Beyond News Sanjeev Shekhar, Shakti Vrat, 2015-08-19 The story circumscribe mainly around three characters, who are friends in the profession & personal life. They struggle hard to carve a niche for themselves in the society. The book talks about what journalists undergo in any organization and how the one time noble job of journalism, synonymous with the word mission in India, has now been converted into meagre job. To reach the top editorial post, a journalist needs to sit on the lap of management, write or present things as per their wish. Its knowledge sharing experiences that is filled with humour, thrill, miseries and rejoice. The book is a story of three friends reflecting the state of journalism in the Indian society. How the media houses plays havoc with lives of journalists have been marvelously brought out in the Indian context. Trend suggest in this country how politicians used criminals to win elections. Later, the criminals instead of working for anyone started contesting elections on their own, thus the advent of criminalization in Indian politics took place. Similarly, big media houses used journalists for their liaison activities to serve their business interest and at the later stage, the same lot of journalists started serving their vested interest by grabbing top posts in the corridors of power...

Stop Reading the News Rolf Dobelli, 2021-01-07 News is to the mind what sugar is to the body. In 2013 Rolf Dobelli stood in front of a roomful of journalists and proclaimed that he did not read the news. It caused a riot. Now he finally sets down his philosophy in detail. And he practises what he preaches: he hasn't read the news for a decade. Stop Reading the News is Dobelli's manifesto about the dangers of the most toxic form of information - news. He shows the damage it does to our concentration and well-being, and how a misplaced sense of duty can misdirect our behaviour. From the author of the bestselling *The Art of Thinking Clearly*, Rolf Dobelli's book offers the reader guidance about how to live without news, and the many potential gains to be had: less disruption, more time, less anxiety, more insights. In a world of increasing disruption and division, Stop Reading the News is a welcome voice of calm and wisdom.

Reading the News Robert Karl Manoff, Michael Schudson, 1986 We take our news for granted: that it will inform us about the significant people and cite the authoritative ones, reflect the world the way it is, and tell us why something happens as it does. Now, six working journalists, press critics, and scholars at the leading edge of media criticism have been specially commissioned to make the familiar act of reading the news into a fresh and revealing event. Taking the famous five W's and an H (Who, What, When, Where, Why, and How), the authors turn these questions back on journalism for the first time to show us exactly what to make of the press. Leon V. Sigal Who? Sources Make the News Carlin Romano What? Grisly Truth about Bare Facts Michael Schudson When? Deadlines, Datelines, and History Where? Cartography, Community, and the Cold War James W. Carey Why And How? The Dark Continent of American Journalism Robert Karl Manoff Writing the News (By Telling the Story) For everyone who reads the newspaper, for the journalist, and for the media critic alike, these essays offer fresh, provocative insights into a centerpiece of American culture, the news.

The NeWS Book James Gosling, David S.H. Rosenthal, Michelle J. Arden, 2012-12-06 This book is an introduction to NeWS: the Networked, Extensible, Window System from Sun Microsystems. It is oriented towards people who have a basic knowledge of programming and window systems who would like to understand more about window systems in general and NeWS in particular. A significant portion of the book is devoted to an overview and history of window systems. While there is enough detail here to allow readers to write simple NeWS applications, the NeWS Reference Manual [SUN87a] should be consulted for a more complete treatment. This book was written to refer to the NeWS 1. 1 product, available from Sun and also available from several non-Sun suppliers. Shortly after this book is published, Sun will be releasing the next version of NeW- the X11/NeWS merged window system. Chapter 10 is dedicated to an overview of that product, but X11/NeWS deserves a book of its own. All the code examples in this book have been tested on both NeWS and the X11/NeWS merge. Should there be another edition of this book, we will discuss some of the new development being done in the user interface tool kit area on NeWS. Significantly, the NeWS Development Environment (NDE) is now being developed at Sun; NDE promises to eclipse existing user interface toolkit designs and window programming environments.

White News Don Heider, 2014-04-08 Is TV news racist? If the purpose of local news is to cover individual communities and to present issues of interest and concern to local audiences, why are local newscasts so similar in markets around the country? These are the questions that motivated Heider's research, leading to the development of this book. Recognizing that local news is the outlet through which most people get their news, Heider ventured into the local television newsrooms in two moderate-size, culturally diverse U.S. markets to observe the news process. In this report, he uses his insider's perspective to examine why local television news coverage of people of color does not occur in more meaningful ways. Heider examines the perceptions of racism and ethnicity, and addresses such dichotomies as white news (content determined by white managers) being delivered by non-white news anchors, thus giving the appearance of non-white news. He also considers how coverage of minorities influences viewers' perceptions of their minority neighbors. Heider then sets forth a new theoretical concept--incognizant racism--as a way of explaining how news workers consistently ignore news in significant portions of the communities they cover. This contribution to the minorities and media discussion provides important insights into the newsroom decision-making process and the sociology and structure of newsrooms. It is required reading for all who are involved in news reporting, mass communication, media and minority studies, and cultural issues in today's society.

