The 2012-2013 Baltimore Ravens - the AFC Championship and the Road to the NFL Super Bowl XLVII Dan Fathow,2013 The 2012-2013 Baltimore Ravens had a memorable year on their way to Super Bowl XLVII (47). Led by quarterback Joe Flacco, the Ravens were on a mission from the first game of the season to march back into the playoffs and prove that they were a world-class team, who could contend with and overcome heralded opponents such as the Tom Brady-led New England Patriots, their rivals who ended their playoff run in the previous year. On the way, the Ravens rose above sports media criticisms that constantly underestimated their abilities, especially those of quarterback Joe Flacco, who during the playoffs dueled with Andrew Luck, Peyton Manning, and Tom Brady, leading his team to victory in every contest. The Ravens

demonstrated time and time again that they were worthy of being at the big game in New Orleans, exhilarating fans along the way and setting the scene for legendary linebacker Ray Lewis's last performance to be in a Super Bowl. Join them on their quest for a Super Bowl championship and relive this exciting season, game-by-game, score-by-score, and victory-by-victory.

The Sports Strategist Irving Rein,Ben Shields,Adam Grossman,2014 In *The Sports Strategist: Developing Leaders for a High-Performance Industry*, authors Irving Rein, Ben Shields, and Adam Grossman demonstrate that relying too much on winning is a losing long-term strategy for dealing with these challenges. Instead, they argue that sports organizations must focus on identifying and maximizing key factors that, unlike winning, can be controlled and shaped. By building a more well-rounded business, sports strategists will position themselves and their organizations for sustainable success in the industry. -- Inside Cover

Sports, Peacebuilding and Ethics Linda M. Johnston,2017-07-05 As this latest volume in the Peace & Policy series shows, sports can be an effective mechanism for peacebuilding, especially when incorporated into conflict-resolution programs. Such programs have been designed to bring children together in post-conflict situations with an ultimate goal of reducing future violence. In examining such programs, the volume's contributors ask key questions: What are the programs achieving? and How are they measuring success? Although such programs have by and large been successful, some issues need to be addressed if these programs are to hone their effectiveness.Among the questions explored in the volume are: various aspects of culture and how they can help shape sports programs; the role of a coach in creating a culture of peace, and how this culture can fit into a peacebuilding process. Contributors also examine the role of sports in trauma relief programs in Rwanda; the role of universities in sports; and the role of sports in the demilitarization of child soldiers.The last three contributors tackle some of the legitimate concerns raised about using sports for peacebuilding, such as sports being competitive, violent, and focused on winning. Contributors look carefully at these and other issues that have arisen in sports as a tool of conflict resolution, discuss why they have become concerns, and consider some possible ways to deal with these concerns in the future.
