Take Less. Do More. Glen Van Peski, 2024-04-16 In this personal journey, ultra-light backpacker and sought-after speaker Glen Van Peski shares the life lessons he has learned through years of lightening his pack and helping others. Adventures provide the richness and texture to a life well lived. So remain open. Keep saying yes to life's opportunities. Glen Van Peski helped revolutionize backpacking by creating ultralight equipment, which allows people to take less so they can do more in the wilderness. During decades of championing ultralight backpacking, Glen became aware that "take less, do more" is more than just a hiking slogan. As he reduced his pack weight, he realized that the lessons learned applied to all areas of life. Now he wants to share the lessons he learned to help others live full and vibrant lives—lives characterized by purpose, meaning, and joy. In this book, you will discover transformative life lessons, which may go against the grain of popular thought but have been proven to change lives for the better. You'll learn that: Often the best strategy for achieving goals comes from subtracting rather than adding. When your first instinct is

generosity, the long-term dividends will be greater than if you strive to gain your own advantage. Revising the stories you tell yourself about situations will reframe your life and increase gratitude. By investing creatively in relationships, you will generate more joy in your life. Making friends with failure will cause you to grow and improve. take less. do more. It's a revolutionary idea that will transform your life and free your soul to find your purpose—and maybe a little bit of adventure too.

Westhope Dean Hulse,

Like Riding a Bike Jim Edwards, 2005-07-22 It all begins with balance. This is a simple truth about both cycling and life. There are many similarities between learning to ride a bike and living a happy and fulfilling life. *Like Riding a Bike: A Cycle Logical Exploration of Life* illuminates these similarities and provides insight into their potentials. This book is not one of great victories or epic tours, but of the experiences, thoughts, and reflections that are a part of both the world of cycling and the journey of life. *Like Riding a Bike* is an inspirational guide for personal understanding and development. It uses cycling experiences as a point of departure for life lessons. But the book is not just for active cyclists; it is accessible by anyone who travels through life with more than a passing interest. The lessons and themes are based in practical reality and extend far beyond cycling. *Like Riding a Bike* takes an innovative approach that differentiates it from other sports and personal growth books. First, it invites readers to actively participate in the learning process. Readers are encouraged to try the cycling experiences upon which the life lessons are based, not just to apply the lessons that are derived. How many other books enable readers to prove a point to themselves rather than just take the author's word for

it? The clearer the connection to the metaphor, the greater the value of the lesson. Another innovation of *Like Riding a Bike* is how cycling experiences are used. Most personal coaching or growth books start with someone's ideas about the way things should be. The author then collects or creates stories that support those ideas. In contrast, the cycling elements of *Like Riding a Bike* are actual experiences that do not merely reflect key points, they generate the issues and lead to the lessons. The validity of each idea is derived from reality, not idealization. Virtually all books deal with growth as a linear process. But is life actually linear? A third innovation of *Like Riding a Bike* is that it recognizes the cyclical nature of learning and development. While each chapter presents different topics and lessons, there is an underlying logical structure and repetition of themes that cyclically builds to the conclusion. The presentation of *Like Riding a Bike* is a personal dialogue between the author and the reader. This is done to draw the reader into the ideas, discussions, and lessons, and to promote personal insight. Again, the manuscript encourages reader involvement. Life is a personal exploration. What makes this concept easier to learn and apply than a book that actually starts the process for the reader? Each chapter concludes with five questions for personal reflection. *Like Riding a Bike* is unique in many aspects, but most importantly it gives practical advice on techniques the reader can apply to develop and pursue his or her own vision for life. It presents life lessons from a fresh perspective and provides a process for personal development. It suggests answers, yet also encourages questions. *Like Riding a Bike* begins by setting a foundation with the key elements of balance, motion, and vision. The book then addresses the basic skills required to find balance and establish a context for growth. The reader is led through a

process for personal development that includes building on existing skills, working variety into life, stepping back when necessary, and reaching out to others for help when needed. The second half of the book further develops the themes from the first half, beginning with a section dedicated to meeting challenges. Chapters in this section address anticipating obstacles, facing challenges, understanding the ?price? of choices, and speaking up for yourself. The sec

