Prescott, Julie

*The LAST Virtual Volunteering Guidebook* Jayne Cravens, Susan J. Ellis, 2014-01-15 What is virtual volunteering? It's work done by volunteers online, via computers, smartphones or other hand-held devices, and often from afar. More and more organizations around the world are engaging people who want to contribute their skills via the Internet. The service may be done virtually, but the volunteers are real! In *The LAST Virtual Volunteering Guidebook*, international volunteerism consultants Jayne Cravens and Susan J. Ellis emphasize that online service should be integrated into an organization's overall strategy for involving volunteers. They maintain that the basic principles of volunteer management should apply equally to volunteers working online or onsite. Whether you're tech-savvy or still a newbie in cyberspace, this book will show you how to lead online volunteers successfully by: -Overcoming resistance to online volunteer service and the myths surrounding it; -Designing virtual volunteering assignments, from micro-volunteering to long-term projects, from Web research to working directly with clients via the Internet; -Adding a virtual component to any volunteer's service; -Interviewing and screening online volunteers; -Managing risk and protecting confidentiality in online interactions; -Creating online communities for volunteers; -Offering orientation and training via Internet tools; -Recruiting new volunteers successfully through the Web and social media; and -Assuring accessibility and diversity among online volunteers. Cravens and Ellis fervently believe that future volunteer management practitioners will automatically incorporate online service into community engagement, making this book the last virtual volunteering guidebook that anyone has to write!

*Marketing to the Social Web* Larry Weber, 2009-03-27 An updated and expanded Second Edition of the popular guide to social media for the business community Marketers must look to the Web for new ways of finding customers and communicating with them, rather than at them. From Facebook and YouTube to blogs and Twitter-ing, social media on the Internet is the most promising new way to reach customers. *Marketing to the Social Web, Second Edition* helps marketers and their companies understand how to engage customers, build customer communities, and maximize profits in a time of marketing confusion. Author and social media guru Larry Weber describes newly available tools and platforms, and shows you how to apply them to see immediate results and growth. Rather than broadcast messages to audiences, savvy marketers should encourage participation in social networks to which people want to belong, where dialogue with customers, and between customers, can flourish. In Networking sites like MySpace, Facebook, and even Flickr are the perfect forums for this dialog; this book shows you how to tap into this new media. In addition to the tools and tactics that made *Marketing to the Social Web* a critical hit among marketers, this second edition includes three entirely new chapters that cover recent changes in the field. These new chapters describe how Facebook will monetize its business and one day surpass Google; how companies can measure the influence and effectiveness of their social media campaigns; and how marketing to mobile social media will grow into an effective practice in the near future. Marketing must reach out into new forms, media, and models. *Marketing to the Social Web, Second Edition* presents an exceptional opportunity to use these new tools and models to reach new

markets, even in today's fragmented media environment. Larry Weber has spent the last three decades building global communications companies, including Weber Shandwick Worldwide and the W2 Group. He is also the founder and Chairman of the Massachusetts Innovation and Technology Exchange, the nation's largest interactive advocate association.

*Innovative Applications of Knowledge Discovery and Information Resources Management* Swayze, Susan, Ford, Valerie, 2018-06-01 Technological advancements have become an integral part of life, impacting the way we work, communicate, make decisions, learn, and play. As technology continually progresses, humans are being outpaced by its capabilities, and it is important for businesses, organizations, and individuals to understand how to optimize data and to implement new methods for more efficient knowledge discovery and information management and retrieval. *Innovative Applications of Knowledge Discovery and Information Resources Management* offers in-depth coverage on the pervasiveness of technological change with a collection of material on topics such as the impact of permeable work-life boundaries, burnout and turnover, big data usage, and computer-based learning. It proves a worthy source for academicians, practitioners, IT leaders, IT professionals, and advanced-level students interested in examining the ways in which technology is changing the world.

*Handbook of Research on Race, Gender, and the Fight for Equality* Prescott, Julie, 2016-03-31 Diversity in the workforce can be attributed to both a popular, cultural shift and legislative intervention. Despite these forces, discrimination endures in all aspects of Western society from education to employment. Unequal pay and opportunities for promotion are symptoms of a systematic discrimination of individuals based on race and gender. The *Handbook of Research on Race, Gender, and the Fight for Equality* provides a critical look at race, gender, and modern day discrimination. Focusing on workplace and educational dynamics, the research found within this book addresses equal opportunity and diversity requirements from a myriad of perspectives. This book is an essential reference source for professionals and researchers working in equality as well as managers and those in leadership roles.

