How to Take Smart Notes Sönke Ahrens,2022-03-11 This is the second, revised and expanded edition. The first edition was published under the slightly longer title How to Take Smart Notes. One Simple Technique to Boost Writing, Learning and Thinking - for Students, Academics and Nonfiction Book Writers. The key to good and efficient writing lies in the intelligent organisation of ideas and notes. This book helps students, academics and other knowledge workers to get more done, write intelligent texts and learn for the long run. It teaches you how to take smart notes and ensure they bring you and your projects forward. The Take Smart Notes principle is based on established psychological insight and draws from a tried and tested note-taking technique: the Zettelkasten. This is the first comprehensive guide and description of this system in English, and not only does it explain how it works, but also why. It suits students and academics in the social sciences and humanities, nonfiction writers and others who are in the business of reading, thinking and writing. Instead of wasting your time searching for your notes, quotes or references, you can focus on what really counts: thinking, understanding and developing new ideas in writing. Dr. Sönke Ahrens is a writer and researcher in the field of education and social science. He is the author of the award-winning book “Experiment and Exploration: Forms of World Disclosure” (Springer). Since its first publication, How to Take Smart Notes has sold more than 100,000 copies and has been translated into seven languages.

More Letters of Note Shaun Usher,2015-10-01 More Letters of Note is another rich and inspiring collection, which reminds us that much of what matters in our lives finds its way into our letters. These letters deliver the same mix of the heartfelt, the historically significant, the tragic, the comic and the unexpected. Including letters from: Jane Austen, Richard Burton, Helen Keller, Alan Turing, Albus Dumbledore, Eleanor Roosevelt, Henry James, Sylvia Plath, John Lennon, Gerald Durrell, Janis Joplin, Wolfgang Amadeus Mozart, Janis Joplin, Hunter S. Note Book Jeff Nunokawa,2015-04-27 A moving and original literary approach to self-understanding through social media The hunger for a feeling of connection that informs most everything I've written flows from a common break in a common heart, one I share with everyone I've ever really known.—Note Book Every single morning since early 2007, Princeton English professor Jeff Nunokawa has posted a brief essay in the Notes section of his Facebook page. Often just a few sentences but never more than a few paragraphs, these compelling literary and personal meditations have raised the Facebook post to an art form, gained thousands of loyal readers, and been featured in the New Yorker. In Note Book, Nunokawa has selected some 250 of the most powerful and memorable of these essays, many accompanied by the snapshots originally posted alongside them. The result is a new kind of literary work for the age of digital and social media, one that reimagines the essay's efforts, at least since Montaigne, to understand our common condition by trying to understand ourselves. Ranging widely, the essays often begin with a quotation from one of Nunokawa's favorite writers—George Eliot, Henry James, Gerard Manley Hopkins, W. H. Auden, Robert Frost, or James Merrill, to name a few. At other times, Nunokawa is just as likely to be discussing Joni Mitchell or Spanish soccer striker Fernando Torres. Confessional and moving, enlightening and entertaining, Note Book is ultimately a profound reflection on loss and loneliness—and on the compensations that might be found through writing, literature, and connecting to others through social media.
