Apollo's Legacy Roger D. Launius,2019-05-14 An all-encompassing look at the history and enduring impact of the Apollo space program In Apollo's Legacy, space historian Roger D. Launius explores the many-faceted stories told about the meaning of the Apollo program and how it forever altered American society. The Apollo missions marked the first time human beings left Earth's orbit and visited another world, and thus they loom large in our collective memory. Many have detailed the exciting events of the Apollo program, but Launius offers unique insight into its legacy as seen through multiple perspectives. He surveys a wide range of viewpoints and narratives, both positive and negative, surrounding the program. These include the argument that Apollo epitomizes American technological--and political--progress; technological and scientific advances garnered from the program; critiques from both sides of the political spectrum about the program's expenses; and even conspiracy theories and denials of the program's very existence. Throughout the book, Launius weaves in stories from important moments in Apollo's history to draw readers into his analysis. Apollo's Legacy is a must-read for space buffs interested in new angles on a beloved cultural moment and those seeking a historic perspective on the Apollo program.

Balanced on the Blade's Edge Lindsay Buroker,2014-04-01 Colonel Ridge Zirkander isn't the model of military professionalism—he has a tendency to say exactly what's on his mind, and his record has enough demerits to wallpaper the hull of an airship—but as the best fighter pilot in the Iskandian army, he's used to a little leniency from his superiors. Until he punches the wrong diplomat in the nose and finds himself issued new orders: take command of a remote prison mine in the inhospitable Ice Blades Mountains. Ridge has never been in charge of anything larger than a flier squadron—what's he supposed to do with a frozen fortress full of murderers and rapists? Not to mention the strange woman who shows up right before he arrives... Sardelle Terushan wakes from three hundred years in a mage stasis shelter, only to realize that she is the last of the Referatu, the sorcerers who once helped protect Iskandia from conquerors. Their subterranean mountain community was blown up in a treacherous sneak attack by soldiers who feared their power. Everyone Sardelle ever knew is dead, and the sentient soulblade she has been bonded to since her youth is buried in the core of the mountain. Further, what remains of her home has been infested by bloodthirsty miners commanded by the descendants of the very soldiers who destroyed her people. Sardelle needs help to reach her soulblade—her only link to her past and her last friend in the world. Her only hope is to pretend she's one of the prisoners while trying to gain the commander's trust. But lying isn't her specialty, especially when the world has changed so much in the intervening centuries, and if Colonel Zirkander figures out who she truly is, he'll be duty-bound to sentence her to the only acceptable punishment for sorcerers: death.

Highfire Eoin Colfer,2020-01-28 "True Detective meets Swamp Thing in the Artemis Fowl author's neo-noirish thriller about a curmudgeonly dragon in Louisiana." —Guardian From the New York Times bestselling author of the Artemis Fowl series comes a hilarious and high-octane adult novel about a vodka-drinking, Flashdance-loving dragon who lives an isolated life in the bayous of Louisiana—and the raucous adventures that ensue when he crosses paths with a fifteen-year-old troublemaker on the run from a crooked sheriff. In the days of yore, he flew the skies and scorched angry mobs—now he hides from swamp tour boats and rises only with the greatest reluctance from his Laz-Z-Boy recliner. Laying low in the bayou, this once-magnificent fire breather has been reduced to lighting Marlboros with nose sparks, swilling Absolut in a Flashdance T-shirt, and binging Netflix in a fishing shack. For centuries, he struck fear in hearts far and wide as Wyvern, Lord Highfire of the Highfire Eyrie—now he goes by Vern. However...he has survived, unlike the rest. He is the last of his kind, the last dragon. Still, no amount of vodka can drown the loneliness in his molten core. Vern's glory days are long gone. Or are they? A canny Cajun swamp rat, young Everett "Squib" Moreau does what he can to survive, trying not to break the heart of his saintly single mother. He's finally decided to work for a shady smuggler—but on his first night, he witnesses his boss murdered by a crooked constable. Regence Hooke is not just a dirty cop, he's a despicable human being—who happens to want Squib's momma in the worst way. When Hooke goes after his hidden witness with a grenade launcher, Squib finds himself airlifted from certain death by...a dragon? The swamp can make strange bedfellows, and rather than be fried alive so the dragon can keep his secret, Squib strikes a deal with the scaly apex predator. He can act as his go-between (aka familiar)—fetch his vodka, keep him company, etc.—in exchange for protection from Hooke. Soon the three of them are careening headlong toward a combustible confrontation. There's about to be a fiery reckoning, in which either dragons finally go extinct—or Vern's glory days are back. A triumphant return to the genre-bending fantasy that Eoin Colfer is so well known for, Highfire is an effortlessly clever and relentlessly funny tour-de-force of comedy and action.

