Learn French with Anaïs Anaïs Vella,2018-08-02 The purpose of this book is to offer a different way to learn French which looks more like having private French lessons but in a book format. Its goal is to enhance self teaching by giving learners the opportunity to be guided in their learning and so to avoid taking bad habits. Each lesson in this book focuses on one subject only. The reason being to avoid losing the learners with a flow of informations not necessarily needed at that time but also to keep the motivation at a high level in order to insure an effective and progressive learning of the French language. It is with this goal in mind that each lesson has been put in a specific order allowing the links between each lesson to naturally occur. The subjects treated in the book are linked together with the help of short notes. The notes help link the subject treated with the previous lessons (to refresh the important grammar rules linked to it) or with the coming lessons (to help understand the new or coming notions). The subjects in the book are explained in an easy to understand way and the explanations are clear and short. This fourth publication is for people looking to achieve an upper intermediate level. It will help them master the different future tenses, understand some important grammar points and learn some useful vocabulary words. You will find in this book the lessons as I would do

them with my own students and it is in this way that you are going to learn French as if you were having private French lessons.
