Remote Control Shoma Munshi, 2012-12-15 What do the TV shows we're watching tell us about ourselves? Television is the single most powerful and dynamic agent of change in India today. It is also the country's most popular and accessible form of entertainment. Remote Control examines three kinds of programming—24x7 news, soap operas and reality shows—that have changed Indian television forever, and analyzes how these three genres, while drawing on different sources, are hybridized, indigenized and manage to ultimately project a distinctively Indian identity. Shoma Munshi's book shows us how everyday reality in India in the twenty-first century shapes television; and how television, in turn, shapes us.

The Longest August Dilip Hiro, 2015-02-24 The partitioning of British India into independent Pakistan and India in August 1947 occurred in the midst of communal holocaust, with Hindus and Sikhs on one side and Muslims on the other. More than 750,000 people were butchered, and 12 million fled their homes -- primarily in caravans of bullock-carts -- to seek refuge across the new border: it was the largest exodus in history. Sixty-seven years later, it is as if that August never ended. Renowned historian and journalist Dilip Hiro provides a riveting account of the relationship between India and Pakistan, tracing the landmark events that led to the division of the sub-continent and the evolution of the contentious relationship between Hindus and Muslims. To this day, a reasonable resolution to their dispute has proved elusive, and the Line of Control in Kashmir remains the most heavily fortified frontier in the world, with 400,000 soldiers arrayed on either side. Since partition, there have been several acute crises between the neighbors, including the secession of East Pakistan to form an independent Bangladesh in 1971, and the acquisition of nuclear weapons by both sides resulting in a scarcely avoided confrontation in 1999 and again in 2002. Hiro amply demonstrates the geopolitical importance of the India-Pakistan conflict by chronicling their respective ties not only with America and the Soviet Union, but also with China, Israel, and Afghanistan. Hiro weaves these threads into a lucid narrative, enlivened with colorful biographies of leaders, vivid descriptions of wars, sensational assassinations, gross violations of human rights -- and cultural signifiers like cricket matches. The Longest August is incomparable in its scope and presents the first definitive history of one of the world's longest-running and most intractable conflicts.

The Politics of Sport in South Asia Subhas Ranjan Chakraborty, Shantanu Chakrabarti, Kingshuk Chatterjee, 2013-09-13 Behind the spectacle of entertainment, sport is a subject with political issues at every level. These issues range from the social, with divisions created along gender and class lines, to the use of sport to pursue diplomatic and statecraft goals. In addition, some sports are positioned and promoted as national events both in public opinion and in the media. This book seeks to explore some aspects of the

notion of power in sport in south Asia and among south Asians abroad. The first two chapters deal with the internal societal dimensions of the politics of sport; the next three relate to the politics inside the sporting world in the subcontinent and its bridge with the broader arena of the society through the media, while the last five relate to the use of sports in statecraft, consensus building and international politics. This book was based on two special issues of the International Journal of the History of Sport.

Not Out! Desh Gaurav Sekhi, 2016-04-05 Chronicling the Indian Premier League (IPL), India's first sports league and the most controversial ever, this book explores the intricacies of the business and the acceptability of the IPL to take a closer look at the various scams that have plagued it. It is a blow-by-blow description of the highs, lows, and future of the IPL that has, possibly, redefined the way the rest of the world perceives India. It analyses what the league got right and what it has got wrong and why. And, what the IPL and its owner/promoter—the Board of Control for Cricket in India (BCCI)—could have done to sell the sport and build on the popularity of cricket in India, but didn't. Analysing the spot-fixing scandal, the conflict of interest controversy, the specific issues concerning the teams, the complicated interplay between the BCCI and the IPL, this thought-provoking work brings to light many untold stories of cricket in India.

Extreme Weather and Global Media Julia Leyda, Diane Negra, 2015-06-05 In the two decades bracketing the turn of the millennium, large-scale weather disasters have been inevitably constructed as media events. As such, they challenge the meaning of concepts such as identity and citizenship for both locally affected populations and widespread spectator communities. This timely collection pinpoints the features of an often overlooked yet rapidly expanding category of global media and analyzes both its forms and functions. Specifically, contributors argue that the intense promotion and consumption of 'extreme weather' events takes up the slack for the public conversations society is not having about the environment, and the feeling of powerlessness that accompanies the realization that anthropogenic climate change has now reached a point of no return. Incorporating a range of case studies of extreme weather mediation in India, the UK, Germany, Sweden, the US, and Japan, and exploring recent and ongoing disasters such as Superstorm Sandy, the Fukushima nuclear crisis, flooding in Germany, and heat waves in the UK, *Extreme Weather and Global Media* generates valuable inquiry into the representational and social characteristics of the new culture of extreme weather.

