Jeremy H. Lipschultz, Michael L. Hilt

A Place in the News Kay Mills, 1988 A feature writer on the Los Angeles Times, Mills here presents a stimulating history of women's gradual advances in the print medium. Studious research combined with interviews of male and female reporters, editors and publishers, strengthen this account of female journalists from colonial times onward. Except for daring Elizabeth Cochrane (Nelly Bly) and a few others known as stunt girls, who pursued important news in the late 1800s and early 1900s, women of the press made no headway against prejudicial male attitudes. As Mills shows, it took a militant and influential first lady, Eleanor Roosevelt, to promote the cause of women reporters, but their status declined again after the 1930s. Despite anti-discrimination suits, settled in favor of the complainants, progress is still slow, according to the author. But, she adds, some journalists refuse offers to move up, for fear of losing touch with their domestic lives. -- From publisher's weekly.

News for the Rich, White, and Blue Nikki Usher, 2021-07-06 As cash-strapped metropolitan newspapers struggle to maintain their traditional influence and quality reporting, large national and international outlets have pivoted to serving readers who can and will choose to pay for news, skewing coverage toward a wealthy, white, and liberal audience. Amid rampant inequality and distrust, media outlets have become more out of touch with the democracy they purport to serve. How did journalism end up in such a predicament, and what

are the prospects for achieving a more equitable future? In *News for the Rich, White, and Blue*, Nikki Usher recasts the challenges facing journalism in terms of place, power, and inequality. Drawing on more than a decade of field research, she illuminates how journalists decide what becomes news and how news organizations strategize about the future. Usher shows how newsrooms remain places of power, largely white institutions growing more elite as journalists confront a shrinking job market. She details how Google, Facebook, and the digital-advertising ecosystem have wreaked havoc on the economic model for quality journalism, leaving local news to suffer. Usher also highlights how the handful of likely survivors—well-funded media outlets such as the *New York Times*—increasingly appeal to a global, “placeless” reader. *News for the Rich, White, and Blue* concludes with a series of provocative recommendations to reimagine journalism to ensure its resiliency and its ability to speak to a diverse set of issues and readers.

The Place to Be Roger Mudd, 2009-03-24 Roger Mudd joined CBS in 1961, and as the congressional correspondent, became a star covering the historic Senate filibuster debate over the 1964 Civil Right Act. Mudd was one of half a dozen major figures in the stable of CBS News broadcasters at time when the network's standing as a provider of news was at its peak. In *The Place to Be*, Mudd tells of how the bureau worked: the rivalries, the egos, the pride, the competition, the ambitions and the gathering frustrations of conveying the

world to a national television audience in thirty minutes minus commercials. It is the story of a unique TV news bureau, unmatched in its quality, dedication, and professionalism, that will highlight what TV journalism was once like and what it's missing today.

Geography, The Media and Popular Culture Jacquelin Burgess, John R Gold, 2015-12-22 In this book, originally published in 1985, British and North American geographers present original and challenging viewpoints on the media. The essays deal with a diverse content, ranging from the presentation of news to the nature of television programming and from rock music lyrics to film visions of the city.

Geographies of Journalism Robert E. Gutsche Jr.,Kristy Hess,2018-10-09

Geographies of Journalism connects theoretical and practical discussions of the role of geotechnologies, social media, and boots-on-the-ground journalism in a digital age to underline the complications and challenges that place-making in the press brings to institutions and ideologies. By introducing and applying approaches to geography, cultural resistance, and power as it relates to discussions of space and place, this book takes a critical look at how online news media shapes perceptions of locales. Through verisimilitude, storytelling methods, and journalistic evidence shaped by sources and news processes, the press play a critical role in how audiences shape interpretations of social conditions here and there, and place responsibility for socio-political issues that appear in everyday life. Issues of proximity, place, territory, news myth, placemaking, and power align in this book of innovative and new assessments of journalism in the digital age. This is a valuable resource for scholars across the fields of human geography, journalism, and mass media.

Crime and Local Television News Jeremy H. Lipschultz,Michael L.

Hilt,2014-04-04 This volume offers an analysis of crime coverage on local television, exploring the nature of local television news and the ongoing appeal of crime stories. Drawing on the perspectives of media studies, psychology, sociology, and criminology, authors Jeremy H. Lipschultz and

Michael L. Hilt focus on live local television coverage of crime and examine its irresistibility to viewers and its impact on society's perceptions of itself. They place local television news in its theoretical and historical contexts, and consider it through the lens of legal, ethical, racial, aging, and technological concerns. In its comprehensive examination of how local television newsrooms around the country address coverage of crime, this compelling work discusses such controversial issues as the use of crime coverage to build ratings, and considers new models for reform of local TV newscasts. The volume includes national survey data from news managers and content analyses from late night newscasts in a range of markets, and integrates the theory and practice of local television news into the discussion. Lipschultz and Hilt also project the future of local television news and predict the impact of social and technological changes on news. As a provocative look at the factors and forces shaping local news and crime coverage, *Crime and Local Television News* makes an important contribution to the discussions taking place in broadcast journalism, mass communication, media and society, and theory and research courses. It will also interest all who consider the impact of local news content and coverage.

Making the News Amber E. Boydston, 2013-08-26 Media attention can play a profound role in whether or not officials act on a policy issue, but how policy issues make the news in the first place has remained a puzzle. Why do some issues go viral and then just as quickly fall off the radar? How is it

that the media can sustain public interest for months in a complex story like negotiations over Obamacare while ignoring other important issues in favor of stories on “balloon boy?” With *Making the News*, Amber Boydstun offers an eye-opening look at the explosive patterns of media attention that determine which issues are brought before the public. At the heart of her argument is the observation that the media have two modes: an “alarm mode” for breaking stories and a “patrol mode” for covering them in greater depth. While institutional incentives often initiate alarm mode around a story, they also propel news outlets into the watchdog-like patrol mode around its policy implications until the next big news item breaks. What results from this pattern of fixation followed by rapid change is skewed coverage of policy issues, with a few receiving the majority of media attention while others receive none at all. Boydstun documents this systemic explosiveness and skew through analysis of media coverage across policy issues, including in-depth looks at the waxing and waning of coverage around two issues: capital punishment and the “war on terror.” *Making the News* shows how the seemingly unpredictable day-to-day decisions of the newsroom produce distinct patterns of operation with implications—good and bad—for national politics.

The Troubles of Journalism William A. Hachten,2005-01-15 This book looks at

criticisms of the journalism profession and evaluates many of the changes in journalism--both positive and negative. In addition, it suggests what the many changes mean for this nation and indeed for the world at large, as American journalism--its methods and standards--has markedly influenced the way many millions overseas receive news and view their world. Based on author William Hachten's 50-year involvement with newspapers and journalism education, *The Troubles of Journalism* serves as a realistic examination of the profession, and is appropriate for upper-level undergraduate courses in journalism and media criticism. Since the previous edition of *The Troubles of Journalism*, many significant challenges have occurred in the media: the events of September 11, the war on terrorism, mergers and consolidation of media ownership, new concerns about press credibility, the expanding and controversial role of cable news channels, the growing impact role of news and comment on the Internet, and continuing globalization and controversy over the role of American media in international communications. To do justice to these recent troubles of the news media, important additions and modifications have been made in every chapter of this Third Edition.
