This Is Not the Abby Show Debbie Reed Fischer,2016-07-12 “Abby’s funny and engaging first-person narrative recalls the tone of Jeff Kinney’s Wimpy Kid and Rachel Renee Russell’s Dork Diaries, and the ultimate message—friends can help bring out the best in someone—is heartwarming.” —Booklist Fans of Joey Pigza, Meg Cabot, and Because of Mr. Terupt will root for hilarious, one-of-a-kind Abby as she navigates ADHD, middle school, family, and friendships. Abby was born for the spotlight. Now it’s her time to shine! Abby is twice exceptional—she is gifted in math and science, and she has ADHD. Normally, she has everything pretty much under control. But when Abby makes one HUGE mistake that leads to “The Night That Ruined My Life,” or “TNTRML,” she lands in summer school. Abby thinks the other summer-school kids are going to be total weirdos. And what with her parents’ new rules, plus all the fuss over her brother’s bar mitzvah, her life is turning into a complete disaster. But as Abby learns to communicate better and finds friends who love her for who she is, she discovers that her biggest weaknesses could be her greatest assets. Hilarious and heartwarming, This Is Not the Abby Show is for everyone who knows that standing out is way more fun than blending in. “Like Jack Gantos’s Joey Pigza books, this lively novel from Fischer offers a firsthand view of life with ADHD.” —Publishers Weekly “A captivating portrayal of one girl’s experiences with ADHD. . . . Fischer’s spunky and introspective protagonist offers a sympathetic mirror for many kids, both boys and girls.” —Kirkus Reviews “The characters are likable and fun to follow from start to finish, and their growth rings true. The author does a great job of shining some light on ADHD and how it can affect people differently.” —School Library Journal

Why I Am Not a Buddhist Evan Thompson,2020-01-28 A provocative essay challenging the idea of Buddhist exceptionalism, from one of the world's most widely respected philosophers and writers on Buddhism and science. Buddhism has become a uniquely favored religion in our modern age. A burgeoning number of books extol the scientifically proven benefits of meditation and mindfulness for everything ranging from business to romance. There are conferences, courses, and celebrities promoting the notion that Buddhism is spirituality for the rational; compatible with cutting-edge science; indeed, a science of the mind. In this provocative book, Evan Thompson argues that this representation of Buddhism is false. In lucid and entertaining prose, Thompson dives deep into both Western and Buddhist philosophy to explain how the goals of science and religion are fundamentally different. Efforts to seek their unification are wrongheaded and promote mistaken ideas of both. He suggests cosmopolitanism instead, a worldview with deep roots in both Eastern and Western traditions. Smart, sympathetic, and intellectually ambitious, this book is a must-read for anyone interested in Buddhism's place in our world today.--Provided by publisher.

Superman's Not Coming Erin Brockovich,2021-04-20 From the environmental activist, consumer advocate, and renowned crusader comes a riveting book that is part memoir, part non-fiction report, and part call-to-action—a plea to readers to engage with the water crisis in America because no one else is going to do the work for you (InStyle Magazine). Clean water is as basic to life on planet Earth as hydrogen or oxygen. In her long-awaited book—her first to reckon with the condition of water on our planet—Erin Brockovich shows us what’s at stake. She writes powerfully of the fraudulent science disguising our national water crisis: Cancer clusters are not being reported. People in Detroit and the state of New Jersey don’t have clean water. The drinking water for more than six million Americans contains unsafe levels of industrial chemicals linked to cancer and other health issues. The saga of PG&E continues to this day. Yet communities and people around the country are fighting to make an impact, and Brockovich tells us their stories. In Poughkeepsie, New York, a water operator responded to his customers’ concerns and changed his system to create some of the safest water in the country. Local moms in Hannibal, Missouri, became the first citizens in the nation to file an ordinance prohibiting the use of ammonia in their public drinking water. Like them, we can each protect our right to clean water by fighting for better enforcement of laws, new legislation, and stronger regulations.

The Last Lecture Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

The Cook Not Mad The Cookbook,2012-10-16 Published in 1830 in North America, this volume in the American Antiquarian Cookbook Collection stresses American cooking over European cuisine. Within a year of its publication in the United States, The Cook Not Mad was also published in Canada and thus became Canada’s first printed cookbook. In contrast to some of the larger encyclopedic cookbook collections of the day, The Cook Not Mad provides 310 recipes and household information designed to be a quick and easy reference guide to domestic organization for the contemporary housewife. The author describes the content as “Good Republican dishes” and includes typical American ingredients such as turkey, pumpkin, codfish, and cranberries. There are classic recipes for Tasty Indian Pudding, Federal Pancakes, Good Rye and Indian Bread (cornmeal), Johnnycake, Indian Slapjack, Washington Cake,

and Jackson Jumbles. In spite of the author’s American “intentions,” the book does include foreign influences such as traditional English recipes, and it also contains one of the earliest known recipes for shish-kebab in American cookbooks. Reproduced by permission from the volume in the collection of the American Antiquarian Society, Worcester, Massachusetts, founded in 1812.

Hoping Del Rio Bay High will live up to her greatest expectations, Mina has big plans for infiltrating the school's social glitterati. Good thing she isn't afraid of a little hard work and that her playground peeps—Lizzie, Michael, and JZ—have got her back. Drive Daniel H. Pink,2011-04-05 The New York Times bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of When: The Scientific Secrets of Perfect Timing Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of To Sell Is Human: The Surprising Truth About Motivating Others). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction-at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves

and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose-and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.

Lottie Biggs is (Not) Mad Hayley Long,2009-07-03 My name is Lottie Biggs and in three weeks time, I will be fifteen years old. At school, most people call me Lottie Not-Very-Biggs. I’ve never found this particularly funny . . . My current hair colour is Melody Deep Plum which is not as nice as Melody Forest Flame but definitely better than the dodgy custard colour I tried last week . . . And this is my book – it’s about important things like boys and shoes and polo-neck knickers and rescuing giraffes and NOT fancying Gareth Stingecombe (even though he has manly thighs) and hanging-out with your best friend having A BLATANTLY FUNNY TIME. It is definitely not about sitting in wardrobes or having a mental disturbance of any kind! Painfully honest and laugh-so-hard-you-forget-to-breathe funny. The wit of Louise Rennison with the depth of Jacqueline Wilson.
