<u>Houston Bound</u> Tyina L. Steptoe,2015-11-03 Beginning after World War I, Houston was transformed from a black-and-white frontier town into one of the most ethnically and racially diverse urban areas in the United States. Houston Bound draws on social and cultural history to show how, despite Anglo attempts to fix racial categories through Jim Crow laws, converging migrations—particularly those of Mexicans and Creoles—complicated ideas of blackness and whiteness and introduced different understandings about race. This migration history also uses music and sound to examine these racial complexities, tracing the emergence of Houston's blues and jazz scenes in the 1920s as well as the hybrid forms of these genres that arose when migrants forged shared social space and carved out new communities and politics. This interdisciplinary book provides both an innovative historiography about migration and immigration in the twentieth century and a critical examination of a city located in the former Confederacy.

Rock Brands Elizabeth Barfoot Christian,2010-12-22 Rock Brands: Selling Sound in a Media Saturated Culture, edited by Elizabeth Barfoot Christian, explores how different genres of popular music are branded and marketed today. The authors provide research explaining how established mainstream artists and bands, from Christian heavy metal bands to Kanye West to Marilyn Manson, are continuing to market themselves in an ever-changing technological world, and how such bands can use integrated marketing communication to effectively 'brand' themselves to prevent technology and delivery changes from stifling their success. Rock Brands further addresses the use of religious and political words and images to gain an audience, as well as the latest technological influences of gaming, reality television, and social networking websites.

Men on Strike Helen Smith,2014-12-09 American society has become anti-male. Men are sensing the backlash and are consciously and unconsciously going "on strike." They are dropping out of college, leaving the workforce and avoiding marriage and fatherhood at alarming rates. The trend is so pronounced that a number of books have been written about this "man-child" phenomenon, concluding that men have taken a vacation from responsibility simply because they can. But why should men participate in a system that seems to be increasingly stacked against them? As Men on Strike demonstrates, men aren't dropping out because they are stuck in arrested development. They are instead acting rationally in response to the lack of incentives society offers them to be responsible fathers, husbands and providers. In addition, men are going on strike, either consciously or unconsciously, because they do not want to be injured by the myriad of laws, attitudes and hostility against them for the crime of happening to be male in the twenty-first century. Men are starting to fight back against the backlash. Men on Strike explains their battle cry.

<u>Faux News</u> Sandra Tillman,2015-10-12 Faux News: The Controversies & Talking Heads of Fox News, is a reference guide for all that is Fox's Faux news. This edition covers the history, controversies, and primary talking heads of the Fox News Channel. Love them or hate them, Fox News has an effect on the political landscape and is definitely a polarizing entity. FNC is 100% biased, 100% pushing an agenda, and 100% entertainment rather than a legitimate news source. This curated collection highlights some of the ridiculousness that is Fox's Faux news. This edition also serves as an excellent reference guide.

Born to Serve Merline Pitre, 2018-04-19 Texas Southern University is often said to have been "conceived in sin." Located in Houston, the school was established in 1947 as an "emergency" state-supported university for African Americans, to prevent the integration of the University of Texas. Born to Serve is the first book to tell the full history of TSU, from its founding, through the many varied and defining challenges it faced, to its emergence as a first-rate university that counts Barbara Jordon, Mickey Leland, and Michael Strahan among its graduates. Merline Pitre frames TSU's history within that of higher education for African Americans in Texas, from Reconstruction to the lawsuit that gave the school its start. The case, Sweatt v. Painter, involved student Heman Marion Sweatt, who was denied entry to the University of Texas Law School because he was black. Pitre traces the tortuous measures by which Texas legislators tried to meet a provision of the state's constitution that called for the establishment and maintenance of a "branch university for the instruction of colored youths of the State." When the U.S. Supreme Court ruled in 1950 that the UT Law School's efforts to remain segregated violated the U.S. Constitution, the future of the institution that would become Texas Southern University in 1951 looked doubtful. In its early years the university persevered in the face of state neglect and underfunding and the threat of merger. Born to Serve describes the efforts, both humble and heroic, that faculty and staff undertook to educate students and turn TSU into the thriving institution it is today: a major metropolitan university serving students of all races and ethnicities from across the country and throughout the world. Launched during the early civil rights movement, TSU has a history unique among historically black colleges and universities, most of which were established immediately after the Civil War. Born to Serve adds a critical chapter to the history of education and integration in the United States.

Good Evening, Friends Dave Ward,2019-07 In Good Evening, Friends, Houston's iconic Eyewitness news anchor Dave Ward shares his untold personal and professional stories. Known as the most trusted voice in Houston, Ward first joined ABC's KTRK-Channel 13 in 1966 and today hosts Dave Ward's Houston on ABC13. His journey from a simple life as the son of an East Texas pastor to become a welcome daily presence in the homes of millions of Houstonians unfolds as if it were preordained. As his early love of music and passion for technological innovation combined with his skill for distilling a story to its essence, it became apparent that Ward not only had a gift as a broadcaster but also a talent for riding the waves of change in the industry and emerging ever more beloved by his audience. In these pages, Ward details a remarkable sixty-year career as a newsman that began before the JFK assassination. He takes readers behind the scenes of America's most successful local news team--revealing his personal history with Marvin Zindler, chronicling the growth and development of the U.S. space program, and providing fascinating play-by-play about life on the road with the Houston Oilers in the Luv Ya Blue era. Additionally, Ward details his instrumental role in establishing Houston Crime Stoppers, the city's top non-profit dedicated to public safety, and he opens up about his personal struggles and dramatic brushes with death. Whether he was covering wars in Vietnam and the Middle East or providing accurate and in-depth coverage of presidential elections and historic natural disasters, Ward has always provided his audience with a clear and unbiased understanding of the news. Now, this long-awaited book captures the spirit of Houston as it presents a candid look at the man who has faithfully investigated its problems and broadcast its stories through almost seventy years of constant change.
