The Brothers Karamazov Fyodor Dostoyevsky, 2022-11-13 The Brothers Karamazov is the final novel by the Russian author Fyodor Dostoyevsky. He spent nearly two years writing it. The author died less than four months after its publication. The Brothers Karamazov is a passionate philosophical novel set in 19th century Russia, that enters deeply into the ethical debates of God, free will, and morality. It is a spiritual drama of moral struggles concerning faith, doubt, and reason, set against a modernizing Russia, with a plot which revolves around the subject of patricide. Since its publication, it has been acclaimed as one of the supreme achievements in literature. Fyodor Dostoyevsky (1821-1881) was a Russian novelist, short story writer, essayist, journalist and philosopher. His literary works explore human psychology in the troubled political, social, and spiritual atmosphere of 19th-century Russia. Many of his works contain a strong emphasis on Christianity, and its message of absolute love, forgiveness and charity, explored within the realm of the individual, confronted with all of life's hardships and beauty. Many literary critics rate him as one of the greatest and most prominent psychologists in world literature.

The Books of Jacob Olga Tokarczuk, 2023-01-31 A NEW YORKER "ESSENTIAL READ" "Just as awe-inspiring as the Nobel judges claimed." – The Washington Post "Olga Tokarczuk is one of our greatest living fiction writers. . . This could well be a decade-defining book akin to Bolaño's 2666." –AV Club "Sophisticated and ribald and brimming with folk wit. . . The comedy in this novel blends, as it does in life, with genuine tragedy." –Dwight Garner, The New York Times LONGLISTED FOR THE 2022 NATIONAL BOOK AWARD NAMED A BEST BOOK OF THE YEAR BY THE NEW YORK TIMES, THE WALL STREET JOURNAL, TIME, THE NEW YORKER, AND NPR The Nobel Prize-winner's richest, most sweeping and ambitious novel yet follows the comet-like rise and fall of a

mysterious, messianic religious leader as he blazes his way across eighteenth-century Europe. In the mid-eighteenth century, as new ideas—and a new unrest—begin to sweep the Continent, a young Jew of mysterious origins arrives in a village in Poland. Before long, he has changed not only his name but his persona; visited by what seem to be ecstatic experiences, Jacob Frank casts a charismatic spell that attracts an increasingly fervent following. In the decade to come, Frank will traverse the Hapsburg and Ottoman empires with throngs of disciples in his thrall as he reinvents himself again and again, converts to Islam and then Catholicism, is pilloried as a heretic and revered as the Messiah, and wreaks havoc on the conventional order, Jewish and Christian alike, with scandalous rumors of his sect's secret rituals and the spread of his increasingly iconoclastic beliefs. The story of Frank—a real historical figure around whom mystery and controversy swirl to this day—is the perfect canvas for the genius and unparalleled reach of Olga Tokarczuk. Narrated through the perspectives of his contemporaries—those who revere him, those who revile him, the friend who betrays him, the lone woman who sees him for what he is—*The Books of Jacob* captures a world on the cusp of precipitous change, searching for certainty and longing for transcendence. In a nod to books written in Hebrew, *The Books of Jacob* is paginated in reverse, beginning on p. 955 and ending on p. 1 – but read traditionally, front cover to back.

California Journal Edgar Morin, 2008 The reform in thinking is a key anthropological and historical problem. This implies a mental revolution of considerably greater proportions than the Copernican revolution. Never before in the history of humanity have the responsibilities of thinking weighed so crushingly on us. --- History has not reached a stagnant end, nor is it triumphantly marching towards the radiant future. It is being catapulted into an unknown adventure. - Edgar Morin --- In 1969, California is not just the new Eldorado, it is the crucible where civilization is accelerating, self-

deconstructs, and is reborn. It's the probe of Spaceship Earth. It's the hippy phenomenon, the communes, the ecological movement, the great collective ceremonies like park-ins and rock concerts, the flourishing of sects ranging from mystics to Marxists, the experience of weed and acid. These are all temporary images and elements of a search for a new truth, a new religion, a new society. Long before it became fashionable for European intellectuals to write about their voyages to the United States, Edgar Morin, one of France's leading intellectual figures and, at that time, known as a path-breaking and innovative sociologist and researcher of popular culture, recounts the story of his experiences in the cauldron of change that was California, including his encounters with some of the leading minds of that time. Now translated in English, California Journal combines Morin's account of his experiences with his own search for answers to fundamental questions about the human condition. For a few months, the author had a profound feeling of being drawn into the heart of the great questions, played out personally and societally. The result is an engaging and prophetic work that has as much if not more to offer today than it did when it was first published in French.

Capitalism and Modernity Jack Goody, 2013-05-02 This

important new book investigates how the West attained its current position of economic and social advantage. In an incisive historical analysis, Jack Goody examines when and why Europe (and Anglo-America) started to outstrip all other continents in socio-economic growth. Drawing on non-Western examples of economic and technical progress, Goody challenges assumptions about long-term European supremacy of a 'cultural' kind, as was a feature of many theories current in social science. He argues that the divergence came with the Industrial Revolution and that the earlier bourgeois revolution of the sixteenth century was but one among many Eurasia-wide expressions of developing mercantile and manufacturing activity. This original book casts new light on the history of capitalism, industrialization and modernity, and will be essential reading for all those interested in the great debate about the economic rise of the West.

