Media Nation Bruce J. Schulman, Julian E. Zelizer, 2017-02-27 Media Nation brings together some of the most exciting voices in media and political history to present fresh perspectives on the role of mass media in the evolution of modern American politics. Together, these contributors offer a field-shaping work that aims to bring the media back to the center of scholarship modern American history.

The Black Newspaper and the Chosen Nation Benjamin Fagan, 2016 Benjamin Fagan shows how the early black press helped shape the relationship between black chosenness and the struggles for black freedom and equality in America, in the process transforming the very notion of a chosen American nation.

Fake News Nation James W. Cortada, William Aspray, 2019-10-01 Fake News Nation tells the story of how false information has flooded American public life for over 230 years. The authors show how lies, misrepresentations, and rumors have drawn America into wars, covered up assassinations, influenced national elections, and impacted contentious policy issues such as the effects of smoking and climate change.

Misinformation Nation Jordan E. Taylor, 2022-10-11 Fundamentally reshapes our understanding of the causes of the American Revolution and the pivotal role foreign news and misinformation played in driving colonists to revolt. Runner-up of the Journal of The American Revolution Book of the Year Award by the Journal of The American Revolution Fake news is not new. Just like millions of Americans today, the revolutionaries of the eighteenth century worried that they were entering a post-truth era. Their fears, however,

were not fixated on social media or clickbait, but rather on peoples' increasing reliance on reading news gathered from foreign newspapers. In *Misinformation Nation*, Jordan E. Taylor reveals how foreign news defined the boundaries of American politics and ultimately drove colonists to revolt against Britain and create a new nation. News was the lifeblood of early American politics, but newspaper printers had few reliable sources to report on events from abroad. Accounts of battles and beheadings, as well as declarations and constitutions, often arrived alongside contradictory intelligence. Though frequently false, the information that Americans encountered in newspapers, letters, and conversations framed their sense of reality, leading them to respond with protests, boycotts, violence, and the creation of new political institutions. Fearing that their enemies were spreading fake news, American colonists fought for control of the news media. As their basic perceptions of reality diverged, Loyalists separated from Patriots and, in the new nation created by the revolution, Republicans inhabited a political reality quite distinct from that of their Federalist rivals. The American Revolution was not only a political contest for liberty, equality, and independence (for white men, at least); it was also a contest to define certain accounts of reality to be truthful while defining others as false and dangerous.

Misinformation Nation argues that we must also conceive of the American Revolution as a series of misperceptions, misunderstandings, and uninformed overreactions. In addition to making a striking and original argument about the founding of the United States, *Misinformation Nation* will be a valuable prehistory to our current political moment.

To Bring the Good News to All Nations Lauren Frances Turek,2020-05-15 When American evangelicals flocked to Latin America, Africa, Asia, and Eastern Europe in the late twentieth century to fulfill their Biblical mandate for global evangelism, their experiences abroad led them to engage more deeply in foreign policy activism at home. Lauren Frances Turek tracks these trends and illuminates the complex and significant ways in which religion shaped America's role in the late-Cold War world. In To Bring the Good News to All Nations, she examines the growth and influence of Christian foreign policy lobbying groups in the United States beginning in the 1970s, assesses the effectiveness of Christian efforts to attain foreign aid for favored regimes, and considers how those same groups promoted the imposition of economic and diplomatic sanctions on those nations that stifled evangelism. Using archival materials from both religious and government sources, To Bring the Good News to All Nations links the development of evangelical foreign policy lobbying to the overseas missionary agenda. Turek's case studies—Guatemala, South Africa, and the Soviet Union—reveal the extent of Christian influence on American foreign policy from the late 1970s through the 1990s. Evangelical policy work also reshaped the lives of Christians overseas and contributed to a reorientation of U.S. human rights policy. Efforts to promote global evangelism and support foreign brethren led activists to push Congress to grant aid to favored, yet repressive, regimes in countries such as Guatemala while imposing economic and diplomatic sanctions on nations that persecuted Christians, such as the Soviet Union. This advocacy shifted the definitions and priorities of U.S. human rights

policies with lasting repercussions that can be traced into the twenty-first century.

Hollywood Nation James L. Hirsen, 2005 A conservative spokesperson examines how the line between news and entertainment has become blurred, as well as how the situation has allowed the liberal media to present their political views within entertainment product.

The Nation's Newsbrokers: The formative years, from pretelegraph to 1865 Richard Allen Schwarzlose, 1989 Richard A. Schwarzlose's long-awaited two-volume *The Nation's Newsbrokers* makes a major contribution to the history of journalism in the United States. Schwarzlose traces the development of the Associated Press and the predecessors of United Press International from scattered beginnings in the 1840s to their emergence as a mature national institution in the World War I era. In Volume 1, Schwarzlose analyzes the problems of communication and transportation in the eighteenth and nineteenth centuries and examines the news media before and during the Civil War.

