**Television Drama in the Age of Streaming** Vilde Schanke Sundet, 2021-04-02 This book examines television drama in the age of streaming—a time when television has been reshaped for national and international consumption via both linear ‘flow’ and on-demand user modes. It builds on an in-depth study of the Norwegian public service broadcaster (NRK) and some of its game-changing drama productions (Lilyhammer, SKAM, blank). The book portrays the formative first decade of television streaming (2010-2019), how new streaming services and incumbent television providers intersect and act in a new drama landscape, and how streaming impacts existing television production cultures, publishing models and industry-audience relations. The analysis draws on insight gained through more than a hundred interviews with television experts and fans, hundreds of hours of observations, and unique access to industry conferences, meetings, working documents, and ratings. The book combines perspectives from production studies, media industry studies, and fan studies to inform its analysis.

*Transnationalizing Radio Research* Golo Föllmer, Alexander Badenoch, 2018-09-30 Transnationalizing Radio Research presents a theoretical and methodological guide for exploring radio's multiple »global ages«, from its earliest years through its recent digital transformations. It offers radio scholars theoretical tools and concrete case studies for moving beyond national research frames. It gives radio practitioners inspiration for production and archiving, and offers scholars from many disciplines new ways to incorporate radio's vital voices into work on transnational institutions, communities, histories and identities.

**Webcasting Worldwide** Louisa S. Ha, Richard J. Ganahl, 2013-03-07 Webcasting Worldwide tackles one of the most timely topics in mass communication today—the delivery of audio and video content via the Web, or webcasting—employing a global perspective to explore the subject. It is unique in providing a theoretical framework by which to analyze business models of emerging media, and it also examines the business practices of leading webcasters in the world's most developed broadband markets. With webcasting in its early development, the approaches discussed in this volume set the standards for the webcasting industry. Representing the major broadband markets in the world, this text is an authoritative and valuable reference for both researchers and practitioners. The chapters relate the business practices of webcasting to the media market environment and established media industries, such as television and radio, as well as government and non-profit organizations. Downloadable resources offer PowerPoint charts for use in training, education, and research, along with tables, graphs, screenshots, and hyperlinks. Webcasting Worldwide is essential reading for academic researchers and media industry practitioners, and the volume will be a useful text in advanced courses addressing media technology, media management, and international communication. For updates about the book chapters and latest commentaries on topics related to webcasting business models, please visit the Webcasting Business Models Blog at <http://webcastingworldwide.blogspot.com> Winner of The Association for Education in Journalism and Mass Communication Picard Award for Media Management and Economics 2007.

*The New Media Nation* Valerie Alia, 2012 Around the planet, Indigenous people are using old and new technologies to amplify their voices and broadcast information to a global audience. This is the first portrait of a powerful international movement that looks both inward and outward, helping to preserve ancient languages and cultures while communicating across cultural, political, and geographical boundaries. Based on more than twenty years of research, observation, and work experience in Indigenous journalism, film, music, and visual art, this volume includes specialized studies of Inuit in the circumpolar north, and First Nations peoples in the Yukon and southern Canada and the United States.

**A Richer Vision** Charles Husband, 1994 Met lit. opg. Objectives: To analyse the ethnic minority media sector within several national media systems, and to examine the participation of members of minority communities in the production of printed and broadcasting media. Contents: International comparative case studies in the US, the Netherlands, France, Norway, Australia and the U.K.; Examination of exclusionary policies in media systems; Consideration of the political economy of ethnic minority media production; Analysis of the relation between mainstream and ethnic minority media and multi-ethnic societies. Summary of findings: While ethnic minority communities do play a creative role in the media and are active in generating ethnic minority media production, there are still barriers to true ethnic democratisation of the mass media.

