Crossing the Color Line Carina E. Ray,2015-10-15 Interracial sex mattered to the British colonial state in West Africa. In *Crossing the Color Line*, Carina E. Ray goes beyond this fact to reveal how Ghanaians shaped and defined these powerfully charged relations. The interplay between African and European perspectives and practices, argues Ray, transformed these relationships into key sites for consolidating colonial rule and for contesting its hierarchies of power. With rigorous methodology and innovative analyses, Ray brings Ghana and Britain into a single analytic frame to show how intimate relations between black men and white women in the metropole became deeply entangled with those between black women and white men in the colony in ways that were profoundly consequential. Based on rich archival evidence and original interviews, the book moves across different registers, shifting from the micropolitics of individual disciplinary cases brought against colonial officers who “kept” local women to transatlantic networks of family, empire, and anticolonial resistance. In this way, Ray cuts to the heart of how interracial sex became a source of colonial anxiety and nationalist agitation during the first half of the twentieth century.

The Dynamics of Clanship Among the Tallensi Meyer Fortes,2018-08-16 Originally published in 1945, this book analyses Tale social structure at the level of corporate group organization. Tale culture is discussed primarily as the content of social relations and not in its own right. Customs, beliefs, conventional usages, religious values are examined as indices of social relations. Although not a comparative study, it is clear that many features of Tale social organization are typical of patrilineal societies in West Africa and some Tale institutions have parallels in South, East, and Central Africa. Field work showed that every significant social activity among the Tallensi is tied up with the lineage system and the book therefore investigates the function of lineage in Tale social organization.

Antichrist R.B. Batson,2023-10-03 Travis Marx was just like any other teenager. He was experiencing angst caused by the fundamentalists in the community where he lived--that was, until one evening when a visiting alien promised him telepathy in exchange for what could be his doom or his deliverance. In conflict with the values of his family, he took an adult adventure across the nation and across religions. He pursued Islam, the New Age, and Buddhism before the select Christians experiencing clairvoyance found themselves at cross purposes with him and determined he could be none other than the Antichrist. Would he be delivered from them and all the heartache they had caused him, or would he become yet another of their victims?

Awake at the Wheel Mitchell Lewis Ditzkoff,2008-05-01 “Mitch Ditzkoff has created a GPS for the innovation process. *Awake at the Wheel* is a witty and inspiring roadmap for the journey from ideas to invention!” (Donna Fenn, author of *Alpha Dogs*) *Awake at the Wheel* is a book about ideas: what they are, where they come from, and what it takes to manifest them in a world not always ready for the new and the different. Simply put, it's a book about possibility, about the wellspring of creation, about the strange and fascinating process we all go through whenever we have an idea and try to do something about it. And while it's often said that “ideas are a dime a dozen,” the fact is that your idea—the one you can't get out of your head—is priceless. That is, IF you make the kind of effort required to turn that top of the line idea into a bottom line reality. Maybe it's an idea for a new business. Maybe it's an idea for a new product . . . or invention . . . or a book you want to write . . . or a school you want to open . . . or a move you want to make. Maybe it's an idea for something that will change the world . . . or if not THE world, then YOUR world. Whatever it is, one thing is clear: it's time for you to take the next step. Now! “A superb catalyst for anyone with the urge to bring their best ideas into reality.” —Tim Gallwey, author of *The Inner Game of Tennis* and *The Inner Game of Work*

Dynamics of Political Domination in Africa Thomas Hylland Eriksen,Marek Jakoubek,Tone Sommerfelt,2024-03-15 Axel Sommerfelt has been an important influence on Norwegian and Scandinavian anthropology, but his contributions are almost unknown. This book brings together some of his critical writings, newly written articles and an interview which positions him in the history of 'North Sea' social anthropology and shows his continued relevance. An Africanist, Sommerfelt did research in Ruwenzori (Uganda and Belgian Congo), but also wrote about the Tallensi (Ghana) and worked for years in Salisbury (Harare) before being evicted by Ian Smith's racist regime in 1966. His contributions to political anthropology, methodology and legal anthropology have a lasting value.

Inferred Functions of Performance and Learning Siegfried Engelmann,Donald Steely,2003-12-08 This ambitious, highly theoretical book provides a capstone for the careers of two very distinguished scholars. It begins with an analysis of what functions and systems must exist for any organism or machine to perform an unlearned act, that is, with an analysis of what must be wired into the organism or machine. Once the basics of unlearned responding have been established, the authors then systematically show how learning mechanisms can be layered onto that foundation in ways that account for the performance of new, learned operations that eventually culminate in the acquisition of higher-order operations that involve concepts and language. This work is of interest to various practitioners engaged in analyzing and creating behavior: the ethnologist, the instructional designer, the learning psychologist, the physiologist-neurobiologist, and particularly the designer of intelligent machines.

Tradition and Change in Ghana G. K. Nukunya,2003

Tongnaab Jean Allman,John Parker,2005-11-18 For many Africanist historians, traditional religion is simply a starting point for measuring the historic impact of Christianity and Islam. In Tongnaab, Jean Allman and John Parker challenge the distinction between tradition and modernity by tracing the movement and mutation of the powerful Talensi god and ancestor shrine, Tongnaab, from the savanna of northern Ghana through the forests

and coastal plains of the south. Using a wide range of written, oral, and iconographic sources, Allman and Parker uncover the historical dynamics of cross-cultural religious belief and practice. They reveal how Tongnaab has been intertwined with many themes and events in West African history -- the slave trade, colonial conquest and rule, capitalist agriculture and mining, labor migration, shifting ethnicities, the production of ethnographic knowledge, and the political projects that brought about the modern nation state. This rich and original book shows that indigenous religion has been at the center of dramatic social and economic changes stretching from the slave trade to the tourist trade.
