Rising in the East Rachel Keeton,2011 In the west, the design of new towns has always been based on an ideal model in accordance with the ideas of that moment. In the case of the latest generation of new towns in Asia, however, only quantitative and marketing principles seem to play a role: the number of square metres, dwellings or people, or the greenest, most beautiful or most technologically advanced town. Rising in the east shows which design principles these premises are based on.

This book attempts to draw lessons from different issues and sectors such as policy perspectives (both national and local), the role of international NGOs, fishing industries and other livelihoods, temporary housing, health, heritage, and lesson sharing. The book outlines the need and approach for sharing the lessons with wider communities in developing those lessons. *Inside the Mind of Toyota* Satoshi Hino,2005-11-28 Winner of a Shingo Research and Professional Publication Award Toyota's sustained growth attracts the attention of economists and industrialists around the world eager to learn the secrets of Toyota's lastingsuccess. In *Inside the Mind of Toyota: Management Principles for*

Enduring Growth, Satoshi Hino examines the source of Toyota's strength: the fundamental thinking and management structures that lie beneath the creation of its famed Toyota Production System. From the perspective of a professional with 30 years experience in the auto industry, Hino presents a fresh and detailed analysis of Toyota's essential management system, from its very beginnings into the 21st century. The ultimate goal is not simply to mimic Toyota's formula, but to learn from it and, in doing so, surpass it. From the Translator's Foreword: Unlike most Toyota watchers, Hino urges us to set our sights not on replicating Toyota's success, but on surpassing it. This point is crucial, because it moves our attention away from slavish imitation of what is visible on the surface and challenges us to tap into deeper and more powerful mechanisms of excellence. This is not a cookbook and it is not 'Toyota Lite.' It deserves serious study, application and experimentation. Learn how Toyota thinks, Hino is telling us. Learn Toyota's strengths, make them your own and then exceed them. –Andrew Dillon, September

*Strange Country* Mark Dapin, 2008-11-01 This book is about the people I met as I crisscrossed Australia by train and plane and L-plated car: the undefeated dreamers and wild-hearted romantics, the obsessed hobbyists and beautiful failures. It is about heroes and legends, illusions, delusions and hope, and one or two men with shit for brains who ought to be locked up. As anyone who's ever read Mark Dapin's column and features in Good Weekend knows, he's an immensely funny, acute and vivid observer of Australian life. In *Strange Country*, he takes us on a journey through a very different Australia - a country that's eccentric, puzzling, big-hearted, small-minded, nostalgic and sometimes just plain mad. From the last travelling boxing tent to feral urban sewer rats to Vietnam Veteran bikies and the annual Parkes Elvis Festival, his writing illuminates the stranger side of Australian life in a travel book like no other.

China's Maritime Disputes in the East and South China Seas U.S.-China Economic and Security Review Commission, 2014-04-18 Today's hearing will cover China's maritime disputes in the East and South China Seas. We'll examine the security, political, legal, and economic drivers of these disputes in our three panels today. The first panel will begin by discussing the broad security situation on the high seas. As China's maritime forces have become more capable over the past decade, Beijing has become more confident in its ability to assert its claims in the disputed areas. Beyond China's hard security concerns, however, other domestic, political, and legal elements shape China's policy in the East and South China Seas. Our second panel will consider popular nationalism as one of these elements. It has become a key driver of Chinese foreign policy as personality politics in Beijing has given way to a collective leadership seeking Party legitimacy. We'll conclude with a panel on how resources and economic drivers shape China's maritime disputes. Security of China's near seas is critical to the unimpeded flow of trade and imported energy resources. Though the natural resources in the East and South China Sea undoubtedly shape the security landscape, there appears to be a debate on the centrality of oil and gas resources to the dispute.

The Chance to Fly Ali Stroker, Stacy Davidowitz, 2021-04-13 A heartfelt middle-grade novel about a theater-loving girl who uses a wheelchair for mobility and her quest to defy expectations—and gravity—from Tony award-winning actress Ali Stroker and Stacy Davidowitz Thirteen-year-old Nat Beacon loves a lot of things: her dog Warbucks, her best friend Chloe, and competing on her wheelchair racing team, the Zoomers, to name a few. But there's one thing she's absolutely OBSESSED with: MUSICALS! From *Hamilton* to *Les Mis*, there's not a cast album she hasn't memorized and belted along to. She's never actually been in a musical though, or even seen an actor who uses a wheelchair for mobility on stage. Would someone like Nat ever get cast? But when Nat's family moves from California to New Jersey, Nat stumbles upon auditions for a kids' production of *Wicked*, one of her favorite musicals ever! And she gets into the ensemble! The other cast members are super cool and inclusive (well, most of them)—especially Malik, the male lead and cutest boy Nat's ever seen. But when things go awry a week before opening night, will Nat be able to cast her fears and insecurities aside and “Defy Gravity” in every sense of the song title?
