Provenance Luc Moreau,Paul Groth,2022-06-01 The World Wide Web is now deeply intertwined with our lives, and has become a catalyst for a data deluge, making vast amounts of data available online, at a click of a button. With Web 2.0, users are no longer passive consumers, but active publishers and curators of data. Hence, from science to food manufacturing, from data journalism to personal well-being, from social media to art, there is a strong interest in provenance, a description of what influenced an artifact, a data set, a document, a blog, or any resource on the Web and beyond. Provenance is a crucial piece of information that can help a consumer make a judgment as to whether something can be trusted. Provenance is no longer seen as a curiosity in art circles, but it is regarded as pragmatically, ethically, and methodologically crucial for our day-to-day data manipulation and curation activities on the Web. Following the recent publication of the PROV standard for provenance on the Web, which the two authors actively help shape in the Provenance Working Group at the World Wide Web Consortium, this Synthesis lecture is a hands-on introduction to PROV aimed at Web and linked data professionals. By means of recipes, illustrations, a website at www.provbook.org, and tools, it guides practitioners through a variety of issues related to provenance: how to generate provenance, publish it on the Web, make it discoverable, and how to utilize it. Equipped with this knowledge, practitioners will be in a position to develop novel applications that can bring open-ness, trust, and accountability. Cross-Taiwan Strait Relations in an Era of Technological Change Paul Irwin Crookes,J. Knoerich,2015-05-26 This book explores how technological change is influencing the dynamics of relations between mainland China and Taiwan. Using the latest research, it examines the acceleration of technology-led and how it shapes three key dimensions of the cross-Strait relationship: the overarching security context; the economic context; and the cultural context.

Colonial Project, National Game Andrew D. Morris,2011 Morris successfully weaves the intricacies of baseball's history into a compelling narrative while giving us a keen analysis of its larger significance. It is rare to find someone who can pull that off. This is an absorbing and distinguished addition to sports history, to Taiwanese history, and to studies of colonialism and its aftermath.--William Kelly, Yale University Colonial Project, National Game offers an engaging and penetrating analysis of the culture of baseball in Taiwan, in both its local and global conditions. Morris weaves details into a compelling narrative that is as much about the game on the field as the game being played out in the arenas of ethnicity, nationalism and geopolitics. Morris's study is a model of sophistication and lucidity. He demonstrates that through a perceptive reading of the mundane world of curve balls and player contracts, we can better understand the ideological substructure of the social.--Joseph R. Allen, University of Minnesota, Twin Cities

Public Affairs Reporting Now George Michael Killenberg,2012-07-26 Everyday life, no whether the issues or events arise next-door or a continent away, raises questions and concerns that the public counts on journalists to answer and, more important, confront. More than ever before, we all rely on the news media for warnings, explanations and insights. The profession - and society - cannot afford lazy, inept, uncommitted journalists. Today's reporters must learn how to cover public affairs intelligently and thoroughly. First you must learn about the institutions and people who influence the news; understanding how a legislative conference committee functions or how a trial is conducted remain important pre-requisites. But it is not enough merely to know how to report. Journalists must also understand how they see, define and influence the news. Don't be fooled by the daily dose of fluffy stories about fads, fashions or fetishes. People love to revel in celebrity gossip or fantasize about extreme makeovers. But Donald Trump's love life or the South Beach Diet don't satisfy when people worry about a home invasion in their neighborhood or a rezoning proposal to bring a Wal-Mart super center to town or a Department of Education report that their child's school scored bottom-most in reading achievement. Public Affairs Reporting Now is intended to teach you the best practices and give you the best advice for covering what's generically known as public affairs reporting. It's a term that's neither inspiring nor precise, but it's long been a convenient way of describing the kind of news coverage that

keeps people informed as citizens and keeps our institutions, public and private, focused on the public good.

The Oxford Handbook of Music Censorship Patricia Ann Hall, 2018 Addresses censorship as a worldwide issue from its earliest recorded form to the modern day ; Includes unique case studies of music censorship unfamiliar to Western audiences ; Documents censorship through a necessarily intersectional lens. --Oxford University Press.

Measuring Up in Higher Education Anthony Welch, Jun Li, 2021-06-04 This book examines the quality assessment movement in academic scholarship, as globalization prompts a search for global measures of university services and output. It gauges productivity in terms of universal publication metrics, and considers ranking and research productivity from a comparative perspective. The book considers the use of the “impact factor” as a gauge of publication value, noting that this is less important in countries lacking central government appropriations to universities and to research. It argues that pressure to publish in certain journals, and to research topics of interest to English language readers, has been felt differentially in English-language systems, compared to others, but also that performance pressures fall more on younger, more junior, contract staff, than on senior and tenured professors. It problematizes international comparisons of quality, and analyses the benefits of a zone of ideas and metrics in a common language – promoting international mobility, efficiency, collaboration – but also the costs which are rarely borne equally across countries, languages and cultures. The book provides a strong, evidence-based contribution to major debates in contemporary higher education reforms and the measurement of academic output.

Taiwan Education at the Crossroad C. Chou, G. Ching, 2012-07-16 Chou and Ching examine the processes of schooling in Taiwan amidst social, cultural, economic, and political conflict resulting from local and global dilemmas. Collectively, these issues offer a panoramic and in-depth glimpse from the past to the future of educational trends in Taiwan.