Minecraft: The Dragon Nicky Drayden,2021-07-06 Take flight with the ender dragon in this official Minecraft novel! When a desert town is threatened by illager raids, a young adventurer turns to a newborn dragon to save her home. Zetta is the best potion-maker in the village of Sienna Dunes. Okay, maybe she's the only potion-maker in the village of Sienna Dunes. And maybe her potions don't exactly work like they're supposed to all the time. But when her village is menaced by a pack of illagers, only Zetta can see that the traditional ways won't keep Sienna Dunes safe anymore. Zetta journeys to her eccentric aunt's workshop outside town to search for an answer and finds a lot more than she bargained for. A mysterious egg hatches into a scaly creature with purple eyes, black wings, and poisonous breath. It can't possibly be the mythical ender dragon . . . can it? And if it is, can Zetta raise it to be the savior her village needs? The threat of the illagers is growing fast, and Zetta's accidental dragon is growing even faster. With the help of her two best friends and her daydreaming little cousin, Zetta must train the scariest (and scaliest) baby in the Overworld. But when the dragon is fully grown, will it save Sienna Dunes? Or will it spell the village's end?

The Poppy War R. F. Kuang, 2018-05-01 "I have no doubt this will end up being the best fantasy debut of the year [...] I have absolutely no doubt that [Kuang's] name will be up there with the likes of Robin Hobb and N.K. Jemisin." -- Booknest A Library Journal, Paste Magazine, Vulture, BookBub, and ENTROPY Best Books pick! Washington Post 5 Best Science Fiction and Fantasy Novel pick! A Bustle 30 Best Fiction Books pick! A brilliantly imaginative talent makes her exciting debut with this epic historical military fantasy, inspired by the bloody history of China's twentieth century and filled with treachery and magic, in the tradition of Ken Liu's Grace of Kings and N.K. Jemisin's Inheritance Trilogy. When Rin aced the Keju—the Empire-wide test to find the most talented youth to learn at the Academies—it was a shock to everyone: to the test officials, who couldn't believe a war orphan from Rooster Province could pass without cheating; to Rin's guardians, who believed they'd finally be able to marry her off and further their criminal enterprise; and to Rin herself, who realized she was finally free of the servitude and despair that had made up her daily existence. That she got into Sinegard—the most elite military school in Nikan—was even more surprising. But surprises aren't always good. Because being a dark-skinned peasant girl from the south is not an easy thing at Sinegard. Targeted from the outset by rival classmates for her color, poverty, and gender, Rin discovers she possesses a lethal, unearthly power—an aptitude for the nearly-mythical art of shamanism. Exploring the depths of her gift with the help of a seemingly insane teacher and psychoactive substances, Rin learns that gods long thought dead are very much alive—and that mastering control over those powers could mean more than just surviving school. For while the Nikara Empire is at peace, the Federation of Mugen still lurks across a narrow sea. The militarily advanced Federation occupied Nikan for decades after the First Poppy War, and only barely lost the continent in the Second. And while most of the people are complacent to go about their lives, a few are aware that a Third Poppy War is just a spark away . . . Rin's shamanic powers may be the only way to save her people. But as she finds out more about the god that has chosen her, the vengeful Phoenix, she fears that winning the war may cost her humanity . . . and that it may already be too late.
