Eye Color Morgan Worthy,1999 Morgan Worthy, a research psychologist, presents a comprehensive picture of how eye color is related to the behavior of humans and animals. In humans, he used archival records of athletic performance to show the theoretical pattern which has light-eyed athletes performing at their best on self-paced tasks and dark-eyed athletes, on average, performing at their best on reactive tasks. This same general pattern is shown to hold true in animal behaviors such as hunting tactics of predators and escape tactics of prey. Whereas dark-eyed predators tend to rely on immediate, quick, reactions to catch prey, light-eyed predators tend to rely more on their ability to lie-in-wait or stalk prey. Various other behaviors such as perception and social interaction are discussed in the same theoretical framework.

The Bluest Eye Toni Morrison,2007-05-08 NATIONAL BESTSELLER • From the acclaimed Nobel Prize winner—a powerful examination of our obsession with beauty and conformity that asks questions about race, class, and gender with characteristic subtly and grace. In Morrison’s acclaimed first novel, Pecola Breedlove—an 11-year-old Black girl in an America whose love for its blond, blue-eyed children can devastate all others—prays for her eyes to turn blue: so that she will be beautiful, so that people will look at her, so that her world will be different. This is the story of the nightmare at the heart of her yearning, and the tragedy of its fulfillment. Here, Morrison’s writing is “so precise, so faithful to speech and so charged with pain and wonder that the novel becomes poetry” (The New York Times).

Do Androids Dream of Electric Sheep? Philip K. Dick,1975 By 2021, the Terminus War had driven mankind off-planet and entire species into extinction. Now only the rich can afford living creatures; others may buy amazingly realistic simulacra: horses, cats, sheep ... Even humans. These artificial people are so advanced it's impossible to tell them from true men and women--except for their lack of empathy. Without empathy, androids can--and do--kill their owners and blend into society, so they're illegal on Earth. It's Rick Deckard's job to find these rogues and retire them. But andys tend to fight back--with deadly results.

My Name Is Red Orhan Pamuk,2011-08-05 ** ORDER NIGHTS OF PLAGUE, THE NEW NOVEL FROM ORHAN PAMUK ** Winner of the Nobel Prize for Literature Winner of the International IMPAC Dublin Award 'Wonderful' The Spectator 'Magnificent' Observer 'Sumptuous' New Yorker 'Unforgettable' Guardian My Name is Red is an unforgettable murder mystery, set amid the splendour of sixteenth century Istanbul, from the Nobel prizewinning author In the late 1590s, the Sultan secretly commissions a great book: a celebration of his life and his empire, to be illuminated by the best artists of the day - in the European manner. At a time of violent fundamentalism, however, this is a dangerous proposition. Even the illustrious circle of artists are not allowed to know for whom they are working. But when one of the miniaturists is murdered, their Master has to seek outside help. Did the dead painter fall victim to professional rivalry, romantic jealousy or religious terror? With the Sultan demanding an answer within three days, perhaps the clue lies somewhere in the half-finished pictures . . . Orhan Pamuk is one of the world's leading contemporary novelists and in My Name is Red, he fashioned an unforgettable tale of suspense, and an artful meditation on love and deception.

Too Soon Old, Too Late Smart Gordon Livingston, 2009-04-29 After service in Vietnam, as a surgeon for the 11th Armored Cavalry Regiment in 1968-69, at the height of the war, Dr. Gordon Livingston returned to the U.S. and began work as a psychiatrist. In that capacity, he has listened to people talk about their lives-what works, what doesn't, and the limitless ways (many of them self-inflicted) that people find to be unhappy. He is also a parent twice bereaved; in one thirteen-month period, he lost his eldest son to suicide, his youngest to leukemia. Out of a lifetime of experience, Gordon Livingston has extracted thirty bedrock truths: We are what we do. Any relationship is under the control of the person who cares the least. The perfect is the enemy of the good. Only bad things happen quickly. Forgiveness is a form of letting go, but they are not the same thing. The statute of limitations has expired on most of our childhood traumas. Livingston illuminates these and twenty-four others in a series of carefully hewn, perfectly calibrated essays, many of which focus on our closest relationships and the things that we do to impede or, less frequently, enhance them. Again and again, these essays underscore that "we are what we do," and that while there may be no escaping who we are, we have the capacity to face loss, misfortune, and regret and to move beyond them-that it is not too late. Full of things we may know but have not articulated to ourselves, *Too Soon Old, Too Late Smart* offers solace, guidance, and hope to everyone ready to become the person they'd most like to be.