**Lifestyle Journalism** Folker Hanusch, 2014-03-05 Lifestyle journalism has experienced enormous growth in the media over the past two decades, but scholars in the fields of journalism and communication studies have so far paid relatively little attention to a field that is still sometimes seen as not real journalism. There is now an urgent need for in-depth exploration and contextualisation of this field, with its increasing relevance for 21st century consumer cultures. For the first time, this book presents a wide range of studies which have engaged with the field of lifestyle journalism in order to outline the various political, economic, social and cultural tensions within it. Taking a comparative view, the collection includes studies covering four continents, including countries such as Australia, China, Norway, Denmark, Singapore, the UK and the USA. While keeping the broader lifestyle field in mind, the chapters focus on a variety of sub-fields such as travel, music, food, health, fashion and personal technology journalism. This volume provides a fascinating account of the different facets of lifestyle journalism, and charts the way forward for a more sustained analysis of the field. This book was originally published as a special issue of Journalism Practice.

*The SAGE International Encyclopedia of Mass Media and Society* Debra L. Merskin, 2019-11-12 The reference will discuss mass media around the world in their varied forms—newspapers, magazines, radio, television, film, books, music, websites, and social media—and will describe the role of each in both mirroring and shaping society.

*Europe Review* Kogan Page, 2003 This reference on the whole of Europe, from Gibraltar to Georgia, Andorra to Azerbaijan, provides both an analytical overview of the region and specific data for each of the 40 countries it comprises. Introductory chapters cover regional issues including: a regional review, with the year's trends, developments and key events; which EU countries have attracted the most and least Foreign Direct Investment; how national governments and the EU are addressing the issue of refugees and asylum; patterns of household debt and savings in Europe; and the impact of EU enlargement.; Comprehensive economic and business reports for each country include: political and economic surveys identifying the trends, developments, problems and solutions; country profiles, including information on economic sectors, political parties and systems, demographics and languages; key facts and analysis of vital statistics; a business guide offering practical information for visitors to the country, including local contact addresses; and key indicators setting out the country's key economic indicators between 1998 and 2003.

**Sports Marketing** Matthew D. Shank, Mark R. Lyberger, 2014-10-03 Now in a fully revised and updated 5th edition, Sports Marketing: A Strategic Perspective is the most authoritative, comprehensive and engaging introduction to sports marketing currently available. It is the only introductory textbook to adopt a strategic approach, explaining clearly how every element of the marketing process should be designed and managed, from goal-setting and planning to implementation and control. Covering all the key topics in the sports marketing curriculum, including consumer behavior, market research, promotions, products, pricing, sponsorship, business ethics, technology and e-marketing, the book introduces core theory and concepts, explains best practice, and surveys the rapidly-changing, international sports business environment. Every chapter contains extensive real-world case studies and biographies of key industry figures and challenging review exercises which encourage the reader to reflect critically on their own knowledge and professional practice. The book's companion website offers additional resources for instructors and students, including an instructors' guide, test bank, presentation slides and useful weblinks. Sports Marketing: A Strategic Perspective is an essential foundation for any sports marketing or sports business course, and an invaluable reference for any sports marketing practitioner looking to improve their professional practice.

**Media Use in Digital Everyday Life** Brita Ytre-Arne, 2023-02-20 The ebook edition of this title is Open Access and freely available to read online. Filling a gap between classic discussions on everyday media use and recent studies of emergent technologies, this book untangles how media become meaningful to us in the everyday, connecting us to communities and publics.

*London, Europe and the Olympic Games* Thierry Terret,2015-10-14 London hosted the Olympic Games for the third time in 2012, a mega-event where the political, economic and social expectations could hardly be compared with the previous London Games of 1908 and 1948. In addition, the Olympic Games went back to Europe in 2012 after a long period where (apart from Athens in 2004) they were held by cities in other continents. In London, the world watched the Games. Continental Europe, however, generated a particular attitude based on the special relations it had developed historically with England. At the crossing point of history, cultural studies and geopolitics, this book provides new insights on the significance of the Olympic Games. It considers that the Games are the right window to look at both the past and the current relations between England and its closest continental neighbours. It will be ideal for students and academics working in sport sciences, cultural history, political science and European studies; amateur and professional sports historians; Olympic followers and experts in Olympic studies. This book was published as a special issue of the International Journal of the History of Sport.