**Online Terrorist Propaganda, Recruitment, and Radicalization** John R. Vacca, 2019-07-30 Online Terrorist Propaganda, Recruitment, and Radicalization is most complete treatment of the rapidly growing phenomenon of how terrorists' online presence is utilized for terrorism funding, communication, and recruitment purposes. The book offers an in-depth coverage of the history and development of online footprints to target new converts, broaden their messaging, and increase their influence. Chapters present the emergence of various groups; the advancement of terrorist groups' online presences; their utilization of video, chat room, and social media; and the current capability for propaganda, training, and recruitment. With contributions from leading experts in the field—including practitioners and terrorism researchers—the coverage moves from general factors to specific groups practices as relate to Islamic State of Iraq and the Levant (ISIL), and numerous other groups. Chapters also examine the lone wolf phenomenon as a part of the disturbing trend of self-radicalization. A functional, real-world approach is used regarding the classification of the means and methods by which an online presence is often

utilized to promote and support acts of terrorism. Online Terrorist Propaganda, Recruitment, and Radicalization examines practical solutions in identifying the threat posed by terrorist propaganda and U.S. government efforts to counter it, with a particular focus on ISIS, the Dark Web, national and international measures to identify, thwart, and prosecute terrorist activities online. As such, it will be an invaluable resources for intelligence professionals, terrorism and counterterrorism professionals, those researching terrorism funding, and policy makers looking to restrict the spread of terrorism propaganda online.

**The Chinese Army Today** Dennis J. Blasko, 2013-06-17 The Chinese Army Today is a comprehensive study of the Chinese military, examining its ground forces in a level of detail not found in any other contemporary works. This new, revised edition has been fully updated to take account of recent changes in the institution. In 1999, the military modernization program of the Chinese People's Liberation Army increased in intensity and achieved a focus not seen in the previous two decades. Based primarily on actual Chinese sources, this book details these changes and puts them in the context of the many traditions that still remain. Written by a retired professional military officer who has served in China, the text uses first-hand observation of the Chinese military and three decades of military experience to weave many disparate threads from official Chinese statements, documents, and media reports into an integrated whole. The author also conducts an in-depth exploration into the many forces that constitute the People's Liberation Army. This is an essential book for all students of Chinese military and security affairs, and highly recommended for students of Chinese Politics, Asian Security, and International Relations and Strategic Studies, in general.

*Exposing Hate* Michael Miller, 2019-04-01 Experts have documented an explosive rise in the number of hate groups since the turn of the century, driven by anger over immigration and demographic projections showing that whites will no longer hold majority status in the United States by 2040. The rise accelerated with the elections of presidents Obama and Trump. Extremists are increasingly diffuse, moving to the web and away from organized, on-the-ground activities. What is a hate group and how does it operate? How do we legally define hate speech and hate crimes? What is the history of organizing around hate and how do we recognize and confront it? These are the salient issues readers will investigate in this overview.

**Hate Groups** David E. Newton, 2021-08-02 Hate Groups: A Reference Handbook offers answers to essential questions about hate groups in a way that is accessible to students and general readers interested in this important topic. Hate Groups: A Reference Handbook covers the topic of hate groups from the earliest pages of human history to the present day. Chapters One and Two provide a historical background of the topic and a review of current problems, controversies, and solutions. The remainder of the book consists of chapters that aid readers in continuing their research on the topic, such as an extended annotated bibliography, a chronology, a glossary, lists of noteworthy individuals and organizations in the field, and important data and documents. The variety of resources provided, such as further reading, perspective essays about hate groups, a historical timeline, and useful terms in the field, differentiates this book from others of its kind. It is intended for readers of high school through the

community college level, along with adult readers who may be interested in the topic.

**Research Anthology on Human Resource Practices for the Modern Workforce** Management Association, Information Resources, 2021-12-30 Human resource departments have been a crucial part of business practices for decades and particularly in modern times as professionals deal with multigenerational workers, diversity initiatives, and global health and economic crises. There is a necessity for human resource departments to change as well to adapt to new societal perspectives, technology, and business practices. It is important for human resource managers to keep up to date with all emerging human resource practices in order to support successful and productive organizations. The Research Anthology on Human Resource Practices for the Modern Workforce presents a dynamic and diverse collection of global practices for human resource departments. This anthology discusses the emerging practices as well as modern technologies and initiatives that affect the way human resources must be conducted. Covering topics such as machine learning, organizational culture, and social entrepreneurship, this book is an excellent resource for human resource employees, managers, CEOs, employees, business students and professors, researchers, and academicians.

