Mexican Road Race Patrick O'Connor,1957 Young Woody Hartford and his mechanic Worm McNess roar northward in the most grueling test in the automobile world, the two-thousand-mile race from the southern border of Mexico north to the United States.

Carrera Panamericana Daryl Murphy,2008 Carrera Panamericana: the Mexican Road Race. In its day it was the longest, fastest and likely wildest international automobile race ever staged. A World Championship event along with Le Mans, the Mille Miglia, Nüburgring and the Tourist Trophy, most drivers considered it the best-and the worst-of them all. From 1950 to 1954, it was witnessed by ten million spectators along a nearly 2,000-mile course that featured deserts where the faster cars could reach 180 mph and 10,000-foot mountain passes requiring first-gear operation. Carrera Panamericana influenced engineering and marketing from Michigan to Modena. Ferrari designed and named a model specifically for the race. Lincoln emerged as a high-performance sedan and Porsche's Carrera was named in honor of its wins. The Pan-Am was so unconventional and fascinating that it came to hold the world's attention for a full week each year. It was one of the last of the great open road events and the first in which European and American cars could be compared and marked the return of US factory support to racing in America.

La Carrera Panamericana Johnny Tipler,2014-02-11 The Carrera Panamericana was first run to celebrate the inauguration of the Panamerican Highway, and traversed the length of Mexico, from Tuxtla in the south to Juárez near the Texas border. Firms like Alfa Romeo, Mercedes-Benz, Volkswagen and Porsche took advantage, and as class winners, Porsche even applied the event's Carrera name to its sportier models. Since its 1987 revival, it's been run rally-style with half-a-dozen special stages a day. Just as it did in the early-'50s, half the entry comprises brash American stock cars, today mostly Panamericana specials based on spaceframe chassis and 600bhp NASCAR V8 engines and running gear, lurking beneath period Studebaker, Hudson, Lincoln or Oldsmobile bodywork. The '50s and '60s European classics are no less heavily modified. Mexicans love a fiesta, and the arrival of La Carrera Panamericana at each of the provincial towns on its seven-day, 2000-mile progress through central Mexico last November provided an excuse for wild celebrations. As Johnny Tipler and his co-piloto Sarah Bennett-Baggs experienced when they drove the race in 2011 in a Porsche 914/4, everywhere the entourage is mobbed by enthusiastic spectators, waving, cheering and demanding souvenirs. Crowds throng, brass bands play salsa, and the tequila overflows. Includes over 400 images, maps of the modern and original 1950s routes, plus results of original events.

The Authoritarian Personality Theodor Adorno,Else Frenkel-Brenswik,Daniel J. Levinson,R. Nevitt Sanford,2019-08-27 This hugely influential study on the psychology of authoritarianism was written in answer to Hitler's Germany—and now rings more relevant than ever as fascism and anti-Semitism sweep across America. What makes a fascist? Are there character traits that make someone more likely to vote for the far right? The Authoritarian Personality is not only one of the most significant works of social psychology ever written, it also marks a milestone in the development of Adorno's thought, showing him grappling with the problem of fascism and the reasons for Europe's turn to reaction. Over half a century later, and with the rise of right-wing populism and the reemergence of the far-right in recent years, this hugely influential study remains as insightful and relevant as ever. This new edition includes an introduction by Frankfurt School scholar Peter E. Gordon and contains the first-ever publication of Adorno's subsequent critical notes on the project. "Adorno and his colleagues could easily have been describing Alex Jones's paranoid InfoWars rants or the racist views expressed by many Trump supporters." —Molly Worthen, New York Times
