Catching-101 Xan Barksdale,2011-07-28 CATCHING-101: The Complete Guide for Baseball Catchers is the most comprehensive book ever written for baseball catchers. It contains tips, drills, and proper mechanics that will help every catcher or coach better understand the most difficult position on the field. This book contains information on EVERY aspect of catching that Coach Barksdale has learned through his years of experience from coaching nationally ranked NCAA teams, and playing at almost every level from Little League to professional baseball. A few of the topics covered in CATCHING-101 are: Receiving Blocking Catching Pop Flies Throwing Fielding Bunts Plays at Home Plate Drills Pitchouts Pass Balls/Wild Pitches Giving Signals And More! If you have been searching for a source with lots of high quality information about catching, this is the book for you! CATCHING-101 was written by Coach Xan Barksdale who is currently an NCAA Division I baseball coach and an ex-professional baseball player. Coach Barksdale played in the Atlanta Braves organization and has been a featured speaker at the prestigious ABCA (American Baseball Coaches Association) national convention.

Where Is My Flying Car? J. Storrs Hall,2021-11-30 From an engineer and futurist, an impassioned account of technological stagnation since the 1970s and an imaginative blueprint for a richer, more abundant future The science fiction of the 1960s promised us a future remade by technological innovation: we'd vacation in geodesic domes on Mars, have meaningful conversations with computers, and drop our children off at school in flying cars. Fast-forward 60 years, and we're still stuck in traffic in gas-guzzling sedans and boarding the same types of planes we flew in over half a century ago. What happened to the future we were promised? In *Where Is My Flying Car?*, J. Storrs Hall sets out to answer this deceptively simple question. What starts as an examination of the technical limitations of building flying cars evolves into an investigation of the scientific, technological, and social roots of the economic stagnation that started in the 1970s. From the failure to adopt nuclear energy and the suppression of cold fusion technology to the rise of a counterculture hostile to progress, Hall recounts how our collective ambitions for the future were derailed, with devastating consequences for global wealth creation and distribution. Hall then outlines a framework for a future powered by exponential progress—one in which we build as much in the world of atoms as we do in the world of bits, one rich in abundance and wonder. Drawing on years of original research and personal engineering experience, *Where Is My Flying Car?*, originally published in 2018, is an urgent, timely analysis of technological progress over the last 50 years and a bold vision for a better future.

Moon Called Patricia Briggs,2006-01-31 THE FIRST MERCY THOMPSON NOVEL! *Moon Called* is the novel that introduced Patricia Briggs's Mercy Thompson to the world and launched a #1 bestselling phenomenon... Mercy Thompson is a shapeshifter, and while she was raised by werewolves, she can never be one of them, especially after the pack ran her off for having a forbidden love affair. So she's turned her talent for fixing cars into a business and now runs a one-woman mechanic shop in the Tri-Cities area of Washington State. But Mercy's two worlds are colliding. A half-starved teenage boy arrives at her shop looking for work, only to reveal that he's a newly changed werewolf—on the run and desperately trying to control his animal instincts. Mercy asks her neighbor Adam Hauptman, the Alpha of the local werewolf pack, for assistance. But Mercy's act of kindness has unexpected consequences that leave her no choice but to seek help from those she once considered family—the werewolves who abandoned her... "In the increasingly crowded field of kick-ass supernatural heroines, Mercy stands out as one of the best."—Locus

The Age of Em Robin Hanson,2016-05-13 Robots may one day rule the world, but what is a robot-ruled Earth like? Many think the first truly smart robots will be brain emulations or ems. Scan a human brain, then run a model with the same connections on a fast computer, and you have a robot brain, but recognizably human. Train an em to do some job and copy it a million times: an army of workers is at your disposal. When they can be made cheaply, within perhaps a century, ems will displace humans in most jobs. In this new economic era, the world economy may double in size every few weeks. Some say we can't know the future, especially following such a disruptive new technology, but Professor Robin Hanson sets out to prove them wrong. Applying decades of expertise in physics, computer science, and economics, he uses standard theories to paint a detailed picture of a world dominated by ems. While human lives don't change greatly in the em era, em lives are as different from ours as our lives are from those of our farmer and forager ancestors. Ems make us question common assumptions of moral progress, because they reject many of the values we hold dear. Read about em mind speeds, body sizes, job training and career paths, energy use and cooling infrastructure, virtual reality, aging and retirement, death and immortality, security, wealth inequality, religion, teleportation, identity, cities, politics, law, war, status, friendship and love. This book shows you just how strange your descendants may be, though ems are no stranger than we would appear to our ancestors. To most ems, it seems good to be an em.