Pacific Crest Trials Zach Davis, 2017 Thru-hiking the Pacific Crest Trail is 90% mental. Each year, thousands of backpackers take to the Pacific Crest Trail with the intention of successfully thru-hiking the 2,650-mile footpath that extends from Mexico to Canada. Despite months of research, thousands of dollars poured into their gear, and countless hours dedicated to grinding away on the StairMaster, most hikers fall short of their goal. Why? They neglected to prepare for the most challenging element of a five month backpacking trip. While the PCT presents extraordinary physical challenges, it is the psychological and emotional struggles that drive people off the trail. Conquering these mental obstacles is the key to success. This groundbreaking book focuses on the most important and overlooked piece of equipment of all- the gear between one's ears. Filled with first-hand, touching yet humorous vignettes and down-to-earth advice that both instructs and inspires, *Pacific Crest Trials* gives readers the mental road map they'll need to hike from Mexico to Canada. Following up on his wildly popular guide to thru-hiking the Appalachian Trail in *Appalachian Trials*, Zach Davis has teamed up with 2015 PCT thru-hiker Carly Moree to bring readers the ultimate psychological and emotional guide to prepare for the Pacific Crest Trail. In *Pacific Crest Trials* readers will learn:- Goal setting techniques that will assure hikers reach Canada- The common early stage pitfalls and how to avoid them- How to beat the Death of the Honeymoon- The importance and meaning of hiking your own hike- How to adapt amongst drastically different terrains, weather patterns, gear and logistical needs- Five strategies for unwavering mental endurance- How to save money on gear purchases- Tips for enjoying rather than enduring each of the five million steps along the journey- Advice for staving off post-trail depression from one of the country's most respected trail angels- Nutritional guidance for avoiding post-trail weight gain Additionally, readers will receive an in-depth guide to choosing the right gear for their PCT thru-hike from Triple Crown, Liz Snorkel Thomas. In this chapter full of valuable insights, Snorkel walks readers through what features to look for in quality gear, how to save money, how to lessen the load without compromising on safety or comfort, and offers crucial advice on how to properly use and care for your gear. Furthermore, Thomas offers several specific product recommendations, giving readers a helpful head start on their shopping list. Note: This is an adaptation of *Appalachian Trials*. Although this book is written with the Pacific Crest Trail thru-hiker in mind, the principles are largely similar. If you own *Appalachian Trials* do not buy this book. Five percent of the proceeds of your purchase of *Pacific Crest Trials* will go to the Pacific Crest Trail Association, the non-profit that oversees and protects the Pacific Crest Trail.

Appalachian Trials Zach Davis, 2012-02-08 I really loved it... *Appalachian Trials* is full of specific tactical tips for mental preparation, which is key well beyond the AT. - Tim Ferriss, author of New York Times Best Selling *The 4-Hour Workweek* and *The 4-Hour Body* Each year, it is estimated that more than 2,000 people set out to thru-hike the Appalachian Trail, yet seven in ten ultimately fall short of their goal. Given the countless number of how-to books and websites offering information about logistics, gear, and endurance training, one would think that more people would finish this 2,200 mile trek. Why then, do so many hikers quit prematurely? After successfully thru-hiking the AT in five months with zero prior backpacking experience, author, Zach Davis, is convinced he's discovered the answer. Aspiring thru-hikers, Davis tells readers, are preparing the wrong way- sweating on the StairMaster, meticulously plotting each re-supply box, or obsessing over the a synthetic or down sleeping bag or perfect pair of socks. While the AT undoubtedly presents extraordinary physical challenges, it is the psychological and emotional struggles that drive people off the trail. Conquering these mental obstacles is the key to success. This groundbreaking book focuses on the most important and overlooked piece of equipment of all- the gear between one's ears. Filled with first-hand, touching yet humorous vignettes and down-to-earth advice that both instructs and inspires, *Appalachian Trials* gives readers the mental road map they'll need to hike from Springer Mountain to Mt. Katahdin. In *Appalachian Trials* readers will learn: Goal setting techniques that will assure hikers reach Mt. Katahdin The common early stage pitfalls and how to avoid them How to beat the Virginia Blues The importance of and meaning behind hiking your own hike 5 strategies for unwavering mental endurance The most common mistake made in the final stretch of the trail Tips for enjoying rather than enduring each of the five million steps along the journey Strategies for avoiding post-trail depression and weight gain In addition, the Bonus Section of *Appalachian Trials* includes: A thorough chapter on gear written by thru-hiker of the AT and Pacific Crest Trail, and professional backpack gear reviewer Information about the trail's greatest and most unknown risk and how to guard against it 9 tips for saving money before and during your thru-hike A thorough FAQ section including information ranging from how to obtain sponsorship, to the best stove for the trail, to avoiding chafing, and much more

Turner Franny Moyle,2016-10-25 The life of one of Western art's most admired and misunderstood painters J.M.W. Turner is one of the most important figures in Western art, and his visionary work paved the way for a revolution in landscape painting. Over the course of his lifetime, Turner strove to liberate painting from an antiquated system of patronage. Bringing a new level of expression and color to his canvases, he paved the way for the modern artist. Turner was very much a man of his changing era. In his lifetime, he saw Britain ravaged by Napoleonic wars, revived by the Industrial Revolution, and embarked upon a new moment of Imperial glory with the ascendancy of Queen Victoria. His own life embodied astonishing transformation. Born the son of a barber in Covent Garden, he was buried amid pomp and ceremony in St. Paul's Cathedral. Turner was accepted into the prestigious Royal Academy at the height of the French Revolution when a climate of fear dominated Britain. Unable to travel abroad he explored at home, reimagining the landscape to create some of the most iconic scenes of his country. But his work always had a profound human element. When a moment of peace allowed travel into Europe, Turner was one of the first artists to capture the beauty of the Alps, to revive Venice as a subject, and to follow in Byron's footsteps through the Rhine country. While he was commercially successful for most of his career, Turner's personal life remained fraught. His mother suffered from mental illness and was committed to Bedlam. Turner never married but had several long-term mistresses and illegitimate daughters. His erotic drawings were numerous but were covered up by prurient Victorians after his death. Turner's late, impressionistic work was held up by his Victorian detractors as example of a creeping madness. Affection for the artist's work soured. John Ruskin, the greatest of all 19th century art critics, did what he could to rescue Turner's reputation, but Turner's very last works confounded even his greatest defender. TURNER humanizes this surprising genius while placing him in his fascinating historical context. Franny Moyle brilliantly tells the story of the man to give us an astonishing portrait of the artist and a vivid evocation of Britain and Europe in flux.