The Columbia Journalist, 1923

More After the Break Jen Maxfield, 2022-07-12 A reporter uncovers the rest of the story In *More After the Break*, Jen Maxfield revisits ten memorable stories from her career as a TV news reporter, describing in heart-pounding detail how the events unfolded and revealing what happened after the cameras went away. She introduces readers to unforgettable people who will inspire you with their hopefulness, even when confronting life's greatest heartbreaks: a young man who lost both legs in a ferry crash, an endurance athlete with stage-four lung cancer, a fifth grader on a doomed field trip, an Ivy League undergrad sentenced to decades in prison, a young woman who gave her life for an animal, a Wall Street executive on an ill-fated bike ride, a preschooler whose health hinged on an immigration battle, a family who lost everything in a hurricane, a mother who fought back against domestic violence, and a man who stood up for his rights while seated in his wheelchair. Returning to find these people years—even decades—after she featured their stories on the news gives Maxfield an opportunity to ask the burning questions she had always pondered: What happened after the live truck pulled away? What is the rest of the story?

Audience Feedback in the News Media Bill Reader, 2015-02-11 As long as there has been news media, there has been audience feedback. This book provides the first definitive history of the evolution of audience feedback, from the early newsbooks of the 16th century to the rough-and-tumble online forums of the modern age. In addition to tracing the historical development of audience feedback, the book considers how news media has changed its approach to accommodating audience participation, and explores how audience feedback can serve the needs of both individuals and collectives in democratic society. Reader writes from a position of authority, having worked as a letters to the editor editor and has written numerous research articles and professional essays on the topic over the past 15 years.

Invention of Journalism Ethics Stephen J.A. Ward, 2005-02-08 Does objectivity in the news media exist? In *The Invention of Journalism Ethics* Stephen Ward argues that, given the current emphasis on interpretation, analysis, and perspective, journalists and the public need a new theory of objectivity. He explores the varied ethical assertions of journalists over the past few centuries, focusing on the changing relationship between journalist

and audience. This historical analysis leads to an innovative theory of pragmatic objectivity that enables journalists and the public to recognize and avoid biased and unbalanced reporting. Ward convincingly demonstrates that journalistic objectivity is not a set of absolute standards but the same fallible but reasonable objectivity used for making decisions in other professions and public institutions.

Uncovering Bias in the News Duchess Harris,Laura K. Murray,2018-09 [This title] looks at the ways in which multiple media outlets can cover the same story in vastly different ways, the reasons for these differences, and how to recognize bias in a news report--Amazon.com.

Where We Come from Oscar Cásares,2019 From the acclaimed author *Brownsville* and *Amigoland*--a stunning and timely new novel about a Mexican-American family in a Texas border town who reluctantly become involved in smuggling immigrants into the United States. Brownsville, Texas, has a dangerous reputation: it sits on the U.S. side of the bridge into Matamoros, Mexico, a city controlled by notorious cartels. But that isn't why 12-year-old Orly doesn't want to visit. Though he's still grieving the death of his mother, his father, Victor, is making him spend the summer in Brownsville with his godmother, Nina. Now a successful ad executive in Houston, Victor was raised in Brownsville and thinks it will do Orly good to know about his less-privileged roots. But Nina, distracted by having to care for her elderly mother, seems only to have rules for Orly. In particular: Don't go near the back house. . . Nina has spent her own life following rules and sacrificing her own desires for others' needs. But when a single act of kindness toward her desperate Mexican cleaning lady begins to spiral out of control, Nina risks exposure from all sides--not only from her curious godson and her controlling brother, but from ruthless human traffickers and the police. Now, Nina will have to face the secrets she's long kept if she has any hope of helping the people suddenly under her care. Tackling the crisis of U.S. immigration policy from an unusual, deeply humane angle, *Where We Come From* explores the ways that family history shapes us, how secrets can burden us, and how finding compassion and understanding for others can ultimately set us free--

Dutch Edmund Morris,2011-10-19 This book, the only biography ever authorized by a sitting President--yet written with complete interpretive freedom--is as revolutionary in method as it is formidable in scholarship. When Ronald Reagan moved into the White House in 1981, one of his first literary guests was Edmund Morris, the Pulitzer Prize-winning biographer of Theodore Roosevelt. Morris developed a fascination for the genial yet inscrutable President and, after Reagan's landslide reelection in 1984, put aside the second volume of his life of Roosevelt to become an observing eye and ear at the White House. During thirteen years of obsessive archival research and interviews with Reagan and his family, friends, admirers and enemies (the book's enormous dramatis personae includes such varied characters as Mikhail Gorbachev, Michelangelo Antonioni, Elie Wiesel, Mario Savio, François Mitterrand, Grant Wood, and Zippy the Pinhead), Morris lived what amounted to a doppelgänger life, studying the young Dutch, the middle-aged Ronnie, and the septuagenarian Chief Executive with a closeness and dispassion, not to mention alternations of amusement, horror, and amazed respect, unmatched by any other presidential biographer. This almost Boswellian closeness led to a unique literary method whereby, in the earlier chapters of *Dutch: A Memoir of Ronald Reagan*, Morris's biographical mind becomes in effect another character in the narrative, recording long-ago events with the same eyewitness vividness (and absolute documentary fidelity) with which the author later describes the great dramas of Reagan's presidency, and the tragedy of a noble life now darkened by dementia. I quite understand, the author has remarked, that readers will have to adjust, at first, to what amounts to a new biographical style. But the revelations of this style, which derive directly from Ronald Reagan's own way of looking at his life, are I think rewarding enough to convince them that one of the most interesting characters in recent American history looms here like a colossus.
