Networked Digital Technologies Rachid Benlamri, 2012-06-02 This two-volume-set (CCIS 293 and CCIS 294) constitutes the refereed proceedings of the International Conference on Networked Digital Technologies, NDT 2012, held in Dubai, UAE, in April 2012. The 96 papers presented in the two volumes were carefully reviewed and selected from 228 submissions. The papers are organized in topical sections on collaborative systems for e-sciences; context-aware processing and ubiquitous systems; data and network mining; grid and cloud computing; information and data management; intelligent agent-based systems; internet modeling and design; mobile, ad hoc and sensor network management; peer-to-peer social networks; quality of service for networked systems; semantic Web and ontologies; security and access control; signal processing and computer vision for networked systems; social networks; Web services.

**Advances in Security, Networks, and Internet of Things** Kevin Daimi, Hamid R. Arabnia, Leonidas Deligiannidis, Min-Shiang Hwang, Fernando G. Tinetti, 2021-07-10 The book presents the proceedings of four conferences: The 19th International Conference on Security & Management (SAM'20), The 19th International Conference on Wireless Networks (ICWN'20), The 21st International Conference on Internet Computing & Internet of Things (ICOMP'20), and The 18th International Conference on Embedded Systems, Cyber-physical Systems (ESCS'20). The conferences took place in Las Vegas, NV, USA, July 27-30, 2020. The conferences are part of the larger 2020 World Congress in Computer Science, Computer Engineering, & Applied Computing (CSCE'20), which features 20 major tracks. Authors include academics, researchers, professionals, and students. Presents the proceedings of four conferences as part of the 2020 World Congress in Computer Science, Computer Engineering, & Applied Computing (CSCE'20); Includes the tracks on security & management, wireless networks, internet computing and IoT, and embedded systems as well as cyber-physical systems; Features papers from SAM'20, ICWN'20, ICOMP'20 and ESCS'20.

*Computer Science and Convergence* James (Jong Hyuk) Park, Han-Chieh Chao, Mohammad S. Obaidat, Jongsung Kim, 2011-12-07 Computer Science and Convergence is proceedings of the 3rd FTRA International Conference on Computer Science and its Applications (CSA-11) and The 2011 FTRA World Convergence Conference (FTRA WCC 2011). The topics of CSA and WCC cover the current hot topics satisfying the world-wide ever-changing needs. CSA-11 will be the most comprehensive conference focused on the various aspects of advances in computer science and its applications and will provide an opportunity for academic and industry professionals to discuss the latest issues and progress in the area of CSA. In addition, the conference will publish high quality papers which are closely related to the various theories and practical applications in CSA. Furthermore, we expect that the conference and its publications will be a trigger for further related research and technology improvements in this important subject. The main scope of CSA-11 is as follows: - Mobile and ubiquitous computing - Dependable, reliable and autonomic computing - Security and trust management - Multimedia systems and services - Networking and communications - Database and data mining - Game and software engineering - Grid, cloud and scalable computing - Embedded system and software - Artificial intelligence - Distributed and parallel algorithms - Web and internet

computing - IT policy and business management WCC-11 is a major conference for scientists, engineers, and practitioners throughout the world to present the latest research, results, ideas, developments and applications in all areas of convergence technologies. The main scope of WCC-11 is as follows: - Cryptography and Security for Converged environments - Wireless sensor network for Converged environments - Multimedia for Converged environments - Advanced Vehicular Communications Technology for Converged environments - Human centric computing, P2P, Grid and Cloud computing for Converged environments - U-Healthcare for Converged environments - Strategic Security Management for Industrial Technology - Advances in Artificial Intelligence and Surveillance Systems

**Disaster Management and Human Health Risk V** C.A. Brebbia, Wessex Institute, UK,2017-09-07 The contents of this book consist of papers presented at the 5th International Conference on Disaster Management and Human Health: Reducing Risk, Improving Outcomes, part of a series of conferences convened to assess the potential risk from various disasters and discuss ways to prevent or alleviate damage. These latest developments, contained in this volume, have been contributed by academics and experts on public health, security and disaster management in order to exchange knowledge and experience on the way to handle the increasing risk of natural and human-made disasters. As the human population has continued to concentrate in urban areas the number of people and the value of property affected by both natural and man-produced disasters has also grown. Earthquakes, floods, hurricanes, cyclones, tornadoes and forest fires have all taken their toll, as have man-made catastrophes such as industrial spillages and terrorist attacks. The included paper cover various subject areas, including: Disaster analysis; Disaster monitoring and mitigation; Emergency preparedness; Risk mitigation; Risk and security; Resilience; Socio-economic issues; Health risk; Human factors; Multi-hazard risk assessment; Case studies; Learning from disasters and man-made disasters.