The Readies Bob Brown, 2015-02-13 In 1930, Bob Brown predicted that the printed book was bound for obsolescence. The time has come, he insisted, to rid the reader of the cumbersome book. He invented a machine that would allow one to read books and any text extremely fast and in a hyper abbreviated form. He called these abbreviated texts, with em dashes replacing words: readies. He envisioned sending the condensed texts through wireless networks. *The Readies*, describes these eponymously named abbreviated texts and his plans for a reading machine, but since he printed only 150 copies, the volume is practically unknown outside of a small circle of scholars. With this new edition, Craig Saper hopes to introduce Bob Brown's Roving Eye Press books to a new generation of readers.

Medieval Polish Armies 966-1500 David Nicolle, Witold Sarnecki, 2012-02-20 The history of Poland is a fascinating story of a people struggling to achieve nationhood in the face of internal and external conflict. Poland became a unified Christian state in AD 966 and by the 12th century a knightly class had emerged a force that was integral to the defence of Poland against increasingly frequent foreign invasions. Intent on crushing rival

Christian states, the Templars, Hospitallers and Teutonic Knights all mounted attacks but were beaten back by the Poles, as were invading Mongols and Turks. This book reveals the organisation, equipment and battle histories of the medieval Polish armies as they developed and modernised to emerge as one of the dominant powers of Eastern Europe.

Tales of Pirx the Pilot Stanislaw Lem,1990-11-30 Brilliant stories of a bumbling astronaut, and the human desire to discover the unknown, by the much-loved author of Solaris. Set in the not-too-distant future, when space flight has evolved to the point where humanity is ready to colonize the solar system, Tales of Pirx

the Pilot follows one somewhat-hapless explorer as he struggles though his training as a cadet, his career as a pilot, and his tenure as captain of a merchant ship. In these collected stories, Pirx stumbles his way through various exploits: traveling to the moon; battling mechanical malfunctions; encountering robots; and confronting questions of ambition, evolution, exploration, experimentation, and the nature of humanity itself. And in classic Pirx fashion, he faces down each dilemma with charm, curiosity, courage, and intuition. These early works by revered speculative fiction author Stanislaw Lem are filled with both the sharp insight for which he is known and a childlike innocence, making them an entertaining and thought-provoking read for science fiction fans of all ages.

The Sweet Cheat Gone Marcel Proust, 2022-11-22 This novel is Volume VI of *In Search of Lost Time* and focuses on Marcel's grief at the loss of Miss Albertine. The book focuses on the author's pain and how he deals with it.

Marta Eliza Orzeszkowa, 2018-08-07 Eliza Orzeszkowa was a trailblazing Polish novelist who, alongside Leo Tolstoy and Henryk Sienkiewicz, was a finalist for the 1905 Nobel Prize in Literature. Of her many works of social realism, *Marta* (1873) is among the best known, but until now it has not been available in English. Easily a peer of *The Awakening* and *A Doll's House*, the novel was well ahead of the English literature of its time in attacking the ways the labor market failed women. Suddenly widowed, the previously middle-class Marta Świcka is left penniless and launched into a grim battle for her survival and that of her small daughter. As she applies for job after job in Warsaw—portrayed here as an every-city, an unforgiving commercial landscape that could be any European metropolis of the time—she is told time after time that only men will be hired, that men need jobs because they are fathers and heads of families. Marta burns with Orzeszkowa's feminist conviction that sexism was not just an annoyance but a threat to the survival of women and children. It anticipated the

need for social safety nets whose existence we take for granted today, and could easily read as an indictment of current efforts to dismantle those very programs. Tightly plotted and exquisitely translated by Anna Gąsienica-Byrcyn and Stephanie Kraft, *Marta* resonates beyond its Polish setting to find its place in women's studies, labor history, and among other works of nineteenth-century literature and literature of social change.

The Prague Cemetery Umberto Eco, 2011-11-08 The Prague Cemetery is the #1 international bestselling historical novel from the award-winning and New York Times bestselling author of *The Name of the Rose*, Umberto Eco. Nineteenth-century Europe—from Turin to Prague to Paris—abounds with the ghastly and the mysterious. Jesuits plot against Freemasons. Italian republicans strangle priests with their own intestines. French criminals plan bombings by day and celebrate Black Masses at night. Every nation has its own secret service, perpetrating forgeries, plots, and massacres. Conspiracies rule history. From the unification of Italy to the Paris Commune to the Dreyfus Affair to The Protocols of the Elders of Zion, Europe is in tumult and everyone needs a scapegoat. But what if behind all of these conspiracies, both real and imagined, lay one lone man? “Choreographed by a truth that is itself so strange a novelist need hardly expand on it to produce a wondrous tale... Eco is to be applauded for bringing this stranger-than-fiction truth vividly to life.” —The New York Times

Distant Shores Kristin Hannah, 2011-06-28 NEW YORK TIMES BESTSELLER • “Hannah examines whether love and commitment are enough to sustain a marriage when two people who have put their individual dreams on ice get a chance to defrost them . . . in fast-moving prose punctuated by snappy asides.”—People Elizabeth and Jackson Shore married young, raised two daughters, and weathered the storms of youth as they built a family. From a distance, their lives look picture perfect. But after the girls leave home, Jack and Elizabeth quietly drift apart. When Jack accepts a wonderful new job, Elizabeth puts her own needs aside to follow

him across the country. Then tragedy turns Elizabeth's world upside down. In the aftermath, she questions everything about her life—her choices, her marriage, even her long-forgotten dreams. In a daring move that shocks her husband, friends, and daughters, she lets go of the woman she has become—and reaches out for the woman she wants to be.
