Stealing MySpace Julia Angwin, 2009-03-17 A few years ago, MySpace.com was just an idea kicking around a Southern California spam mill. Scroll down to the present day and MySpace is one of the most visited Internet destinations in America, displaying more than 40 billion webpage views per month and generating nearly \$1 billion annually for Rupert Murdoch's online empire. Even by the standards of the Internet age, the MySpace saga is an astounding growth story, which climaxed with the site's acquisition by Murdoch's News Corporation in 2005 for a sum approaching one billion dollars. But more than that, it may be the defining drama of the digital era. In *Stealing MySpace*, Pulitzer Prize-winning journalist Julia Angwin chronicles the rise of this Internet powerhouse. With an unerring eye, Angwin details how MySpace took the Internet by storm by grabbing the best ideas from around the Web, encouraging pinup stars such as Tila Tequila to make their home on its pages and giving everyone freedom to experiment with online identities—including using somebody else's identity. *Stealing MySpace* introduces us to the site's founders, Chris DeWolfe and Tom Anderson, who dabbled in computer hacking, online pornography, spam, and spyware before starting MySpace. Although their street savvy, doggedness, and clubbing skills far eclipsed their tech prowess, they stumbled their way to success and soon found themselves

at ground zero of a high-stakes war that pitted Rupert Murdoch against his frequent nemesis, the combative Viacom CEO Sumner Redstone. Angwin sheds light on the dizzying backroom deals that allowed Murdoch to snatch MySpace from Viacom's grasp even as the MySpace founders remained in the dark about their own fate. Then she takes us inside the Murdoch empire as DeWolfe and Anderson lobby furiously to regain control of their creation. Venturing beyond the business aspects of the story, Angwin also explores the Internet culture, a voyeuristic world in which MySpace must stay one step ahead of amateur pornographers, sexual predators, and "spoofers" who set up fake profiles (Rupert Murdoch himself tolerates dozens of phony "Ruperts" on the site) and cope with the general excesses and sometimes illegal acts of a community of account holders equal in number to the population of Japan. In *Stealing MySpace*, Julia Angwin dishes on the epic real-world battle for control of a virtual empire. In a savvy, smart, fast-paced narrative reminiscent of Bryan Burrough and John Helyar's *Barbarians at the Gate* and Michael Lewis's *The New New Thing*, *Stealing MySpace* tells the whole gripping story behind a breakout cultural phenomenon.

MySpace Safety Kevin Farnham, Dale Farnham, 2006 MySpace Safety: 51 Tips for Teens and Parents provides teens and parents with a common sense approach for using MySpace.com. The authors provide specific methods to minimize the risk that comes with having a MySpace.com account. Each element of personal information requested by MySpace is analyzed to determine how the data is used. The book then provides recommendations on the actions a MySpace user should take with respect to the requested information, to

minimize risk. The book can also be applied as a user's manual for MySpace.com, since to define areas of risk and appropriate responses for safety the authors investigated and documented all facets and features of the MySpace.com site. The 51 safety tips describe how to: - prepare for opening a MySpace.com account - enter the information required to join MySpace.com - configure profile information tabs - make and respond to MySpace friend requests - manage contacts from the MySpace extended network - eliminate unwanted contact from strangers - avoid profile invasion, spyware, and phishing scams - report inappropriate content and other problems to MySpace.com - close a MySpace.com account The book also includes programming script code that disables some MySpace options that allow strangers to track the actions of teens without the teens having any awareness that this is happening.