Shadowrun: Blackbird One: Base of Fire Russell Zimmerman, 2022-05-21 MAKING OF A MAN... Dashiell Riggins was just another hardscrabble kid growing up in rural Washington, doing everything a normal teenager would do—hanging out with friends, swimming in the river during summer break, keeping an uneasy peace with the powerful ork family that controlled their hometown. Until one day changed everything; the day Dash goblinized. Transformed into a troll metavariant, Dash is now even more of an outsider. Sports allows him to find a place in his hometown, until another world-shaking event shatters his carefully built life again, forcing Dash to leave everything behind and start over. And in the Sixth World, there's only one place where a person can remake themselves into someone else: stronger, tougher, faster, better than they were before. Dash signs on the dotted line and sets out on a journey that will transforms his life from that day on... * * * The Blackbird series is a short novel trilogy with strong military, Shadowrun-historical, and Native American Nation themes. Fans of the Kincaid series will enjoy a first-person narrative exploring the history of the Sixth World through Dash's eyes as he experiences the world of shadowrunners from a perspective a half-step removed from the shadows...on the battlefield, not the streets, as paramilitary action spills from one famous conflict to the

next, spanning decades and three action-packed stories.

Confessions of a Red Herring Dana Dratch, 2018-05-29 As a reporter, she's used to covering the news. Now she's the headline. Alex Vlodnachek has been a reporter for 12 years, a P.R. rep for three months, and a murder suspect for all of 24 hours. When her agency's double-dealing CEO is stabbed, scheming co-workers cast the new redhead as a compelling red herring. The story is media catnip—especially her salacious nickname: Vlod the Impaler. Even Alex has to admit she looks guilty. Out of a job and under suspicion, Alex is running low on cash, when she's visited by a second disaster: her family. Soon her tiny bungalow is bursting with her nearest and not-so-dearest. To keep herself out of jail—and save what's left of her sanity—Alex returns to her reporting roots. She goes undercover to reclaim her life, break the story, and unmask a murderer. Pretty much in that order. What she doesn't know: The killer also has a to-do list. And Alex is on it.

Kinds of Love, Kinds of Death Donald E. Westlake, 2013-06-25 A mob boss hires an ex-cop to find his mistress's killer in "the kind of tight lipped, hard mouthed story . . . which Chandler initiated and which Bogart immortalized" (Kirkus Reviews, starred review). Six months ago, Mitchell Tobin lost his career—and with it, his identity. An honest cop drummed out of the force because of one terrible mistake, Tobin has spent six months watching his savings dwindle and his family fall apart. But no matter how badly he needs work, he doesn't want anything to do with Ernie Rembeck, a crime boss whose mistress has

just turned up dead. The killer can only be someone inside the organization, and Rembeck wants him identified. Tobin agrees, under assurances that nothing illegal will be asked of him, but he soon finds that without a badge, right and wrong are nothing but words. Mitch Tobin is about to take on every heavy in the New York mob scene. He's finally found a purpose, but his safety is in serious jeopardy.

Jamie Remembers Jim Greenlee, 2015-04-14 "Jamie Remembers" invites you to walk with the author through some of his early life experiences. Laugh at his father's practical jokes and antics, dream with him of a major league baseball career that never happened, dare to accompany him on dangerous ventures, share with him some embarrassing moments, and shudder at several almost-tragedies of his involvement.

Strategic Customer Management Adrian Payne, Pennie Frow, 2013-03-28 The strategic management of customer relationships is a critical activity for all enterprises. The means of effectively managing relationships with customers are typically addressed under the headings of relationship marketing and customer relationship management (CRM), to name but two terms used to describe the management of customer relationships--
