Overcoming the Mom-Life Crisis Nina Restieri, 2021-04-06 From the founder of momAgenda comes the ultimate guide to navigating the mom-life crisis, with a simple process for putting your own long-forgotten needs back on the to-do list. Nina Restieri was a wife, a mom of four young kids, and a successful entrepreneur. Despite having what most people would consider "it all," happiness eluded her. She beat herself up daily for not being grateful. But as she looked around, she realized most of the moms she knew shared that same sense of sadness, stress, and overwhelm, all while working hard to keep up the "perfect mom" appearance. Desperate for a change and tired of crying behind a locked bathroom door, Nina embarked upon a ten-year journey that led her to unexpected places—including a pole dancing studio—for peace and solace. After digging deep and facing some painful truths, Nina emerged knowing she deserved more than she was giving herself and figured out that a mom can take care of her kids, and take care of herself. Like a permission slip for mothers to love themselves as much as they do their children, this book chronicles Nina's journey to putting her mom-life crisis behind her—forever—and offers up a roadmap so you can too.

How to Build a Goddamn Empire Ali Kriegsman, 2021-04-06 From the cofounder of the revolutionary brand Bulletin, a business book that demystifies the world of entrepreneurship in real-time, from the trenches Filled with heart and humor, How to Build a Goddamn Empire shares the real-world, hard-earned business wisdom of one female entrepreneur who transformed an idea into a massive, category-disrupting national brand. As a first-time and inexperienced founder, Ali Kriegsman felt like she couldn't relate to the glossy, glamorous entrepreneurs crowding her Instagram feed. In reality, Kriegsman learned, building something from nothing is a daily fight with your imposter syndrome, a crash course in venture-capitalist speak, and, as she learned in 2020, a constant battle to weather the storm of an ever-changing marketplace. While in the thick of scaling her business, making a stressful pivot, and managing a team of employees through an unprecedented global pandemic, Kriegsman decided to write about her experience, in the hopes that it will act as a guidepost to future founders. With chapters ranging from "The Business You Start Isn't the Business You'll Run" to "Press ≠ Success," Ali Kriegsman demystifies the world of entrepreneurship in real time, from the trenches. In "Hard Decisions" Kriegsman shares her experiences of managing the company through the COVID-19 crisis with heart and searing honesty. How to Build a Goddamn Empire also features words of wisdom from some of Kriegsman's fellow female founders who have built successful companies of radically different stages and sizes. By using the questions she's most frequently asked as her blueprint, Kriegsman offers candid insights into the nuts and bolts of building a brand from scratch—discussing early failures, picking the right cofounder, securing press, finding funding, and even staying afloat during a crisis—to give women

the tools that will help take their ideas to the next level.

*Convention Center Follies* Heywood T. Sanders,2014-06-16 American cities have experienced a remarkable surge in convention center development over the last two decades, with exhibit hall space growing from 40 million square feet in 1990 to 70 million in 2011—an increase of almost 75 percent. Proponents of these projects promised new jobs, new private development, and new tax revenues. Yet even as cities from Boston and Orlando to Phoenix and Seattle have invested in more convention center space, the return on that investment has proven limited and elusive. Why, then, do cities keep building them? Written by one of the nation's foremost urban development experts, *Convention Center Follies* exposes the forces behind convention center development and the revolution in local government finance that has privileged convention centers over alternative public investments. Through wide-ranging examples from cities across the country as well as in-depth case studies of Chicago, Atlanta, and St. Louis, Heywood T. Sanders examines the genesis of center projects, the dealmaking, and the circular logic of convention center development. Using a robust set of archival resources—including internal minutes of business consultants and the personal papers of big city mayors—Sanders offers a systematic analysis of the consultant forecasts and promises that have sustained center development and the ways those forecasts have been manipulated and proven false. This record reveals that business leaders sought not community-wide economic benefit or growth but, rather, to reshape land values and development opportunities in the downtown core. A probing look at a so-called economic panacea, *Convention Center Follies* dissects the inner workings of America's convention center boom and provides valuable lessons in urban government, local business growth, and civic redevelopment.
