

New York Map

Carol Von Pressentin Wright

Mapping Manhattan Becky Cooper, 2013-04-02 Armed with hundreds of blank maps she had painstakingly printed by hand, Becky Cooper walked Manhattan from end to end. Along her journey she met police officers, homeless people, fashion models, and senior citizens who had lived in Manhattan all their lives. She asked the strangers to “map their Manhattan” and to mail the personalized maps back to her. Soon, her P.O. box was filled with a cartography of intimate narratives: past loves, lost homes, childhood memories, comical moments, and surprising confessions. A beautifully illustrated, PostSecret-style tribute to New York, Mapping Manhattan includes 75 maps from both anonymous mapmakers and notable New Yorkers, including Man on Wire aerialist Philippe Petit, New York Times wine critic Eric Asimov, Tony award-winning actor Harvey Fierstein, and many more. Praise for Mapping Manhattan: “What an intriguing project.”—The New York Times “A tender cartographic love letter to this timeless city of multiple dimensions, parallel realities, and perpendicular views.” —Brain Pickings “Cooper’s beautiful project linking the lives of New Yorkers is one that will continue to grow.” —Publishers Weekly online

The Great New York Subway Map Emiliano Ponzi, 2018-02-27 Both a love letter to New York City and an introduction to graphic design, this is the story of how the designer Massimo Vignelli tackled the problem of creating a subway map that could be understood by all New Yorkers as well as out-of-towners. Filled with depictions of trains, subway stations, and the New York City skyline, the book follows Vignelli around the city as he tries to understand the system in order to translate it into a map. The book is produced in collaboration with the New York Transit Museum and features a section of historical and archival

images and photographs. A groundbreaking work of information design, the subway map designed by Vignelli is an iconic work used by over a billion people every year. The Museum of Modern Art acquired the original 1972 diagram in 2004.

You Are Here: NYC Katharine Harmon, 2016-11-01
Maps are magical. Every graphic, like every story, has a point of view, and New York is rife with mapmaking possibilities, thick with mythology, and glutted with history. *You Are Here: NYC* assembles some two hundred maps charting every inch and facet of the five boroughs, depicting New Yorks of past and present, and a city that never was. A *Nightclub Map of Harlem* traces a boozy night from the Radium and the Cotton Club to the Savoy and then the Lafayette; *Wonders of New York* pinpoints three hundred sites of interest, including the alleged location of Captain Kidd's buried treasure; the *Ghostbusters* subway map plots the route from Astral Projections Place to Stay Puft Street; and a rejected proposal of ornate topiaries illustrates a Central Park that might have been. This sequel to the best-selling *You Are Here* includes original essays by Bob Mankoff, Maria Popova, Sarah Boxer, and Rebecca Cooper, among others.

Mannahatta Eric W. Sanderson,2013-11-27 What did New York look like four centuries ago? An extraordinary reconstruction of a wild island from the forests of Times Square to the wetlands downtown. Named a Best Book of the Year by Library Journal, New York Magazine, and San Francisco Chronicle On September 12, 1609, Henry Hudson first set foot on the land that would become Manhattan. Today, it's difficult to imagine what he saw, but for more than a decade, landscape ecologist Eric Sanderson has been working to do just that. Mannahatta: A Natural History of New York City is the astounding result of those efforts, reconstructing in words and images the wild island that millions now call home. By geographically matching an eighteenth-century map with one of the modern city, examining volumes of historic documents, and collecting and analyzing scientific data, Sanderson re-creates topography, flora, and fauna from a time when actual wolves prowled far beyond Wall Street and the degree of

biological diversity rivaled that of our most famous national parks. His lively text guides you through this abundant landscape—while breathtaking illustrations transport you back in time. Mannahatta is a groundbreaking work that provides not only a window into the past, but also inspiration for the future. “[A] wise and beautiful book, sure to enthrall anyone interested in NYC history.” —Publishers Weekly (starred review) “A cartographical detective tale . . . The fact-intense charts, maps and tables offered in abundance here are fascinating.” —The New York Times “[An] exuberantly written and beautifully illustrated exploration of pre-European Gotham.” —San Francisco Chronicle “You don’t have to be a New Yorker to be enthralled.” —Library Journal

The Angel of Darkness Caleb Carr, 2017-08-24 The sequel to the internationally bestselling historical thriller THE ALIENIST, now a major Netflix series, starring Luke Evans, Dakota Fanning and Daniel Brühl. A year after the

events that took place in the bestselling *THE ALIENIST*, the cast of characters are again brought together to investigate a crime committed in the heady days of New York in the 1890s, this time narrated by the orphan Stevie Taggart. A young child, the daughter of Spanish diplomats, disappears. It seems she has been abducted but no ransom note is received and the detectives Isaacson quickly discover that a nurse, Elspeth Hunter, is probably the kidnapper. They also discover that Hunter has been a little too closely connected with the death of three other infants. But what are her motives? She married a fortune, and although she is connected to some fairly rough villains this crime does not fit their *modus operandi*. Is it something as 'simple' as psychological disturbance due to her own inability to bear children, or something more sinister unguessed at?

The New Map Daniel Yergin, 2020-09-15 A Wall Street Journal bestseller and a USA Today Best Book of 2020 Named Energy Writer of the Year for *The New Map* by the American Energy Society “A master class on how the world works.” —NPR Pulitzer Prize-winning author and global energy expert, Daniel Yergin offers a revelatory new account of how energy revolutions, climate battles, and geopolitics are mapping our future The world is being shaken by the collision of energy, climate change, and the clashing power of nations in a time of global crisis. Out of this tumult is emerging a new map of energy and geopolitics. The “shale revolution” in oil and gas has transformed the American economy, ending the “era of shortage” but introducing a turbulent new era. Almost overnight, the United States has become the world's number one energy powerhouse. Yet concern about energy's role in climate change is challenging the global economy and way of life, accelerating a second energy revolution in the search for a low-carbon future. All of this

has been made starker and more urgent by the coronavirus pandemic and the economic dark age that it has wrought. World politics is being upended, as a new cold war develops between the United States and China, and the rivalry grows more dangerous with Russia, which is pivoting east toward Beijing. Vladimir Putin and China's Xi Jinping are converging both on energy and on challenging American leadership, as China projects its power and influence in all directions. The South China Sea, claimed by China and the world's most critical trade route, could become the arena where the United States and China directly collide. The map of the Middle East, which was laid down after World War I, is being challenged by jihadists, revolutionary Iran, ethnic and religious clashes, and restive populations. But the region has also been shocked by the two recent oil price collapses--and by the very question of oil's future in the rest of this century. A master storyteller and global energy expert, Daniel Yergin takes the reader on an utterly riveting and timely journey across the world's new map. He illuminates the great energy and geopolitical questions in an era of rising political turbulence and points to the profound challenges that lie ahead.
