The True "cellulite" Story Marsh Morrison,1978

Cellulite - Treatment with Homeopathy and Schuessler salts (homeopathic cell salts) Robert Kopf,2018-05-23 Cellulite looks like dimpled or bumpy skin and is most common around the thighs, hips, buttocks, breasts, lower abdomen and upper arms. Cellulite is much more common in women than in men because of differences in the way fat, muscle, and connective tissue are distributed in men and women's skin. Cellulite is often a sign of an acidification of the body, metabolic diseases or hormonal imbalance and appears in areas of fat deposits. The lumpiness is caused by fibrous connective cords that tether the skin to the underlying muscle, with the fat lying between. As the fat cells accumulate, they push up against the skin, while the long, tough cords are pulling down. This creates an uneven surface or dimpling. In this homeopathic and naturopathic adviser, I will give you recommendations how to treat and prevent cellulite with Homeopathy, herbal tinctures and Schuessler salts (also named homeopathic cell salts, tissue salts). I will present you the most proven homeopathic remedies and Schuessler salts, including the appropriate potency and dosage. I wish you much success, joy of life and especially your health.
