*Captain Crash and the Dallas Cowboys* Cliff Harris,2014-09-02 How does it feel to see your name among the Cowboys greats in Texas Stadium's Ring of Honor? What was it like to be recruited by professional scouts? What happened to the guy who hooked Randy White in the back with a wayward fishhook? How did legendary coach Tom Landry motivate his players? How did a waterbed and transcendental meditation help Cliff Harris gain an edge over his opponents? Replete with memories from his college days at Ouachita Baptist and then as a member of the Dallas Cowboys during the "America's Team" era, Cliff answers those questions and more in the updated edition of *Captain Crash and the Dallas Cowboys*. Read about his teammates, his coach, his enemies, training secrets, Super Bowls--of which Cliff played in five, winning two--Pro Bowls, motorcycles, and motorboats. In this book, first published in 2006 and now including a new introduction, Cliff takes us on the wild ride that was his life as a Cowboy free safety and how he got there in the first place. Concepts of Biology Samantha Fowler,Rebecca Roush,James Wise,2018-01-07 Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For these reasons, Concepts of Biology is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that instructors can customize the book, adapting it to the approach that works best in their classroom. Concepts of Biology also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key concepts.

*Half-Earth: Our Planet's Fight for Life* Edward O. Wilson,2016-03-07 An audacious and concrete proposal...Half-Earth completes the 86-year-old Wilson's valedictory trilogy on the human animal and our place on the planet. --Jedediah Purdy, New Republic In his most urgent book to date, Pulitzer Prize-winning author and world-renowned biologist Edward O. Wilson states that in order to stave off the mass extinction of species, including our own, we must move swiftly to preserve the biodiversity of our planet. In this visionary blueprint for saving the planet (Stephen Greenblatt), Half-Earth argues that the situation facing us is too large to be solved piecemeal and proposes a solution commensurate with the magnitude of the problem: dedicate fully half the surface of the Earth to nature. Identifying actual regions of the planet that can still be reclaimed--such as the California redwood forest, the Amazon River basin, and grasslands of the Serengeti, among others--Wilson puts aside the prevailing pessimism of our times and speaks with a humane eloquence which calls to us all (Oliver Sacks).

Grassroots Jennifer Baumgardner,Amy Richards,2005-01-12 From the authors of Manifesta, an activism handbook that illustrates how to truly make the personal political. Grassroots is an activism handbook for social justice. Aimed at everyone from students to professionals, stay-at-home moms to artists, Grassroots answers the perennial question: What can I do? Whether you are concerned about the environment, human rights violations in Tibet, campus sexual assault policies, sweatshop labor, gay marriage, or the ongoing repercussions from 9-11, Jennifer Baumgardner and Amy Richards believe that we all have something to offer in the fight against injustice. Based on the authors' own experiences, and the stories of both the large number of activists they work with as well as the countless everyday people they have encountered over the years, Grassroots encourages people to move beyond the generic three (check writing, calling congresspeople, and volunteering) and make a difference with clear guidelines and models for activism. The authors draw heavily on individual stories as examples, inspiring readers to recognize the tools right in front of them--be it the office copier or the family living room--in order to make change. Activism is accessible to all, and Grassroots shows how anyone, no matter how much or little time they have to offer, can create a world that more clearly reflects their values.
