Making Better Buildings Chris Magwood, 2014-03-01 Sustainable building from the ground up - the pros and cons of the latest green and natural materials and technologies From foundation to finish, a wealth of information is available on sustainable construction methods-entire volumes have been published on individual green and natural building techniques. But with so many different ideas to choose from, there is no single resource that allows an owner or builder to quickly and objectively compare the merits of each system for their particular project. Making Better Buildings cuts through the hype and provides the unvarnished facts about the upsides and downsides of the most widely discussed materials and technologies. Drawing on the real-world experiences of designer/builders, this comparative guide systematically and comprehensively examines each approach in terms of: Cost, sourcing, labor intensity, and ease of construction Energy efficiency, embodied energy, and environmental impacts Availability/accessibility Viable applications and future potential. Each chapter is rounded out by a chart which summarizes the material in a quick and accessible manner. Whether you are an owner preparing to build a green or natural home, or a conventional contractor determined to integrate sustainable alternatives into your existing construction practices, this up-to-the minute resource will help you make the best decisions for your project, while meeting your energy, efficiency, budgetary, and site-specific needs.

"Visions of the Industrial Age, 1830-1914 " Amy Woodson-Boulton, 2017-07-05 Providing a comprehensive interdisciplinary assessment, and with a particular focus on expressions of tension and anxiety about modernity, this collection examines visual culture in nineteenth-century Europe as it attempted to redefine itself in the face of social change and new technologies. Contributing scholars from the fields of history, art, literature and the history of science investigate the role of visual representation and the dominance of the image by looking at changing ideas expressed in representations of science, technology, politics, and culture in advertising, art, periodicals, and novels. They investigate how, during the period, new emphasis was placed on the visual with emerging forms of mass communication?photography, lithography, newspapers, advertising, and cinema?while older forms as varied as poetry, the novel, painting, interior decoration, and architecture became transformed. The volume includes investigations into new innovations and scientific development such as the steam engine, transportation and engineering, the microscope, spirit photography, and the orrery, as well as how this new technology is reproduced in illustrated periodicals. The essays also look at more traditional forms of creative expression to show that the same concerns and anxieties about science, technology and the changing perceptions of the natural world can be seen in the art of Armand Guillaumin, Auguste Rodin, Gustave Caillebotte, and Camille Pissarro, in colonial nineteenth-century novels, in design manuals, in museums, and in the decorations of domestic interior spaces. *Visions of the Industrial Age, 1830-1914* offers a thorough exploration of both the nature of modernity, and the nature of the visual.

Essential Sustainable Home Design Chris Magwood, 2017-07-31 Design your own sustainable home Many people dream of building a beautiful, environmentally friendly home. But until now there has been no systematic guide to help potential builders work through the complete process of imagining, planning, designing, and building their ideal, sustainable home. Essential Sustainable Home Design walks potential homebuilders through the process starting with key concepts, principles, and a project vision that will guide the house to completion. Coverage includes: How to clarify your ideas and create a practical pathway to achieving your dream A criteria matrix to guide

design, material, and systems decisions Creating a strong, integrated design team and working with professionals and code officials to keep the project on track from start to finish. Key building science concepts that make for a high-performance, durable building Primer on building logistics, material sourcing, and protocols to ensure that the initial vision for the project comes to fruition. One-page summaries and ratings of popular sustainable building materials and system options. Ideal for owner-builders and sustainable building contractors working with clients aiming to design and build a sustainable home. Chris Magwood has designed and built some of the most innovative, sustainable buildings in North America, including the first off-grid, straw bale home in Ontario. He is co-founder and director the Endeavour Centre for Innovative Building and Living and co-editor of the Sustainable Building Essentials series. Chris is the author of Essential Prefab Straw Bale Construction, Essential Hempcrete Construction, Straw Bale Details, More Straw Bale Building , and Making Better Buildings .