*International Handbook of Internet Research* Jeremy Hunsinger,Lisbeth Klastруп,Matthew Allen,2010-06-17 Internet research spans many disciplines. From the computer or information sciences, through engineering, and to social sciences, humanities and the arts, almost all of our disciplines have made contributions to internet research, whether in the effort to understand the effect of the internet on their area of study, or to investigate the social and political changes related to the internet, or to design and develop software and hardware for the network. The possibility and extent of contributions of internet research vary across disciplines, as do the purposes, methods, and outcomes. Even the epistemological underpinnings differ widely. The internet, then, does not have a discipline of study for itself: It is a field for research (Baym, 2005), an open environment that simultaneously supports many approaches and techniques not otherwise commensurable with each other. There are, of course, some inhibitions that limit explorations in this field: research ethics, disciplinary conventions, local and national norms, customs, laws, borders, and so on. Yet these limits on the internet as a field for research have not prevented the rapid expansion and exploration of the internet. After nearly two decades of research and scholarship, the limits are a positive contribution, providing bases for discussion and interrogation of the contexts of our research, making internet research better for all. These ‘limits,’ challenges that constrain the theoretically limitless space for internet research, create boundaries that give definition to the field and provide us with a particular topography that enables research and investigation.

*Netflix Nations* Ramon Lobato,2019-01-08 How streaming services and internet distribution have transformed global television culture. Television, once a broadcast medium, now also travels through our telephone lines, fiber optic cables, and wireless networks. It is delivered to viewers via apps, screens large and small, and media players of all kinds. In this unfamiliar environment, new global giants of television distribution are emerging—including Netflix, the world’s largest subscription video-on-demand service. Combining media industry analysis with cultural theory, Ramon Lobato explores the political and policy tensions at the heart of the digital distribution revolution, tracing their longer history through our evolving understanding of media globalization. Netflix Nations considers the ways that subscription video-on-demand services, but most of all Netflix, have irrevocably changed the circulation of media content. It tells the story of how a global video portal interacts with national audiences, markets, and institutions, and what this means for how we understand global media in the internet age. Netflix Nations addresses a fundamental tension in the digital media landscape – the clash between the internet’s capacity for global distribution and the territorial nature of media trade, taste, and regulation. The book also explores the failures and frictions of video-on-demand as experienced by audiences. The actual experience of using video platforms is full of subtle reminders of market boundaries and exclusions: platforms are geo-blocked for out-of-region users (“this video is not available in your region”); catalogs shrink and expand from country to country; prices appear in different currencies; and subtitles and captions are not available in local languages. These conditions offer rich insight for understanding the actual geographies of digital media distribution. Contrary to popular belief, the story of Netflix is not just an American one. From Argentina to Australia, Netflix’s ascension from a Silicon Valley start-up to an international television service has transformed media consumption on a global scale. Netflix Nations will help readers make sense of a complex, ever-shifting streaming media environment.

*Radio After the Golden Age* Jim Cox,2013-09-16 What became of radio after its Golden Age ended about 1960? Not long ago Arbitron found that almost 93 percent of Americans age 12 and older are regular radio listeners, a higher percentage than those turning to television, magazines, newspapers, or the Internet. But the sounds they hear now barely resemble those of radio’s heyday when it had little competition as a mass entertainment and information source. Much has transpired in the past fifty-plus years: a proliferation of disc jockeys, narrowcasting, the FM band, satellites, automation, talk, ethnicity, media empires, Internet streaming and gadgets galore... Deregulation, payola, HD radio, pirate radio, the fall of transcontinental networks, the rise of local stations, conglomerate ownership, and radio’s future landscape are examined in detail. Radio has lost a bit of influence yet it continues to inspire stunning innovations.