**Terrorist Recruitment and the International System** Hanna Samir Kassab, 2019-12-15 Recruitment is key to a terrorist network's survival strategy. Steady enrollment is needed, not just to fight against perceived injustice, but to keep the network's grand strategy alive. When a weak state fails to protect its territory and implement the rule of law because of corruption or incapacity, it results in the creation of power vacuums. Terrorist networks thrive within power vacuums and opportunistically fill the space where a weak state could not maintain control. This destabilizes the international system and forces great powers to intervene. Historically, interventions are ineffective in combatting terrorism and have actually increased recruitment through regional political destabilization. Further, interventions have drained the capabilities of states, allowing for shifts in the distribution of power, thus changing the international order. Understanding recruitment mechanisms is key to developing strategies to combat recruitment in the short and long term.

*Which Law Did You Break Today?* Greg Chartier, 2013-03-01 Your Guide to Federal Laws that Impact Human Resource Management

**The New Gold Mountain** Larry Wang, 1998

**Handbook of Research on E-Transformation and Human Resources Management Technologies: Organizational Outcomes and Challenges** Bondarouk, Tanya, Ruel, Huub, Guiderdoni-Jourdain, Karine, Oiry, Ewan, 2009-04-30 Provides practical, situated, and unique knowledge on innovative e-HRM technologies and expands on theoretical conceptualizations of e-HRM.

Electronic Commerce Efraim Turban, David King, Jae Kyu Lee, Ting-Peng Liang, Deborah C. Turban, 2015-01-29 Throughout the book, theoretical foundations necessary for understanding Electronic Commerce (EC) are presented, ranging from consumer behavior to the economic theory of competition. Furthermore, this book presents the most current topics relating to EC as described by a diversified team of experts in a variety of fields, including a

senior vice president of an e-commerce-related company. The authors provide website resources, numerous exercises, and extensive references to supplement the theoretical presentations. At the end of each chapter, a list of online resources with links to the websites is also provided. Additionally, extensive, vivid examples from large corporations, small businesses from different industries, and services, governments, and nonprofit agencies from all over the world make concepts come alive in Electronic Commerce. These examples, which were collected by both academicians and practitioners, show the reader the capabilities of EC, its cost and justification, and the innovative ways corporations are using EC in their operations. In this edition (previous editions published by Pearson/Prentice Hall), the authors bring forth the latest trends in e-commerce, including social businesses, social networking, social collaboration, innovations, and mobility.

The Recruit Robert Muchamore, 2014-04-15 In this action-packed CHERUB novel, two siblings on separate special agent missions both end up in deadly danger. CHERUB agents are all seventeen and under. They wear skate tees and hemp, and look like regular kids. But they're not. They are trained professionals who are sent out on missions to spy on terrorists and international drug dealers. CHERUB agents hack into computers, bug entire houses, and download crucial documents. It is a highly dangerous job. For their safety, these agents DO NOT EXIST. James is the latest CHERUB recruit. He and his sister were recently orphaned, and James has been in a lot of trouble. But he is brilliant in math. And CHERUB needs him. After one hundred days, the grueling training period is over. But the adventure has just begun.

Annual Editions Maidment, 1997

**Willing's Press Guide**, 2000 A guide to the press of the United Kingdom and to the principal publications of Europe, Australia, the Far East, Gulf States, and the U.S.A.

**Target Israel** Tim LaHaye, Ed Hindson, 2015-06-01 As the conflicts in the Middle East grow in intensity, we cannot help but wonder what lies ahead for the nation of Israel and whether any of it means we are drawing closer to the last days. In their exciting new book Target Israel, prophecy experts Tim LaHaye and Ed Hindson explain why Israel is at the center of God's prophetic plan for the future. As you carefully review the Scriptures with them, you'll learn about... the miracle of Israel's modern-day existence Israel's unique purpose in the world the ways in which Israel serves as a super sign of the end times the coming alliance of nations that will attempt to annihilate Israel Christ's return to Jerusalem to rule the world You'll be inspired as you see how God will bring all His prophetic promises to pass, and be encouraged to share your faith with greater urgency in light of Christ's second coming.

**Start a Business for £99** Emma Jones, 2015-04-17 Start your own business, be your own boss and still get change from £100. This friendly, step-by-step guide will show you how you can live your small business dreams. Covering everything you need to know about making your idea a reality you'll finally be able to stop dreaming, and start doing - and all for less than £100.