The Extraordinary Life and Death of Sunanda Pushkar Sunanda Mehta, 2019-07-25 An extraordinary life. A strange death. The untold story of Sunanda Pushkar. On 17 January 2014, Sunanda Pushkar, businesswoman and wife of writer and politician Shashi Tharoor, was found dead in her hotel suite in New Delhi. Her death was as shocking as it was suspect, spawning many a controversy and complex legal battles. Her life was no less dramatic but far lesser known. A culmination of material drawn from personal archives, numerous interviews and investigation across continents, this riveting biography attempts to answer the question: Who really was Sunanda Pushkar? Was she a social climber hankering after power and fame? Or was she bold and unconventional, achieving success on her own merit only to become a casualty of circumstance? Was she a villain or a victim? Or a bit of both? In search of these answers, Sunanda Mehta, journalist and Pushkar's former schoolmate, traces her subject's life from her early days in cantonment towns, to her first two marriages, a largely unknown stint in Canada, her rise as a Dubai businesswoman, and finally her much-publicized years with Tharoor until her controversial death shook the nation. Through the soaring highs and wrecking lows that marked her forty-nine years, Sunanda Pushkar lived with passion, ambition and defiance. This definitive biography is the account of her phenomenal life and its turbulent end.

Indian Silver Screen Dr. Paramveer Singh, 2021-08-05 Indian Silver Screen Television in India has been a medium of entertainment as well as social and economic awareness. It was started under government control as a medium of social awareness, but now this medium has become an industry. There was a time when Doordarshan was the only channel on television in India, but today, hundreds of channels broadcast programs day and night. In India today, there are many channels based on sports, news, film, documentary, and music. There was a time when television programs could be viewed only through television sets, but today, through devices such as computers, laptops, and mobiles, viewers can watch their favorite programs at their convenient location, and time. The main objective of this book written on Indian television is to make students aware of the history and status of Indian television. Relocating Television Jostein Gripsrud, 2012-07-26 For over half a century, television has been the most central medium in Western democracies – the political, social and cultural centrepiece of the public sphere. Television has therefore rarely been studied in isolation from its socio-cultural and political context; there is always something important at stake when the forms and functions of television are on the agenda. The digitisation of television concerns the production, contents, distribution and reception of the medium, but also its position in the overall, largely digitised media system and public sphere where the internet plays a decisive role. The articles in this comprehensive collection are written by some of the world's most prominent scholars in the field of media, communication and cultural studies, including critical film and television studies. *Relocating Television* offers readers an insight into studying television alongside the internet, participatory media and other technocultural phenomena such as DVDs, user-generated content and everyday digital media production. It also focuses on more specific programmes and phenomena, including *The Wire*, MSN, amateur footage in TV news, Bollywoodization of TV news, YouTube, fan sites tied to e.g. *Grey's Anatomy* and *X Factor*. *Relocating Television* will be highly beneficial to both students and academics across a wide range of undergraduate and postgraduate courses including media, communication and cultural studies, and television and film studies.

My NDTV Days Sanjay Pinto, 2019-01-24 The life of a television journalist can often be described as full of thrills and the rush of providing ‘breaking news’ can be inimitable. Throwing a contentious question to then Prime Minister Atal Bihari Vajpayee on his visit to Chennai, escorting an NDTV colleague who had just survived an LTTE attack in Colombo, out of the Chennai Airport, edgy encounters with Boris Becker or humorous ones with Rahul Dravid or Vishwanathan Anand, My NDTV Days presents engaging details of the art of chasing news. At the core of Sanjay Pinto’s remarkable recounting of these interesting incidents, the life of a 24X7 journalist comes to the fore with all the unpredictable aspects of the profession.

Authoritative Democracies Bill K. Koul, 2022-07-22 This book comments on growing authoritarianism in democracy and suggests how it ought to be instead. It asks if some degree of authoritarianism is the need of the hour to address potentially existential issues facing the human race. Readers are encouraged to analyse the state of democracy in their own countries and verify if it meets their expectations, or if it is just a myth or an imposter, or a necessary but imperfect compulsion in the absence of a perfect alternative. The book presents a commentary on the state of democracy in some of the world’s leading democracies. It aims to challenge the human mind, which seems to be getting accustomed to not having to think, thanks to a constant bombardment of information—real and fake and in-between—that it receives through social and print media, which is freely accessible through smartphone to which it has become addicted. It discusses how the drivers of capitalism – through their business-like connections with powerful and influential

politicians and celebrities—could be cleverly manipulating the gullible human mind and exploiting the system to their own material benefit.

News as Entertainment Daya Kishan Thussu, 2008-01-09 Thussu brings to this project the passion for news of a socially committed former journalist, the political economy of his international relations education and a formidable assembly of global detail, examining the recent explosion of 'infotainment'. - John Downing, Southern Illinois University Thussu's account of war as infotainment, the Bollywoodization of news and the emergence of a global infotainment sphere is as compelling as it is alarming. This is a significant and essential book for anyone interested in exploring the connections between news journalism, informed citizenship and democracy. - Bob Franklin, The Cardiff School of Journalism, Media and Cultural Studies Richly detailed and empirically grounded, this first book-length study of infotainment and its globalization by a leading scholar of global communication, offers a comprehensive and critical analysis of this emerging phenomenon. Going beyond - both geographically and theoretically - the 'dumbing down' discourse, largely confined to the Anglo-American media, the book argues that infotainment may have an important ideological role, a diversion in which 'soft news' masks the hard realities of neo-liberal imperialism. Chapters include a historical appraisal of infotainment; the infrastructure for its globalization as well as coverage of recent wars on television news as high-tech infotainment and the growing synergies between Hollywood and Bollywood-originated infotainment. A 'global infotainment sphere' is emerging, the book argues, within which competing versions of news - from 24/7 news networks to bloggers - coexist. Accessible, engagingly written and robustly argued, the book combines analyses of theoretical debates on infotainment with extensive and up-to-date comparative data.