Basic Korean Soohye Kim,Emily Curtis,Haewon Cho,2020-01-03 With an emphasis on practical daily communication, Basic Korean is a great introduction to those looking to learn the language--whether on their own or with a teacher. *Mobile Gaming in Asia* Dal Yong Jin,2016-07-29 This book analyzes mobile gaming in the Asian context and looks

into a hitherto neglected focus of inquiry – a localized mobile landscape, with particular reference to young Asians' engagement with mobile gaming. This edition focuses not only on the remarkable success of local mobile games, but also on the significance of social milieu in the development of Asian mobile technologies and gaming culture. It analyzes the growth of the current mobile technologies and mobile gaming not as separate but as continuous developments in tandem with the digital economy. It is of interest to both academics and a broader readership from the business, government, and information technology sectors

*Machine Learning and Embedded Computing in Advanced Driver Assistance Systems (ADAS)* John Ball ,Bo Tang ,2019-10-01 This book contains the latest research on machine learning and embedded computing in advanced driver assistance systems (ADAS). It encompasses research in detection, tracking, LiDAR and camera processing, ethics, and communications. Several new datasets are also provided for future research work. Researchers and others interested in these topics will find important advances contained in this book.

Curriculum Development and Assessment Guidelines for the National Standards Project Sungdai Cho,2018-07-26 This book is designed to make public the detailed work that has been developed for the Korean National Standards Project in two areas, namely curriculum development and assessment guideline. The first part of the book provides basic information on Korea and the Korean language, together with its structure and aims. Part Two discusses the four levels of curriculum currently present in high schools and colleges. The third section consists of assessment guidelines to the four levels available in college education. The entire framework offered here is based on the 5Cs principle (specifically Communication, Cultures, Comparisons, Connections, and Communities) promoted by American Council on the Teaching of Foreign Languages, with more fine-tuned specifications of standards for each aspect.

**Global Risk Management** Louise K. Comfort,Mary Lee Rhodes,2022-08-31 The rise and spread of Covid-19 in the beginning of 2020 presents a once-in-a-century challenge and opportunity for decision makers, managers, scholars, and citizens to understand the risks, mitigate its impact and prepare for future crises. Drawing on a global network of scholars, this book presents a comparative analysis of ten nations' response to a global pandemic, while operating nominally under the framework of the World Health Organization. The book introduces the concept of 'collective cognition' as an analytic lens for examining the nations' response to Covid-19 during the first six months of the emerging pandemic (January – June 2020) and draws out insights for improving systems of global risk management. This book addresses four primary audiences: policy-makers and leaders in nations struggling to contain viruses while guiding their societies under threat; academic researchers, students, and educators engaged in preparing the next generation of professionals committed to investigating emerging risk: managers of non-profit and private organizations that operate and maintain the networks of social, technical, and economic services that are essential to functioning communities; and the informed general public interested in understanding this extraordinary sequence of events and in managing the novel risk of COVID-19 in a more informed, responsible way.

**Cultural Space on Metaverse** Ji-Hyun Lee,2023-10-27 This book consists of some selected papers presented at the

4th cultural DNA workshop. The papers include topics from three different perspectives: insightful analysis, intelligent synthesis and cutting-edge tools to better understand cultural DNA. It is this diverse perspective toward cultural DNA that makes this book special and suggestive. This book can be suggestive especially for the designers trying to find the very essence, the archetype, and the building blocks of our environment for the incorporation of social and cultural factors into their designs. This book consists of some selected papers presented as first drafts at the 4th cultural DNA workshop. The papers include topics from three different perspectives: insightful analysis, intelligent synthesis and cutting-edge tools to better understand cultural DNA.

