" business plan which also applied to other Ford vehicles. The Mustang comes in four different models. They are the Mustang V6, Mustang Ecoboost, Mustang GT and the Mustang GT350.

Social Intelligence, Power, and Conflict M. Afzalur Rahim, 2017-07-12 This volume is focused on the social intelligence (SI) of leaders. SI is generally defined as the ability to be aware of relevant social situational contexts; to deal with the contexts or challenges effectively; to understand others' concerns, feelings, and emotional states; and to interact appropriately in social situations and build and maintain positive relationships with others. Beginning with a cross-cultural study of the social intelligence of leaders in the United States, the United Kingdom, Scotland, Hong Kong, and Thailand, the work moves on to discuss the influence of SI on creative performance. The findings of the study show that leaders' SI was positively associated with their creative performance in each of the five countries. Other contributions cover topics relating to SI such as social connection and executive compassion. In addition, the volume also features five book reviews, a list of books received, and a detailed case study, titled Program Management for Global Software Development: A Case Study of the Windows Embedded Automotive Team by Paul Gratton. The work will be of use to those studying business, management, and economics.