The Other #MeToos Iqra Shagufta Cheema, 2023 To bring more awareness to the revolutionary international impact of #MeToo, *The Other #MeToos* brings together chapters that look at specific iterations of the #MeToo movement across multiple communities, cultures, and countries. Going beyond gender, the book takes into account the intersectional assemblage of location, history, religion, ethnicity, race, class, and neoliberal aspects that inform #MeToo and its place in local and transnational feminisms. From Egypt, Lebanon, Iran, Tunisia, and Morocco to India, Pakistan, Bangladesh, Nepal, and Sri Lanka to South Africa to Latin America to South Korea, Japan, and China to Czech Republic - #MeToo has inspired local movements and hashtag trends as well as transnational and collective hashtags like #MosqueMeToo. Therefore, by making feminism mainstream, it has rendered possible international feminist solidarities unlike any other feminist movement that precedes it. It is critical to document this defining feminist moment of #MeToo and its variants to acknowledge the diversity and multidimensionality of transnational feminisms, along with looking at the various ways they have been changed by the #MeToo, internationally. To that argument, the contributions in this collection examine, analyze, and interrogate the reception, translation, and adaptation of #MeToo in their local, indigenous, minoritized, othered, and/or postcolonial contexts. Overall, *The Other #MeToos* highlights the adaptation, translation, and impact of #MeToo in non-Western, postcolonial, minoritized, and othered locales to expand the larger discourse and praxes of the #MeToo movement beyond its Americentric focus to explore other feminist possibilities that the movement has enabled--

Sachin Gulu Ezekiel, 2002 In the twelve years that he has been in the public eye, Sachin Tendulkar has been explosive on the cricket field and just as reticent off it. He was barely fifteen years old when he first wrote his name into the record books with a stupendous 664-run partnership with his childhood friend Vinod Kambli. Two year later, he struck his first century in first-class cricket. At eighteen, he became the second youngest man to make a hundred in international cricket, and after that there was no looking back.

Records tumbled by the wayside as he captivated audiences first in his home city of Mumbai, then in the rest of India and all over the cricket-playing world. Today, Sachin is widely accepted as the world's finest batsman, with impeccable technique, an incredible array of strokes, and maturity far beyond his years. His teammates and friends swear by him, his fans worship him and there are few, if any, critics of his game or his temperament. In this biography of the hero of Indian cricket, sports writer Gulu Ezekiel mines interviews, press reports and conversations over the last decade to create an accurate and sympathetic account of the man and his first passion: cricket. He tracks Sachin from his childhood when he first caught the bug of cricket, through his early performances in the Ranji Trophy and other domestic tournaments, and follows him on his meteoric rise to international stardom. With unfailing attention to detail, he reconstructs the crucial matches and events that marked Sachin's career and unravels for us the magic of the charismatic cricketer whom Wisden once dubbed 'bigger than Jesus'. Sachin: The Story of the World's Greatest Batsman, the first, serious exhaustive biography of the Tendulkar career so far, brings back, like a warm autumn breeze does, the memory of the wunderkind's early exhilarating summers in international cricket...The book is akin to a documentary in prose...the book's big virtue is that it is laboriously researched and cross-referenced. For any quizzier on Mastermind India opting for The Life and Times of Sachin Tendulkar as their specialist subject there's good news. You just got yourself the ready reckoner that covers 1973-2002.

Making News in India Somnath Batabyal, 2014-03-14 Post-liberalisation India has witnessed a dramatic growth of the television industry as well as on-screen images of the glitz and glamour of a vibrant, 'shining' India. Through a detailed ethnographic study of Star News and Star Ananda involving interviews, observations and content analysis, this book explores the milieu of 24-hour private news channels in India today. It offers insightful glimpses into the workings of one of the mightiest news corporations in the world and its ability to manufacture everyday reality for its audiences. Based on fieldwork in Mumbai and Kolkata, this study not only provides a detailed description of the television newsroom, its rituals and rhythms, but ventures beyond it to investigate how editorial and corporate strategies converge increasingly in an industry driven by profit. Through analysing how TRPs work to produce a non-inclusive idea of the 'audience' and examining hundreds of hours of news content, the book explores how news channels construct a vision of nationhood and of a successful and vibrant economy that caters primarily to the needs of the resurgent Indian middle class. While it will be of particular interest to media and cultural studies scholars and students, and to journalists and media professionals in general, this lively, engaging book also aims to give the general reader the wherewithal to analyse and critique the continuous barrage of 24-hour news television today.
