The Art of 3D Isaac V. Kerlow, 2004 Publisher Description

Inhabiting the Church Jon R. Stock, Tim Otto, Jonathan Wilson-Hartgrove, 2006-11-01 If the church is more than just a building, what could it mean to live in it—to inhabit it as a way of life? From their location in new monastic communities, Otto, Stock, and Wilson-Hartgrove ask what the church can learn from St. Benedict's vows of conversion, obedience, and stability about how to live as the people of God in the world. In story-telling and serious engagement with Scripture, old wisdom breathes life into a new monasticism. But, like all monastic wisdom, these reflections are not just for monks. They

speak directly to the challenge of being the church in America today and the good news Christ offers for the whole world.

Hybrid Animation Tina O'Hailey,2012-11-12 Artist imaginations continue to grow and stretch the boundaries of traditional animation. Successful animators adept and highly skilled in traditional animation mediums are branching out beyond traditional animation workflows and will often use multiple forms of animation in a single project. With the knowledge of 3D and 2D assets and the integration of multiple animation mediums into a single project, animators have a wealth of creative resources available for a project that is not limited to a specific animation medium, software package or workflow processs. Enhance a poignant scene by choosing to animate the scenic background in 2D while the main character is brought to life with 3D techniques. Balance the budget demands of a project by choosing to integrate a 2D or 3D asset to save time and expense. Choose which medium Hybrid Animation, learn the systematic development of the 2D and 3D assets and the issues surrounding choices made during the creative process.

Arab Evangelicals in Israel Azar Ajaj,Duane Alexander Miller,Philip Sumpter,2016-07-11 The essays contained in this book provide an introduction to the history, challenges, and hopes of contemporary evangelical Arab Christians in Israel (and to a lesser degree in the West Bank). After opening with a general overview of Arab Christianity in the Holy Land, the following chapters treat different aspects of the evangelical Arab experience: the founding of the Convention of Evangelical Churches in Israel (CECI) as well as a theological seminary for the training of church workers (Nazareth Evangelical Theological Seminary [NETS]), the self-understanding of Arab Baptists in terms of their identity and relation to other groups in Israel, an Arab perspective on the relationship between Arab evangelicals and Messianic Jews, as well as the struggles, hopes, and fears of another evangelical community that is usually hidden from view, namely, that of Muslim converts to Christianity in Israel, the West Bank, and the Middle East in general. The final chapter offers a detailed bibliography on Arabophone Christianity in Israel and Palestine.

Morals under the Gun James H. Toner,2014-07-11 James Toner argues that the cardinal virtues are and must be the core values of the military. By embracing these values, the profession of arms

serves as a moral compass in an increasingly confusing age. Building upon a bold introduction, which includes what many will regard as a surprising view of military ethics, Toner examines the four cardinal virtues -- wisdom, courage, temperance, and justice -- and places each in the context of a compelling case study from recent U.S. military history. He discusses the Flinn Case, the Lavelle Affair, a B-52 crash in Washington State, and the courageous actions of Hugh Thompson after My Lai. *Morals Under the Gun* connects ethics and moral theology with the armed services, demonstrating that the task of preserving virtue, both personal and professional, is a noble, if imperfectible, task.

Writing Is Designing Michael J. Metts,Andy Welfle,2020-01-14 Without words, apps would be an unusable jumble of shapes and icons, while voice interfaces and chatbots wouldn't even exist. Words make software human-centered, and require just as much thought as the branding and code. This book will show you how to give your users clarity, test your words, and collaborate with your team. You'll see that writing is designing.

"I Love Learning; I Hate School" Susan D. Blum,2016-01-13 Frustrated by her students' performance, her relationships with them, and her own daughter's problems in school, Susan D. Blum, a professor of anthropology, set out to understand why her students found their educational experience at a top-tier institution so profoundly difficult and unsatisfying. Through her research and in conversations with her students, she discovered a troubling mismatch between the goals of the university and the needs of students. In I Love Learning; I Hate School, Blum tells two intertwined but inseparable stories: the results of her research into how students learn contrasted with the way conventional education works, and the personal narrative of how she herself was transformed by this understanding. Blum concludes that the dominant forms of higher education do not match the myriad forms of learning that help students—people in general—master meaningful and worthwhile skills and knowledge. Students are capable of learning huge amounts, but the ways higher education is structured often leads them to fail to learn. More than that, it leads to ill effects. In this critique of higher education, infused with anthropological insights, Blum explains why so much is going wrong and offers suggestions for how to bring classroom learning more in line with appropriate forms of engagement. She challenges our system of education and argues for a reintegration of learning with life.
