More News Is Good News NDTV,2016-06-10 Television news in India in the 1980s meant Doordarshan till NDTV came along and changed things forever. Beginning with a half-hour show on Doordarshan, The World This Week, in 1988, NDTV went from strength to strength. In 1995, it aired India's first-ever private news broadcast, with Prannoy Roy's announcement - 'It's eight o'clock and this is The News Tonight coming to you live' - marking a paradigm shift in news media in the country. It then went on to become an independent broadcaster in 2003. For over twenty-five years, the name NDTV has been synonymous with news and credible reporting in India. It is a pioneer in Indian TV journalism, breaking new ground and creating a whole industry. More News Is Good News records this phenomenal journey through the experiences of reporters, anchors, editors, camerapersons and producers, many of whom are now household names, including Prannoy Roy, Vikram Chandra, Ravish Kumar, Barkha Dutt, Sonia Singh, Sreenivasan Jain, Vishnu Som, Nidhi Razdan, Maya Mirchandani, Rajdeep Sardesai and Shekhar Gupta, among others. In the process, it provides a ringside view of the unshackling of the economy and the media, the dilemmas involved in reporting wars and natural disasters, the frontlines and the fault lines that defined the country, news coverage that morphed into nationwide public campaigns and altered the way we respond to the world around us. In the telling of these stories which reflect the countless realities of a changing nation, More News Is Good News also charts the fascinating evolution of news television in independent India over a quarter century.

My NDTV Days Sanjay Pinto,2019-01-24 The life of a television journalist can often be

described as full of thrills and the rush of providing 'breaking news' can be inimitable. Throwing a contentious question to then Prime Minister Atal Bihari Vajpayee on his visit to Chennai, escorting an NDTV colleague who had just survived an LTTE attack in Colombo, out of the Chennai Airport, edgy encounters with Boris Becker or humorous ones with Rahul Dravid or Vishwananthan Anand, My NDTV Days presents engaging details of the art of chasing news. At the core of Sanjay Pinto's remarkable recounting of these interesting incidents, the life of a 24X7 journalist comes to the fore with all the unpredictable aspects of the profession.

Ndtv Frauds Sree Iyer, 2017-03-07 This book is a classic example of how media organizations misuse, violate laws in connivance with crony capitalists, pliant law firms and politicians to amass personal wealth. This is a narrative of how two Promoters of NDTV along with key top management colluded over the years with government functionaries and politicians to break laws, evade taxes and deceive shareholders of a public listed company. All this obviously through political patronage and wheeling-and-dealing as part of the Lutyens club and how they created a biased public discourse for a select elite class. In the minds of the Indian citizen, there is a space and respect for media. Using the halo of journalism and under the garb of Freedom of Press, media owners misuse their position and in the end, degrade the values of journalism. On several occasions media became the tool of false propaganda, blackmailing and illegal money making with the blessing of uncouth politicians and corporate icons with hidden agendas. This ought to be exposed and that is the reason for this book.

Braking News Sunetra Choudhary, 2012-03-12 For two months prior to the general

elections in May 2009 NDTV anchor and TV reporter Sunetra Choudhary, along with her colleague Naghma Sahar, clambered onto a bus equipped with some Club Class seating, the requisite machinery to beam out live from the remotest parts of India, and a motley crew of cameramen and engineers. Notching up 200 kilometres a day, she and her colleagues trundled the bylanes and boondocks of Bharat in search of the elusive Indian voter, and an insight into his mind. Lurching into villages without electricity in UP, to tribal settlements in Jharkand, to Baripada in Orissa and Kanchipuram in Tamil Nadu they beamed out a daily show called the Election Express, that spoke one on one with the locals and tried to understand the issues that determined their lives. Part travelogue, part election special, part candid confessions of an inveterate TV camera-time junkie, this book is a delightfully frank account of one woman's understanding of why the country voted as it did; and how obvious it is, once out of the larger cities that development is the ultimate vote-getter.