Advanced Communication and Networking Tai-hoon Kim, Hojjat Adeli, Rosslin John Robles, Maricel Balitanas, 2011-08-05 This volume constitutes the refereed proceedings of the 3rd International Conference on Advanced Communication and Networking, ACN 2011, held in Brno, Czech Republic, in June 2011. The 57 revised full papers presented in this volume were carefully reviewed and selected from numerous submissions. The papers focus on the various aspects of progress in Advanced Communication and Networking with computational sciences, mathematics and information technology and address all current issues of communication basic and infrastructure, networks basic and management, multimedia application, image, video, signal and information processing.

**Digital Culture & Society (DCS)** Ramón Reichert, Annika Richterich, Pablo Abend, Mathias Fuchs, Karin Wenz, 2017-12-31 »Digital Culture & Society« is a refereed, international journal, fostering discussion about the ways in which digital technologies, platforms and applications reconfigure daily lives and practices. It offers a forum for critical analysis and inquiries into digital media theory and provides a publication environment for interdisciplinary research approaches, contemporary theory developments and methodological innovation. This issue, edited by Anna Lisa Ramella, Asko Lehmuskallio, Tristan Thielmann and Pablo Abend, discusses the mobility of people, data and devices from the perspective of digital mobile practices. As the authors of various empirical case studies show, these need to be studied both situationally, and on the move. With contributions by Marion Schulze, Jamie Coates, Geoffrey Hobbis, Samuel Gerald Collins, among others, and an interview with Heather Horst, David Morley, and Noel B. Salazar.

*R and Python for Oceanographers* Hakan Alyuruk, 2019-06-09 *R and Python for Oceanographers: A Practical Guide with Applications* describes the uses of scientific Python packages and R in oceanographic data analysis, including both script codes and graphic outputs. Each chapter begins with theoretical background that is followed by step-by-step examples of software applications, including scripts, graphics, tables and practical exercises for better understanding of the subject. Examples include frequently used data analysis approaches in physical and chemical oceanography, but also contain topics on data import/export and GIS mapping. The examples seen in book provide uses of the latest versions of Python and R libraries. Presents much needed oceanographic data analysis approaches to chemical and physical oceanography Includes examples with software applications (based on Python and R), including free software for the analysis of oceanographic data Provides guidance on how to get started, along with guidance on example code and output

**The Emperor of Writing, Lord William** Lord William,2021-04-08 Because blogs are SNS where you have to write, handwriting is very important. To target a nutritious title, you have to have a lot of nutrients that go into the content, and that's what the article says. Rather than just listing information, if the blogger's thoughts and charms are written, there will be regular readers who subscribe steadily. Therefore, blogs can be said to be social media that can force a good writer to do. If you want to blog in earnest, if you're sitting down at any time, you'll need to build up this muscle so that you can write right away. To the point where I can't keep up with the speed of my thoughts. Become a broken faucet that never stops writing all day long and keeps coming out even if you talk all day. In management, people say that a sense of writing is the most important thing. There are many CEOs who did not study well but succeeded only in writing. So I always told my acquaintances. You just have to write well. It's good to study hard that you give up every vacation, but you should also write. Not a difficult topic, but a topic that I can write interestingly. If you're good at making videos, YouTube, Instagram if you're good at taking pictures, and blog if you're good at writing. Of course YouTube makes much better money. Many famous bloggers have expanded their social media to YouTube. However, I think blogs have their own charms. Being able to organize my thoughts is a really advanced ability. And if this base is solid, I'm not afraid of the future. There are so many places to use. If you are looking for quality posting with fluent handwriting, clean blog design, presence with clear characters, branding with original content, and exposing your posting with keyword attacks, it is not that difficult to become a popular blog. It's very meaningful to have people who really read and communicate with me, even if they're a few readers. That's what I am.

