**My Homework Planner** Purple Ybbit Books,2020-01-06 This daily homework planner is specifically designed to help elementary and early middle school students practice and work through the executive functioning skills of staying organized. Each daily spread contains two sides; one side for the student to complete during the school day and another side for the student to complete at home during homework time. Each side contains a checklist of questions that help the student create and implement routines to ease the transitions between home and school. This homework planner also makes homework time a little less stressful for the student and the parents. At the end of a long day at school, students with executive function difficulties sometimes have trouble getting started with homework because the task of finishing that science assignment can seem too daunting. This homework planner prompts the student to break down the particular task into simple action steps, such as read over the assignment. Before they know it, the student is engaged in the assignment and all it took was a little reminder to pick up the homework! At 8 x 10 and 105 pages, this homework planner has enough space for any student to keep track of homework, take notes, and track progress.

**My Homework Planner (Pink)** Purple Ybbit Books,2020-01-12 This daily homework planner is specifically designed to help elementary and early middle school students practice and work through the executive functioning skills of staying organized. Each daily spread contains two sides; one side for the student to complete during the school day and another side for the student to complete at home during homework time. Each side contains a checklist of questions that help the student create and implement routines to ease the transitions between home and school. This homework planner also makes homework time a little less stressful for the student and the parents. At the end of a long day at school, students with executive function difficulties sometimes have trouble getting started with homework because the task of finishing that science assignment can seem too daunting. This homework planner prompts the student to break down the particular task into simple action steps, such as read over the assignment.