Natural Building Techniques Tom Woolley, 2022-04-25 Natural materials are increasingly being valued for their use in a wide range of techniques and solutions, not just for building cabins in the countryside, but also for housing, schools and city structures. As the need to respond to climate change becomes a serious requirement for all building projects, so too does our understanding of how these bio-based and renewable materials can help to reduce carbon emissions. With convincing evidence that natural materials work as well as, if not better than, conventional materials, this helpful guide offers an outline of many of the materials, products and methods of construction that are available, equipping readers with confidence to create healthy, ecological homes. This comprehensive book will be of interest to self-builders, home owners, architects, housing developers and specifiers, as well as environmentalists, eco builders and campaigners who want to reduce the impact of construction on the planet.

The Ecology of Building Materials Bjørn Berge, 2009-06-04 The Ecology of Building Materials explores key questions surrounding sustainability of building materials. It provides technical data to enable design and building professionals to choose the most appropriate materials for a project: those that are least polluting, most energy efficient, and from sustainable sources. The book also gives information and guidance on a wide range of issues such as recycling, detailing for increased durability and Life Cycle Analysis. Berge's book, translated from the Norwegian by Chris Butters and Filip Henley, offers safe and environmentally friendly material options. It provides an essential and easy-to-use reference guide to this complex subject for the building industry professional. New to this edition: • Thorough exploration of building materials in relation to climate change issues • Extensive updating of basic data, as well as the introduction of a wide range of new materials • Methods for recycling and reuse of materials • More information on the interaction between materials and the indoor environment, ventilation and energy use • Full colour text and user-friendly larger format Bjørn Berge is a practicing architect, researcher and lecturer. Since the 1970s, he has written several books on building ecology for the Scandinavian public. He is one of the founders of Gaia Architects who have developed a wide range of pioneering techniques in sustainable building.

de Gournay Claud Cecil Gurney, 2020-10-06 Renowned for its elegant hand-painted wallpapers and textiles, de Gournay creates some of the most beautiful interiors in the world. Celebrated for its hand-painted chinoiserie wallpapers, sumptuous patterns of colorful flora and varied birdlife, the company produces additional collections that explore historical themes, such as nineteenth-century French pastoral scenes or exotic Brazilian landscapes bursting with wildlife. De Gournay also crafts more abstracted designs that fit well with modern interiors. Collaborating with renowned tastemakers from across creative industries, de Gournay works with leading interior designers as well as noted trendsetters such as Kate Moss. This volume showcases de Gournay designs in situ, in beautiful interiors created by top designers in homes from San Francisco and New York to London, Paris, and beyond. The book explores de Gournay interiors in both city and country settings, how to take inspiration from English stately homes, and how custom wallpaper designs are created. Full of inspiring interiors and design ideas, de Gournay is an in-depth look at the stunning creations of one of the most prestigious and influential design houses of today.

Sustainable Residential Interiors Annette Stelmack, Associates III, Kari Foster, Debbie Hindman, 2014-09-03 The Second Edition of *Sustainable Residential Interiors* addresses cutting edge processes, strategies, and principles as well as details for in-depth product vetting criteria. Award-winning, leading interior designer Annette Stelmack shares her expertise from the perspective of LEED Building Design & Construction projects, healthy interiors, and chemical sensitivities, addressing principles, strategies, and solutions for design practitioners. A comprehensive update of the current state of the sustainable interior design industry is provided, including present and upcoming industry transformations, thought-leading principles, strategies and practices for project implementation, and fine points and resources for in-depth product vetting to support high-performing, healthy interiors. *Sustainable Residential Interiors* takes readers through an integrated design process, demonstrating relevant principles and practices that apply to essentially any interiors project toward creating an environment that is healthy, high-performing, functional, sustainable, and beautiful. In doing so, it: Promotes critical thinking about health and environmental issues in the building industry Features checklists and current resources, providing a hands on practical approach Addresses in-depth, applicable third party certifications and details on relevant building rating systems Provides in-depth strategies and criteria for fixed interior finishes, fixtures, equipment and furnishings Demonstrates successful, relevant, diverse and inspiring case studies Delivers comprehensive tools and resources for researching and vetting products' composition and chemical make-up. Evaluates all aspects of a building's interior to identify and implement methods that: save energy and water; reduce Co2 emissions and waste; improve indoor air quality free of toxins; and are responsive to environmental impacts Encourages forward-thinking by featuring inspirational statements from mentors, peers, and industry leaders Urges interior designers to commit to designing safe, healthy environments that are integral to a professional code of ethics, which ensure the delivery of positive outcomes for the client and any building's future occupants