Left, Right and Centre Nidhi Razdan, 2017-07-17 As India approaches its seventieth year of Independence, its people continue to grapple with multiple discourses: a few from the left, a considerable sum from the right and an impressive lot from the centre. Indian Silver Screen Dr. Paramveer Singh, 2021-08-05 Indian Silver Screen Television in India has been a medium of entertainment as well as social and economic awareness. It was started under government control as a medium of social awareness, but now this medium has become an industry. There was a time when Doordarshan was the only channel on television in India, but today, hundreds of channels broadcast programs day and night. In India today, there are many channels based on sports, news, film, documentary, and music. There was a time when television programs could be viewed only through television sets, but today, through devices such as computers, laptops, and mobiles, viewers can watch their favorite programs at their convenient location, and time. The main objective of this book written on Indian television is to make students aware of the history and status of Indian television. The book begins with the story of the introduction of television in various countries. It describes the development of television in Britain, America, Australia, China, Africa, and other countries of the continent of Asia. After this, the early experiments, projects, and history and current status of television in India are told. Many of the chapters in the book are about the major television business

groups in India that have deep penetration into the Indian television industry. The book also introduces programs that have become famous in India, which have proved to be milestones in Indian television history and reached heights of popularity. Apart from this, the book describes the laws of India which have been implemented to control the television industry. A chapter in the book is written about various television broadcasting techniques practiced in the country. Apart from this, there is a chapter about Direct to Home, which tells the story of the development of DTH in India. Television rating points determine the popularity of television channels and programs. The book introduces various agencies and institutions that determine TRP in India. In addition to this, the history of television journalism in India has also been discussed. A chapter about television journalism in various languages of India such as Hindi, Punjabi, Gujarati, Marathi, Tamil, Telugu, Kannada, Malayalam, Bengali, and Assamese is described in detail. The last chapter of the book discusses various international television channels that are broadcasting in India.

Media Discourse in Contemporary India Sudeshna Devi, 2022-06-24 This book examines the historical trajectory of the growth of the television news and critically analyzes the role of private television news in framing the nature of public discourse in contemporary India. Set in the context of a transformed media landscape, the book attempts to understand and analyze the role of two private national news channels, NDTV 24x7 and Aaj Tak, in producing mediatized narratives that offer a commentary on the various social, political, cultural, religious and economic issues in the public domain. This is achieved by critically examining the process and techniques of production,

representation and consumption of current affairs programs such as studio debates, panel discussions, audience talk shows and documentaries aired on both the channels. Highlighting some of the key trends that impinge on the structure and mode of operation of television news media in contemporary India, the book offers a simultaneous examination of how the production, representation and consumption of the mediatized discourses shape the nature of public discourse and have social-political ramifications for the functioning of Indian democracy. The book will be of interest to researchers in sociology, media and communication studies, popular culture and South Asian Studies.

A Rude Life Vir Sanghvi, 2021-07-26 Vir Sanghvi's has been an interesting life - one that took him to Oxford, movie and political journalism, television and magazines - and he depicts it with the silky polish his readers expect of him. In *A Rude Life*, he turns his dispassionate observer's gaze on himself, and in taut prose tells us about all that he's experienced, and nothing more for he's still a private man. He unhurriedly recounts memories from his childhood and college years, moving on to give us an understanding of how he wrote his biggest stories, while giving us an insider's view into the politics and glamour of that time. This is an explosively entertaining memoir that details one of the most eventful careers in Indian journalism. Studded with a cast of unforgettable characters like Morarji Desai, Giani Zail Singh, Amitabh Bachchan, Dhirubhai Ambani and a host of other prominent political and cultural figures, *A Rude Life* is a delicious read.

