Walden on Wheels Ken Ilgunas, 2013 Inspired by Thoreau, Ilgunas set out on a Spartan path to pay off \$32,000 in undergraduate student loans by scrubbing toilets and making beds in Coldfoot, Alaska. Determined to graduate debt-free after enrolling in graduate school, he lived in an Econoline van in a campus parking lot, saving—and learning—much about the cost of education today.

Watching the Wheels Damon Hill, 2016-08-30 The full and frank autobiography of F1 legend Damon Hill 2016 marks the twentieth anniversary of Damon Hill's coronation as Formula One World Champion. For the first time ever he tells the story of his journey through the last golden era of the sport when he took on the greats including Ayrton Senna and Michael Schumacher and emerged victorious as World Champion in 1996, stepping out of the shadow of his legendary father Graham Hill. Away from the grid, *Watching the Wheels: The Autobiography* is an astonishingly candid account of what it was like to grow up as the son of one of the country's most famous racing drivers. It also tells the unflinching story of dealing with the grief and chaos that followed his father's tragically early death in an aircraft accident in 1975, when

Damon was 15 years old. Formula One drivers have always been aware of their mortality, and the rush that comes with the danger of racing was as intoxicating for Hill as it had been for his father's generation, until he came face-to-face with catastrophe when his team-mate, Ayrton Senna, was killed in 1994. The swirling emotions that Hill was faced with in light of the death of Senna was a defining moment for his generation of drivers and for the first time ever Hill talks candidly about the impact that Senna had on his life, even as he watched his own son step into motor racing.

Wheels Arthur Hailey, 2014-05-13 Master storyteller Arthur Hailey's #1 New York Times bestseller is a turbocharged thriller about America's automobile industry, from the bottom up Ford. Chrysler. General Motors. They were the Big Three, accused by critics of greed, monopoly, and abusing the public trust. In the shadows of these towering giants is American Motors, blazing its own path to greatness. Adam Trenton, the fiercely ambitious executive in charge of project development, wants to take the company into the future with the new, cutting-edge car he's developing, but his single-minded dedication has his neglected wife seeking dangerous thrills, making Adam vulnerable to a growing web of deceit, blackmail, and organized crime. From Detroit's inner city to its affluent suburbs, from the executive suites and secret design studios to the assembly line jungle and the maximum security testing grounds, *Wheels* is a breakneck ride full of human drama through one of America's most complex and competitive industries.

Library on Wheels Sharlee Glenn, 2018-04-10 If you can't bring the man to the books, bring the books to the man. Mary Lemist Titcomb (1852–1932) was always looking for ways to improve her library. As librarian at the Washington County Free Library in Maryland, Titcomb was concerned that the library was not reaching all the people it could. She was determined that everyone should have access to the library—not just adults and those who lived in town. Realizing its limitations and inability to reach the county's 25,000 rural residents, including farmers and their families, Titcomb set about to change the library system forever with the introduction of book-deposit stations throughout the country, a children's room in the library, and her most revolutionary idea of all—a horse-drawn Book Wagon. Soon book wagons were appearing in other parts of the country, and by 1922, the book wagon idea had received widespread support. The bookmobile was born!

Sweatshops on Wheels Michael H. Belzer, 2000 Long hours, low wages, and unsafe workplaces characterized sweatshops a hundred years ago. These same conditions plague American trucking today. *Sweatshops on Wheels: Winners and Losers in Trucking Deregulation* exposes the dark side of government deregulation in America's interstate trucking industry. In the years since deregulation in 1980, median earnings have dropped 30% and most long-haul truckers earn less than half of pre-regulation wages. Work weeks average more than sixty hours. Today, America's long-haul truckers are working harder and earning less than at any time during the last four decades. Written by a

former long-haul trucker who now teaches industrial relations at Wayne State University, *Sweatshops on Wheels* raises crucial questions about the legacy of trucking deregulation in America and casts provocative new light on the issue of government deregulation in general.

American Wheels, Chinese Roads Michael J. Dunne, 2011-07-20 How could one company—General Motors—meet disaster on one continent and achieve explosive growth on another at the very same time? While General Motors was hurtling towards bankruptcy in 2009, GM's subsidiary in China was setting new sales and profit records. This book reveals how extraordinary people, remarkable decisions and surprising breaks made triumph in China possible for General Motors. It also shows just how vulnerable that winning track record remains. No small part of GM's success in China springs from its management of shifting business and political relationships. In China, the government makes the rules for—and competes in—the auto industry. GM's business partner, the City of Shanghai, is both an ally and a competitor. How does such an unnatural relationship work on a day-to-day basis? Where will it go on the future? General Motors also engages in constant battles with other global and Chinese car makers for the hearts of demanding Chinese consumers. Dunne gives us rare glimpses into the mindsets and behavior of this new moneyed set, the world's newest class of wealthy consumers. China is already the number one car market in the world. During the next ten years, China will export millions of cars and trucks globally, including to the United States. *American Wheels*,

Chinese Roads presents readers with fascinating illustrations of what to expect when Chinese cars, companies, and business people arrive on our shores.

Wheels for the World Douglas Brinkley, 2009-05 The saga of how Henry Ford and Ford Motor Co. changed our world. Reveals the details of Ford's achievements, from the success of the Tin Lizzie to the Model A and V-8, through the Thunderbird, Mustang, and Taurus. Innovators include: Thomas Edison, Alfred Sloan, the Wright Bros., Diego Rivera, and Charles Lindbergh. Discusses 3 factories: Highland Park, River Rouge, and Willow Run, where B-24 airplanes were mass-produced during WW2. Tells of Ford's expansion throughout the world, as well as the acquisitions of Volvo, Land Rover, Jaguar, and Mazda. Explores Ford's darker aspects, incl. its founder's anti-Semitism and wartime pacifism. Introduces us to: James Couzens, Lee Iacocca and William Clay Ford Jr. Photos.

Venus on Wheels Gelya Frank, 2000-05-30 In 1976 Gelya Frank began writing about the life of Diane DeVries, a woman born with all the physical and mental equipment she would need to live in our society--except arms and legs. Frank was 28 years old, DeVries 26. This remarkable book--by turns moving, funny, and revelatory--records the relationship that developed between the women over the next twenty years. An empathic listener and participant in DeVries's life, and a scholar of the feminist and disability rights movements, Frank argues that Diane DeVries is a perfect example of an

American woman coming of age in the second half of the twentieth century. By addressing the dynamics of power in ethnographic representation, Frank--anthropology's leading expert on life history and life story methods--lays the critical groundwork for a new genre, cultural biography. Challenged to examine the cultural sources of her initial image of DeVries as limited and flawed, Frank discovers that DeVries is gutsy, buoyant, sexy--and definitely not a victim. While she analyzes the portrayal of women with disabilities in popular culture--from limbless circus performers to suicidal heroines on the TV news--Frank's encounters with DeVries lead her to come to terms with her own invisible disabilities motivating the study. Drawing on anthropology, philosophy, psychoanalysis, narrative theory, law, and the history of medicine, *Venus on Wheels* is an intellectual tour de force.