Sustainability in Interior Design Sian Moxon, Siân Moxon, 2012-03-19 The environmental impact of interior architecture and design practice is immense. This book highlights the need for designers to adapt the way they work and relearn lessons that have been lost. Contrary to many preconceptions, sustainable design can be sophisticated and stylish. And by its nature, a sustainable approach means considering the whole life cycle of a project and therefore improving the functionality, quality, human enjoyment and, in the long term, bringing real social and economic benefits. This book has examples, techniques, and historical and contemporary case studies, all supported by useful resources and links. A comprehensive reference book for anyone wanting to work in this area, Siân Moxon aims to introduce the ideas behind sustainability to design students while they are formulating their understanding of the industry, encouraging and inspiring them with positive, creative and practical alternatives.

The Naked Wall Anne Bold-Pryor, Donna V. Laci, 2006 • Easy, fun, inexpensive ideas make any room more livable fast • Eleven how-to projects make DIY doable • Fun with friends—great weekend and volunteer projects for buddies and groups Painting and accessorizing walls are surely the easiest, fastest, and least expensive ways to change the look and mood of a room. And it's low-risk, too: Hate the look? Paint it over. But no one will hate the looks in *The Naked Wall*, the book that shows exactly how to dramatically transform rooms instantly. The first section, *Dress It*, covers tips, techniques, and inspiration for choosing color, painting, accenting, and adding faux finishes, trompe l'oeil, murals, wallpaper, plaster, fabric, brick, tile, and wood. In section two, *Accessorize It*, the experienced and talented authors explain choosing and hanging art, framing art, displaying collections, and dressing the wall with mirrors, screens, textiles, and more. Eleven great how-to fast-and-fabulous projects—great for girlfriends and groups of friends—show exactly how to take walls from buck naked to best dressed.

The Routledge Handbook of Environment and Communication Anders Hansen, Robert Cox, 2015-03-05 This Handbook provides a comprehensive statement and reference point for theory, research and practice with regard to environment and communication, and it does this from a perspective which is both international and multi-disciplinary in scope. Offering comprehensive

critical reviews of the history and state of the art of research into the key dimensions of environmental communication, the chapters of this handbook together demonstrate the strengths of multi-disciplinary and cross-disciplinary approaches to understanding the centrality of communication to how the environment is constructed, and indeed contested, socially, politically and culturally. Organised in five thematic sections, *The Routledge Handbook of Environment and Communication* includes contributions from internationally recognised leaders in the field. The first section looks at the history and development of the discipline from a range of theoretical perspectives. Section two considers the sources, communicators and media professionals involved in producing environmental communication. Section three examines research on news, entertainment media and cultural representations of the environment. The fourth section looks at the social and political implications of environmental communication, with the final section discussing likely future trajectories for the field. The first reference Handbook to offer a state of the art comprehensive overview of the emerging field of environmental communication research, this authoritative text is a must for scholars of environmental communication across a range of disciplines, including environmental studies, media and communication studies, cultural studies and related disciplines.

Why David Hated Tuesdays Amilya Antonetti,2010-05-12 Author Amilya Antonetti's son, David, spent almost half of the first year of his life in and out of the emergency room. After the doctor's efforts to pinpoint the cause of his distress were fruitless, a determined Amilya eventually discovered an unmistakable pattern: Her son became violently ill about two hours after she finished cleaning house. David was having severe, though not uncommon, allergic reactions to ordinary household cleaners. Amilya's attention immediately turned to finding safer yet still effective ways to keep a clean house -- without putting David in the hospital -- which she built into a successful line of natural products.

