New Mexico 2050 Fred Harris,2015-08-01 Here some of the state's most noted and qualified policy experts answer two vital questions: New Mexico 2050—What can we be? What will we be? They have produced in this volume, edited by former US Senator Fred Harris, a dynamic blueprint for New Mexico's future—a manual for leaders and public officials, a text for students, a sourcebook for teachers and researchers, and a guide for citizens who want the Land of Enchantment to also become the Land of Opportunity for all. Contributors include economists Lee Reynis and Jim Peach, education policy expert Veronica García, health and health care specialist Nandini Pillai Kuehn, political scientists Gabriel Sánchez and Shannon Sánchez-Youngblood, Native American scholar Veronica Tiller, icon of New Mexico cultural affairs and the arts V. B. Price, authorities on water and the environment Laura Paskus and Adrian Oglesby, planning specialist Aaron Sussman, and inaugural Albuquerque poet laureate Hakim Bellamy. Digital versions of individual chapters allow interested readers to explore the key issues impacting the state of New Mexico.

Building a Healthy Economy from the Bottom Up Anthony Flaccavento,2016-06-10
The global economy has witnessed important changes in recent years. In the United States, enterprising communities have transitioned from tobacco farming to growing organic produce, from extractive fishing to vertical

farming, from nonrenewable energy consumption to the implementation of solar cooperatives—and have transformed from impoverished neighborhoods into green development zones. Yet these promising achievements remain a small part of the total economy and are largely ignored by policy makers, pundits, and economists. In *Building a Healthy Economy from the Bottom Up: Harnessing Real World Experience for Transformative Change*, Anthony Flaccavento introduces readers to the innovators who are creating thriving, locally based economies and provides a road map for others who are interested in doing the same. He demonstrates that, despite the success of local initiatives like farmers' markets and clean energy cooperatives, true and lasting change of this type stalls without the appropriate discussion and implementation of public policies that define their lasting impact. He shows how active citizens can spur essential changes, generate community capital, increase civic dialogue, and foster sustainability efforts. Flaccavento skillfully combines economic analysis and public policy recommendations with practical solutions. His call to collective action will appeal to scholars, entrepreneurs, policymakers, community activists, environmentalists, and all citizens passionate about the health of their communities.