Walk the Talk Shekhar Gupta, 2017 In the fourteen years of NDTV's *Walk The Talk* Shekhar Gupta has interviewed more than 600 stellar guests-an outstanding feature for one of Indian TV news channel's most respected shows is the wide diversity of its guests. These range from heads of states to national, regional and international politicians and public figures, from Indian and global film stars to Nobel Laureates, scientists, economists, sports stars (not limited to cricket), spiritual gurus, business tycoons, philanthropists and, of course, activists. This book focuses exclusively on political leaders and public figures. Many of these conversations are path-breaking, and some extremely rare. For example, leaders like Sonia Gandhi and former prime minister P.V. Narasimha

Rao have never before engaged in freewheeling, recorded conversations in such detail. Others have broken new ground since-Narendra Modi, L.K. Advani, Pranab Mukherjee, Mayawati and even M. Karunanidhi. There are also global thought leaders and heads of state: David Cameron, Henry Kissinger, and Pushp Kamal Dahal 'Prachanda', among others. There is also the rarest of rare interviews with the former RSS chief K.S. Sudarshan. It was challenging to choose just twenty-five political personalities and voices to feature in this selection. And one criterion has been to try and pick those conversations that mark political shifts and change. Hopefully, these will help provide an understanding of recent political history, and how we have reached the point we are at today, in the words of these very significant and interesting people.

India On Television Nalin Mehta, 2009-01-27 'Excellent...an incisive and much needed study of how television is changing India.' - Rajdeep Sardesai, Managing Editor, CNN-IBN and IBN-7 More than fifty 24-hour news networks, operating in eleven different languages, emerged in India between 1992 and 2006. This book traces the evolution of satellite

television and how it effected major changes in political culture, the state, and expressions of Indian nationhood. Explaining how television, a medium that developed in the industrial West, was adapted to suit Indian conditions, the book focuses specifically on the emergence of satellite news channels. It shows how live television used new forms of technology to plug into existing nodes of communication, which in turn led to the creation of a new visual language - national, regional and local - that altered politics and forms of identity formation in significant ways. Satellite television came to India as the representative of global capitalism in the early 1990s and crushed the governmental monopoly over broadcasting that had existed since independence. As such, the story of satellite news is also the story of India's encounter with the forces of globalisation. 'Accumulated with an insider's knowledge...a genuine contribution to the literature, bringing together valuable material that deserves a wide audience.' - Prof. Arvind Rajagopal, author of *Politics After Television*.

The Big Bookshelf Sunil Sethi,2011 Famous writers are often reticent about how and why they write, how their ideas and themes develop or how their characters and plots emerge. They can be equally reserved about their personal histories. But in the hands of

seasoned journalist and skilful interviewer Sunil Sethi, presenter of Just Books, NDTV's long-running weekend literary show, they open up in unexpected and fascinating ways. In this selection of thirty of his best interviews from Just Books, they speak freely and frankly about their craft, their life stories and the nature of their creative impulse. Featured here are literary giants, including Nobel laureates and Booker Prize winners; internationally acclaimed historians, biographers and philosophers; authors of best-selling thrillers, novels and travel books; and brilliant young trendsetters. Their conversations with Sethi are, in turn, reflective and incisive, witty and poignant, but always candid and intimate, as they provide rare insights into their inner lives and engagement with the world they inhabit. Each voice in this diverse collection is original, distinctive and revealing, as they cover the wide terrain of life and literature. This volume vividly brings alive each author's personality and work, ingeniously bridging the gap between reader and writer.

The Dark Hour - India Under Lockdowns Amir Peerzada, Anoo Bhuyan, Kalpish Ratna, M.G. Radhakrishnan, Namita Bhandare, Omkar Goswami, Pooja Dhingra, Saba Naqvi, Soutik Biswas, 2021-11-15 At a mere four hours' notice, at 8.00 p.m., on March 24th 2020, the Indian Prime Minister Modi announced a lockdown to contain the spread of virus in order to jumpstart an already-crumbling healthcare system for one of the most devastating pandemics soon to envelop India. People stormed out to panic-buy ration stocks; India's migrant working classes started walking back to the villages, left hungry and desolate without homes, work and wages - a scene not very short of an apocalypse.
