Focus on Urban and Regional Economics Lawrence Yee,2006 If all politics are local, then all economics are regional and local. Globalisation, for all its mystery and so-called inevitability, has its foundations and bloodlines in urban and regional economics. The economic impacts of poverty, housing, transportation, education, and crime are included. This new book includes within its scope: multiplier and impact analysis, input-output models, growth theory, migration, urban and regional labour markets, urban and regional public policy, regional devolution, small firms policy, and foreign direct investment.

Negligence and Compensation Cases Annotated ,1914 Current appellate decisions with supporting pleadings and approved instructions relating to the law of negligence generally, with accompanying editorial comment, cross-references to additional sources, and relevant case annotations.

Local and Regional Development Andy Pike,Andrés Rodríguez-Pose,John Tomaney,2016-07-15 Actors and institutions in localities and regions across the world are seeking prosperity and well-being amidst tumultuous and disruptive shifts and transitions generated by: an increasingly globalised, knowledge-intensive capitalism; global financial instability, volatility and crisis; concerns about economic, social and ecological sustainability, climate change and resource shortages; new multi-actor and multi-level systems of government and governance and a re-ordering of the international political economy; state austerity and retrenchment; and, new and reformed approaches to intervention, policy and institutions for local and regional development. Local and Regional Development provides an accessible, critical and integrated examination of local and regional development theory, institutions and policy in this changing context. Amidst its rising importance, the book addresses the fundamental issues of ‘what kind of local and regional development and for whom?’, its purposes, principles and values, frameworks of understanding, approaches and interventions, and integrated approaches to local and regional development throughout the world. The approach provides a theoretically informed, critical analysis of contemporary local and regional development in an international and multi-disciplinary context, grounded in concrete empirical analysis from experiences in the global North and South. It concludes by identifying what might constitute holistic, inclusive, progressive and sustainable local and regional development, and reflecting upon its limits and political renewal.

Global application of the One Village One Product Movement concept Food and Agriculture Organization of the United Nations,2022-12-13 In the context of FAO's Global Action (GA) on Green Development of Special Agro-Products (SAPs), themed as “One Country – One Priority Product” (OCOP), given that OCOP shares similar philosophy as the One Village One Product (OVOP) movement and taking advantages of the rich experiences of OVOP and advances made by Asian countries, especially Japan International Cooperation Agency (JICA)'s support in many OVOP projects around the world, this publication presents an overview of the OVOP movement globally and showcases how OVOP can boost rural economies and increase food security nutrition through the development of local products hence contributing to SDG 1, 2, and 10. Chapter I explains what OVOP is and how it has been disseminated outside Japan. Chapter II provides overview of JICA's support for OVOP. In Chapter III, JICA’s OVOP projects are analyzed in terms of their objectives, alignment to strategic policy framework, target population, products/services, governance structure and monitoring and evaluation. Chapter IV reviews the process and interventions taken in OVOP projects and identifies good practices.Chapter V lists success factors which are extracted from OVOP projects. FAO’s One Country–One Priority Product (OCOP) projects are encouraged to refer to them in their planning and implementation phases. Lastly, in Chapter VII, several implications and recommendations for OCOP are drawn from OVOP experiences of JICA.

British Ruling Cases from Courts of Great Britain, Canada, Ireland, Australia and Other Divisions of the British Empire, Extensively Annotated ,1919 This series of reports is in a sense a continuation, but with a decided expansion, of the plan of the English ruling cases, as it takes the cases from the British empire, instead of from England only, but it continues the English ruling cases in the sense that it will include the most important cases from the English courts decided since that series terminated.--Pref.

Economic Analysis of Industrial Agglomeration Jian Wang,2017-12-29 This book investigates the industrial agglomeration and dispersion within a country under trade liberalization and interregional integration by considering both economic forces and geographical elements. Chapter 1 gives a brief introduction about the background, research topics and organizations in this book. Chapter 2 provides a detailed explanation of Krugman’s new economic geography (NEG) model and reviews the subsequent refinements of the original model from mainly geographical viewpoints. Chapter 3 extends Krugman’s original model to a two-country and three-region case where the domestic regions are fully asymmetrical in terms of their sizes and accessibilities to global markets. To better explain the reality of developing countries, chapter 4 presents an analytical model which assumes that unskilled workers are employed in both traditional and manufacturing sectors. Chapter 5 empirically investigates the

home market effect (HME) in terms of wages in the case of China by using panel data for the period 1980–2012. Chapter 6 gives a summary and implication about the findings and conclusions in this book.
