Night Vision R. F. Hess,L. T. Sharpe,K. Nordby,1990-09-27 This detailed 1990 book describes the light and dark adaptation of receptor and post-receptor mechanisms from a number of perspectives. The authors emphasise the importance of the study of achromatopsia, a rare congenital condition in which the visual mechanisms that mediate day vision are absent whilst those that mediate night vision remain intact.

Glitter Graham Wilson,2019-12-11 Corporate Crime and its Victims It's not gold that glitters but health stolen from past workers. Poisoned by chemicals they used, many are sick and dying. The story reaches a journalist. Inquiries lead her to a new company, Gilt Investments, a public float promising an investor bonanza. It keeps the valued parts and leaves the risk behind. The workers get nothing. The clock is ticking. Can it be stopped? The publicity for Gilt Investments claims risk free investment and a gilded future. Is it real or is it golden spin, a new public mask of glitter to hide the guilt behind. Corporate lawyer, Stephen, knows Gilt Investments will give a great return. His own bonus and share allocation promise a cash bonanza. It is all set to go. He delivers the Prospectus to the printer to send out to select clients. It goes live in a week. But as the final hours tick away a journalist rings. A desperately ill woman has contacted her, she claims the past company has poisoned her. The more the journalist looks the worse the story becomes, not one but dozens of victims. And there is a trail of deception by the former company to hide the truth of what happened three decades ago. As she digs deeper she finds other victims, paid a pittance and then hushed up. Some are dead now but many others are alive and sick. The journalist find out an imminent company restructure will separate a murky past from a glittering future. As she gets closer to the truth the company turns to sexual blackmail, used against her. It is a race on three counts, to stop the float clock so the assets don't vanish, to keep the victims alive to testify and to keep her own past buried, lest it derail it all.

The Helpers: An International Tale of Espionage and Corruption S. E. Nelson,2013-11-19 On the surface, Congo seems to be having the usual rebel conflict. Behind the scenes is a different story. The Helpers - a very powerful underground organization whose members include international businessmen and high priests are determined to maintain a stronghold on the natural resources of Congo. When American journalist, Jenny Osborne, and her photojournalist, John Spencer, arrive in Kinshasa to report on the rebel situation, they soon discover that things are not as they seem. Monsieur Lance Lemmand, a veteran French Intelligence Officer in DRC, suspects the hand of The Helpers in the current political unrest. He enlists his protégé, the brilliant and handsome Pierre-Jean Philippe, to help him investigate. When Kai, a local school girl, who is hiding a deep dark secret, decides to take action, she seeks out Jenny for help. Kai gives Jenny damaging information that could bring down The Helpers. When The Helpers find out, they go after Jenny with a vengeance. They will stop at nothing to prevent her from exposing them Jenny finds herself on the run, caught in a web of intrigue, espionage and assassinations, spanning from Congo to Europe, and as far reaching as the United States. Her only hope is to find Lance and Pierre who are out of reach. Will Jenny survive long enough to achieve her ultimate goal, fulfill her duty to Kai and sort out her feelings for Pierre? Will Lance and Pierre find her before it is too late? Or will The Helpers silence them once and for all.

The Role of Dual-Use Helicopters in the Security and Defence Field Alessandro Marrone,Michele Nones ,2015-07-21 In the current debate on military capabilities and defence industry, the term “dual-use” means those technologies that can be used to develop systems and equipment for both civilian and military purposes. Changes occurred in modes of technological innovation have brought about a growing interconnection between the civilian, security and defence sectors, especially from an industrial point of view. In this context, “dual-use helicopters” refer to platforms that have been designed in compliance with certain standards and are structurally built so that they can satisfy civilian, military or security users with only minimal adjustments or additions. This volume analyses the use of helicopters by armed forces, law enforcement agencies and emergency services, in three countries: Italy, France and the United Kingdom. Such landscape is diversified and fragmented, with different approaches and above all helicopter fleets made up of diverse platforms of subsequent generations - some with more than 30 years of life cycle behind them. In all three countries, national defence budget’s restrictions have demanded more efficient solutions for the necessary fleet renewal and management in the medium term - a renewal often coupled with a quantitative reduction. In this respect, the option of a dual-use helicopter becomes interesting in that it ensures greater security, effectiveness and efficiency in use by armed forces. This calls for a common and in-depth reflection on the problem by all actors in the defence and security field.