Handbook of Research on Inclusive and Innovative Architecture and the Built

Environment Peng, Ng Foong,Sonet, Ungku Norani,2023-06-19 There is an urgent need to emphasize inclusivity in architecture and the built environment. Innovative technologies within the field of architecture are being developed to enhance inclusivity in architectural approaches and development processes. It is essential to research inclusivity in architecture and the built environment toward holistic sustainable development. The *Handbook of Research on Inclusive and Innovative Architecture and the Built Environment* discusses inclusive and innovative approaches to providing socio-cultural value within architecture and the built environment. It focuses on issues of diversity, sustainability, resilient designs, and more. Further, the book expands the knowledge and awareness of architecture and the built environment towards inclusivity in design development and emerging advanced technology. Covering topics such as architectural challenges, global health, and urban morphology, this major reference work is an excellent resource for architects, government officials, urban planners, practitioners, students and educators of higher education, researchers, and academicians.

Wallpaper in America Catherine Lynn,Cooper-Hewitt Museum,1980 Drawing on the extensive collections of the Cooper-Hewitt Museum, the Smithsonian Institution's National Museum of Design, as well as from sources across America and Europe, the author documents the changing tastes in pattern and color preferences. Richly illustrated with 102 color plates and over 245 black and white photographs, this book is a stunning achievement.

Smartcities, Resilient Landscapes and Eco-Warriors CJ Lim,Ed Liu,2019-04-16 Following on from the success of the first edition, *Smartcities + Eco-Warriors* (2010), this book is the latest innovative response on urban resilience from one of the world's leading urban design and architectural thinkers. An ecological symbiosis between nature, society and the built form, the Smartcity cultivates new spatial practices and creates diverse forms of resilient landscapes including and beyond urban agriculture. The notion of the Smartcity is developed through a series of international case studies, some commissioned by government organisations, others speculative and polemic. This

second edition has nine new case studies, and additional ecological sustainability studies covering sensitivity, design criteria, and assessments for ecological construction plans. The book concludes with two new essays on the romance of trees and the empowering nature of resilient landscapes. *Smartcities, Resilient Landscapes + Eco-warriors* represents a crucial voice in the discourse of climate change and the potential opportunities to improve the ecological function of existing habitats or create new landscapes which are considered beneficial to local ecology and resilience. It is indispensable reading for practitioners and students in the fields of landscape, urban design, architecture and environmental engineering. An inspiration to government agencies and NGOs dealing with sustainability, this work also resonates with anyone concerned about cities, landscapes, food and water security, and energy conservation.

The Pure Cure Sharyn Wynters, 2012-04-12 The human race has invented nearly every toxin imaginable. In our food, there are chemicals that kill pests, make foods ripen faster and grow bigger, and lengthen shelf life. In our clothing, chemicals make fabrics soft, keep them from wrinkling, make them fire retardant and resistant to stains, and keep them from collecting static. In our kitchens and bathrooms, chemicals create suds, remove grease, stiffen our hair, make our skin feel smooth, stop us from perspiring, change our hair color, lengthen our lashes, and make us smell good. Unfortunately, many of these chemicals, designed to improve and simplify our lives, cause birth defects, hyperactivity, learning disabilities, attention deficit, early puberty, and developmental problems—to name a few. *The Pure Cure* takes readers to a new level of awareness regarding the dangers of the toxins in everyday products and services. Taking a thorough and comprehensive approach, the book guides readers through every room in the house and beyond, identifying problematic toxins and a course of action for eliminating them. The author also points to surprising new areas of concern, makes suggestions for healthy solutions, and provides a lists of products and companies that can offer safer alternatives.

Kenya Gazette, 2002-07-05 The Kenya Gazette is an official publication of the government of the Republic of Kenya.
