How to Boost Your Credit Score Range and Make Money With Credit Cards. Ernesto Martinez,2019-06-19 Having a low credit score can be very expensive and cause you to miss out on opportunities. In my case, I was trying to refinance my \$300,000 mortgage. My credit score was 620 because I had some negative items on my credit that I wasn't aware of, and extra debt on my credit cards that I could not afford to pay off. I was quoted an interest rate of 6.25% because of my low credit score. Instead of taking the loan, I repaired my credit by removing the incorrect items and paid down some of the debt on my credit cards. I waited a month, and my credit score jumped to 725. I reapplied for the loan and got a quote of 4.5%. If you have one mortgage, buy 3 cars over the 30 year period, and carry \$10,000 credit card debt over the 30 year period, you will spend an extra \$238,500 on additional interest, or another way to look at it, you will throw away \$238,500 to have the same things had you not maintained a healthy credit history and score.If you need to increase your credit score to move into a new apartment, house, buy a car, or get loans for business.