Mediating the Nation Mirca Madianou, 2005 What does it mean to watch two-hour long news programmes every evening? Why are some people 'addicted' to the news while others prefer to switch off? Television is an indispensable part of the fabric of modern life and this book investigates a facet of this process: its impact on the ways that we experience the political entity of the nation and our national and transnational identities. Drawing on anthropological, social and media theory and grounded on a two-year original ethnography of television news viewing in Athens, the book offers a fresh, interdisciplinary perspective in understanding the media/identity relationship. Starting from a perspective that examines identities as lived and as performed, the book follows the circulation of

discourses about the nation and belonging and contrasts the articulation of identities at a local level with the discourses about the nation in the national television channels. The book asks: whether, and in what ways does television influence identity discourses and practices? When do people contest the official discourses about the nation and when do they rely on them? Do the media play a role in relation to inclusion and exclusion from public life, particularly in the case of minorities? The book presents a compelling account of the contradictory and ambivalent nature of national and transnational identities while developing a nuanced approach to media power. It is argued that although the media do not shape identities in a causal way, they do contribute in creating common communicative spaces which often catalyse feelings of belonging or exclusion. The book claims a place in the emerging sub-field of media anthropology and represents the new generation of audience research that places media consumption in the wider social, economic and political context.

Birth of a Nation Gerard Loughran, 2010-02-12 Launched in Nairobi in 1960, three years before the birth of independent Kenya, the Nation group of newspapers grew up sharing the struggles of an infant nation, suffering the pain of its failures and rejoicing in its successes. Marking its 50th anniversary in 2010, the Nation looks back on its performance as the standard-bearer for journalistic integrity and how far it fell short or supported the loyalty demanded by its founding slogan 'The Truth shall make you free'. The Aga Khan was still a student at Harvard University when he decided that an honest and independent newspaper would be a crucial contribution to East Africa's peaceful transition to democracy. The Sunday Nation and Daily Nation were launched in 1960 when independence for Kenya

was not far over the horizon. They quickly established a reputation for honesty and fair-mindedness, while shocking the colonial and settler establishment by calling for the release of the man who could become the nation's first prime minister, Jomo Kenyatta, and early negotiations for 'Uhuru'. The history of the 'Nation' papers and that of Kenya are closely intertwined; in the heat of its printing presses and philosophical struggles, that story is told here: from committed beginnings to its position today as East Africa's leading newspaper group.

Twice-Divided Nation Samuel Graber, 2019-02-26 The first thoroughly interdisciplinary study to examine how the transatlantic relationship between the United States and Britain helped shape the conflicts between North and South in the decade before the American Civil War, *Twice-Divided Nation* addresses that influence primarily as a problem of national memory. Samuel Graber argues that the nation was twice divided: first, by the sectionalism that resulted from disagreements concerning slavery; and second, by Unionists' increasing sense of alienation from British definitions of nationalism. The key factor in these diverging national concepts of memory was the emergence of a fiercely independent press in the U.S. and its connections to Britain and British news. Failing to recognize this shifting transatlantic dynamic during the Civil War era, scholars have overlooked the degree to which the conflict between the Union and the Confederacy was regarded at home and abroad as a referendum not merely on Lincoln's election or the Constitution or even slavery, but on the nationalist claim to an independent past. Graber

shows how this movement toward cultural independence was reflected in a distinctively American literature, manifested in the writings of such diverse figures as journalist Horace Greeley and poet Walt Whitman.

Southern Nation David Bateman,Ira Katznelson,John S. Lapinski,2020-03-10 How southern members of Congress remade the United States in their own image after the Civil War No question has loomed larger in the American experience than the role of the South. *Southern Nation* examines how southern members of Congress shaped national public

policy and American institutions from Reconstruction to the New Deal—and along the way remade the region and the nation in their own image. The central paradox of southern politics was how such a highly diverse region could be transformed into a coherent and unified bloc—a veritable nation within a nation that exercised extraordinary influence in politics. This book shows how this unlikely transformation occurred in Congress, the institutional site where the South's representatives forged a new relationship with the rest of the nation. Drawing on an innovative theory of southern lawmaking, in-depth analyses of key historical sources, and congressional data, *Southern Nation* traces how southern legislators confronted the dilemma of needing federal investment while opposing interference with the South's racial hierarchy, a problem they navigated with mixed results before choosing to prioritize white supremacy above all else. *Southern Nation* reveals how southern members of Congress gradually won for themselves an unparalleled role in policymaking, and left all southerners—whites and blacks—disadvantaged to this day. At first, the successful defense of the South's capacity to govern race relations left southern political leaders locally empowered but marginalized nationally. With changing rules in Congress, however, southern representatives soon became strategically positioned to profoundly influence national affairs.
