I am Amicus Arcane, your librarian and host. Your Ghost Host. So read on... if you dare!

The Inscrutable Mrs. Winchester and Her Mysterious Mansion
Lisa L. Selby,2006-01 Mrs. Sarah Winchester, heiress to the Winchester Repeating Arms fortune, lost her one-month-old daughter to a rare disease. Fourteen years later her husband passed away from tuberculosis. Seeking a psychic for answers, she was told a curse was put on her family by those killed with the Winchester rifle. The psychic told her to move west and build continuously on a house to appease the spirits. She would do as the psychic instructed, and over the 38 years she lived in San Jose, California, she built a 160-room Victorian mansion, with stairs that lead nowhere, a door that opens onto a 15-foot drop into the garden, and skylights in the floor. This biography starts with Oliver F. Winchester and his invention, then follows Sarah Winchester from her marriage to her death. It explores the myths surrounding her, as well as the facts that rarely come to light.--From publisher