A Global Casebook of Sexual Homicide Heng Choon (Oliver) Chan, 2019-06-22 This book comprehensively discusses 13 infamous cases of serial and non-serial sexual homicide committed around the globe in the past four decades (1974–2010). Offering a psycho-criminological perspective, it analyzes the cases theoretically (i.e., contributing and precipitating factors, and offender typology) and considers the practical implications (i.e., investigative and crime-preventive measures, and social services). The first book to offer a glimpse of this topic from a global perspective, it adopts a unique approach—case background and critical analysis. As such it is a valuable source of reference for scholars, clinicians, and law enforcement practitioners wanting to gain a better understanding of this type of violent offender.

Constructive Feminism Daphne Spain, 2016-05-04 In *Constructive Feminism*, Daphne Spain examines the deliberate and unintended spatial consequences of feminism's second wave, a social movement dedicated to reconfiguring power relations between women and men. Placing the women's movement of the 1970s in the context of other social movements that have changed the use of urban space, Spain argues that reform feminists used the legal system to end the mandatory segregation of women and men in public institutions, while radical activists created small-scale places that gave women the confidence to claim their rights to the public sphere. Women's centers, bookstores, health clinics, and domestic violence shelters established feminist places for women's liberation in Boston, Los Angeles, and many other cities. Unable to afford their own buildings, radicals adapted existing structures to serve as women's centers that fostered autonomy, health clinics that promoted reproductive rights, bookstores that connected women to feminist thought, and domestic violence shelters that protected their bodily integrity. Legal equal opportunity reforms and daily practices of liberation enhanced women's choices in education and occupations. Once the majority of wives and mothers had joined the labor force, by the mid-1980s, new buildings began to emerge that substituted for the unpaid domestic tasks once performed in the home. Fast food franchises, childcare facilities, adult day centers, and hospices were among the inadvertent spatial consequences of the second wave.

Now the News Edward Bliss, Jr., 2010-06-01 -- Walter Cronkite

Cool Deal James Littlefield, 2001-05 Think everyone has it easy in Silicon Valley? Try being a fledgling P.I. in politically-correct Palo Alto! When the very incorrect murder of a rising-star lawyer horrifies the public, fascinates the media, and throws the police into an investigative frenzy, the obvious suspect is part-time pool-cleaner Trucker James Deal. Suspected by the public, hounded by the press, and targeted by a killer, Deal hangs tough when the hunt turns nasty and doggedly tracks an opportunistic murderer through the upscale streets and backyards of well-heeled suburbia. Finding whodunit is only self defense, and with friends and enemies slugging it out, the San Francisco Peninsula's headed for a shake-up that ain't no earthquake! See, Deal's a trouble magnet--a righteous dude who's impulsive under pressure, hot for truth, and cool when it counts. Drop by, hang on, and check out New Deal Investigations, where results count more than P.C. procedures, and pool cleaning's dangerous work.

China-Taiwan Rapprochement Min-Hua Chiang, 2015-10-30 This book examines how since about 2008 the economy of Taiwan has become ever more deeply integrated into the economy of China. It goes beyond a consideration of trade and investment flows, and discusses also the large population flows, the growing integration of the two financial systems and the nature of the deep economic integration at the industry and firm level. It considers the impact of growing economic integration on society and politics, assesses how China-Taiwan economic integration is affecting the East Asian region more widely, and explores the implications for international relations, including the United States dominance in the region. Overall, the book presents a comprehensive analysis of all the issues.

The Marriage Act John Marrs, 2023-05-02 What if marriage was the law? Dare you disobey? Black Mirror meets thriller with a dash of Naomi Alderman's *The Power* in this dark, high-concept novel by the bestselling author of *The One*. Britain. The near-future. A right-wing government believes it has the answer to society's ills—the Sanctity of Marriage Act, which actively encourages marriage as the norm, punishing those who choose to remain single. But four couples are about to discover just how impossible relationships can be when the government is monitoring every aspect of our personal lives—monitoring every word, every minor disagreement...and will use every tool in its arsenal to ensure everyone will love, honor and obey.

No Time To Think Howard Rosenberg, Charles S. Feldman, 2008-10-01 An eviscerating look at the state of journalism in the age of the 24 hour news cycle by a Pulitzer Prize-winning television critic and a veteran news correspondent. *No Time To Think* focuses on the insidious and increasing portion of the news media that, due to the dangerously extreme speed at which it is produced, is only half thought out, half true, and lazily repeated from anonymous sources interested in selling opinion and wild speculation as news. These news items can easily gain exposure today, assuming a life of their own while making a mockery of journalism and creating casualties of cool deliberation and thoughtful discourse. Much of it is picked up gratuitously and given resonance online or through CNN, Fox News, MSNBC and other networks, which must, in this age of the 24-hour news cycle, feed the beast. In dissecting this frantic news blur, *No Time to Think* breaks down a number of speed-driven blunders from the insider perspective of Charles Feldman, who spent 20 years as a CNN correspondent, as well as the outsider perspective of Howard Rosenberg, who covered the coverage for 25 years as TV critic for *The Los Angeles Times*. *No Time to Think* demonstrates how today's media blitz scrambles the public's perspective in ways that potentially shape how we think, act and react as a global society. The end result affects not only the media and the public, but also the government leaders we trust to make carefully considered decisions on our behalf. Featuring interviews ranging from former NBC News anchor Tom Brokaw to internet doyenne Arianna Huffington to PBS stalwart Jim Lehrer to CNN chief Jonathan Klein to a host of former presidential press secretaries and other keen-eyed media watchers, this incisive work measures lasting fallout from the 24-hour news cycle beginning in 1980 with the arrival of CNN, right up to the present.