Globalizing Seoul Jieheerah Yun,2017-02-17 In the decades following the 1997 Asian economic crisis, South Korea sought segyehwa (globalization). Evidence of this is no more evident than in the country's capital, Seoul, where urban development has been central to making the city a global hub and not just the centre of the national economy. However, recent development projects differ from those of the past in that they no longer focus solely on economic efficiency, but on the deployment of a new urban aesthetics. As Jieheerah Yun reveals in *Globalizing Seoul: The City's Cultural and Urban Change*, the pursuit of globalization and the rebranding of Seoul's image from hard industrial city to soft cultural city have shaped the urban development of the city. Following a brief urban history of Seoul, she focuses on two key themes. In the first, how globalization has contributed to refashioning Korean traditions, she analyzes the policies and actions to preserve Korean folk houses and pre-industrial street layouts, looking in detail at the Bukchon and Insadong areas of the city. Her second theme is an examination of migration and the generation of new minority neighbourhoods amidst the segyehwa policies and the state's efforts to build a multicultural society. In detailed case studies of the redevelopment of Dongdaemun Market as part of rebranding Seoul as the 'world design capital' and of the Itaewon area as both a Special Tourist Zone and a Global Cultural Zone, she shows how multi-ethnic neighbourhoods are threatened by lack of consideration for economic justice and housing provision.

Survival Korean Crash Course is a practical Korean language guide written by three exchange students from Leiden University in the Netherlands, which runs the only Korean Studies major in Europe. As “Your Friendly Guide to Student Life in Korea,” the book is a friendly, fun read, like the writers are personally sharing their stories of life in Korea to a good friend. The book also contains frequently used Korean words and idioms. The three writers—Irene Schokker, Lauren Kies, and Rachel van den Berg—fell in love with life in Korea as exchange students at Yonsei University, where they met Korean friends, hung out at university festivals and student outings, joined student clubs and activities, and even raced against Koreans students in the fierce competition to register for classes. They went through difficulties too, as they got used to the cultural differences. Before they learned to call out “Auntie!” at a restaurant or ring a bell on the table, they would wait ages for a server to finally come

take their order. And they had no idea that, according to Korean drinking customs, they should have turned their heads away when drinking with their seniors. Based on their own newbie mistakes and confusion, they put together this Survival Korean manual, featuring eight chapters organized by situation. The book lays out essential words and expressions commonly used in daily life and various situations that international students in Korea often encounter, including school classes, searching for a place to live, navigating the streets, ordering food at a restaurant, enjoying leisure time, shopping, and emergencies. Based on the first-hand experiences of the authors themselves, who have just finished their exchange semester and returned to the Netherlands earlier this year, the three students pass on their tips for the things foreigners living in Korea find difficult and the Korean expressions they find confusing. This book will be a useful guide for students who plan to study in Korea or are looking for a mentor on Korean life, with authentic advice and recommendations from real exchange students.

*Future Information Communication Technology and Applications* Hoe-Kyung Jung, Jung Tae Kim, Tony Sahama, Chung-Huang Yang, 2013-05-25 These proceedings are based on the 2013 International Conference on Future Information & Communication Engineering (ICFICE 2013), which will be held at Shenyang in China from June 24-26, 2013. The conference is open to all over the world, and participation from Asia-Pacific region is particularly encouraged. The focus of this conference is on all technical aspects of electronics, information, and communications ICFICE-13 will provide an opportunity for academic and industry professionals to discuss the latest issues and progress in the area of FICE. In addition, the conference will publish high quality papers which are closely related to the various theories and practical applications in FICE. Furthermore, we expect that the conference and its publications will be a trigger for further related research and technology improvements in this important subject.

**Software Engineering Research, Management and Applications 2010** Alain Abran, Roger Lee, Olga Ormandjieva, Constantinos Constantinides, 2010-05-12 The purpose of the 8th Conference on Software Engineering, Artificial Intelligence Research, Management and Applications (SERA 2010) held on May 24 – 26, 2010 in Montreal, Canada was to bring together scientists, engineers, computer users, and students to share their experiences and exchange new ideas and research results about all aspects (theory, applications and tools) of computer and information science, and to discuss the practical challenges encountered along the way and the solutions adopted to solve them. The conference organizers selected 15 outstanding papers from SERA 2010, all of which you will find in this volume of Springer's Studies in Computational Intelligence.