How to Be Secular Jacques Berlinerblau,2012 Argues that a return to a more secular America will promote religious diversity and freedom, and help eliminate the widening divide between religious conservatives and staunch atheists.

The Traders' War Charles Stross,2014-01-07 The Traders' War -- an omnibus edition of the third and fourth novels in Charles Stross's Merchant Princes series. Miriam was an ambitious business journalist in Boston. Until she was fired—then discovered, to her shock, that her lost family comes from an alternate reality. And although some of them are trying to kill her, she won't stop digging up secrets. Now that she knows she's inherited the family ability to walk between worlds, there's a new culture to explore. Her alternate home seems located around the Middle Ages, making her world-hopping relatives top dogs when it comes to importing guns and other gadgets from modern-day America. Payment flows from their services to U.S. drug rings—after all, world-skipping drug runners make great traffickers. In a land where women are property, she struggles to remain independent. Yet her outsider ways won't be tolerated, and a highly political arranged marriage is being brokered behind her back. If she can stay alive for long enough to protest. These books are immense fun.--Locus At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Swan Song Robert McCammon,2016-07-26 In a nightmarish, post-holocaust world, an ancient evil roams a devastated America, gathering the forces of human greed and madness, searching for a child named Swan who possesses the gift of life.

The Trade of Queens Charles Stross,2011-03 Stross's Merchant Princes series reaches a spectacular climax in this sixth volume. Praised by Nobel laureate Paul Krugman as great fun, this is state-of-the-art, cutting-edge science fiction at its best.

Behold a Pale Horse William Cooper,2012-04-11 Bill Cooper, former United States Naval Intelligence Briefing Team member, reveals information that remains hidden from the public eye. This information has been kept in Top Secret government files since the 1940s. His audiences hear the truth unfold as he writes about the assassination of John F. Kennedy, the war on drugs, the Secret

Government and UFOs. Bill is a lucid, rational and powerful speaker who intent is to inform and to empower his audience. Standing room only is normal. His presentation and information transcend partisan affiliations as he clearly addresses issues in a way that has a striking impact on listeners of all backgrounds and interests. He has spoken to many groups throughout the United States and has appeared regularly on many radio talk shows and on television. In 1988 Bill decided to talk due to events then taking place worldwide, events which he had seen plans for back in the early '70s. Since Bill has been talking, he has correctly predicted the lowering of the Iron Curtain, the fall of the Berlin Wall and the invasion of Panama. All Bill's predictions were on record well before the events occurred. Bill is not a psychic. His information comes from Top Secret documents that he read while with the Intelligence Briefing Team and from over 17 years of thorough research. Bill Cooper is the world's leading expert on UFOs. -- Billy Goodman, KVEG, Las Vegas. The onlt man in America who has all the pieces to the puzzle that has troubled so many for so long. -- Anthony Hilder, Radio Free America William Cooper may be one of America's greatest heros, and this story may be the biggest story in the history of the world. -- Mills Crenshaw, KTALK, Salt Lake City. Like it or not, everything is changing. The result will be the most wonderful experience in the history of man or the most horrible enslavement that you can imagine. Be active or abdicate, the future is in your hands. -- William Cooper, October 24, 1989.

The Family Trade Charles Stross,2010-04-01 A bold fantasy in the tradition of Roger Zelazny's Chronicles of Amber, The Merchant Princes is a sweeping new series from the hottest new writer in science fiction! Miriam Beckstein is happy in her life. She's a successful reporter for a hi-tech magazine in Boston, making good money doing what she loves. When her researcher brings her iron-clad evidence of a money-laundering scheme, Miriam thinks she's found the story of the year. But when she takes it to her editor, she's fired on the spot and gets a death threat from the criminals she has uncovered. Before the day is over, she's received a locket left by the mother she never knew-the mother who was murdered when she was an infant. Within is a knotwork pattern, which has a hypnotic effect on her. Before she knows it, she's transported herself to a parallel Earth, a world where knights on horseback chase their prey with automatic weapons, and where world-skipping assassins lurk just on the other side of reality - a world where her true family runs things. The six families of the Clan rule the kingdom of Gruinmarkt from behind the scenes, a mixture of nobility and criminal conspirators whose power to walk between the worlds makes them rich in both. Braids of family loyalty and intermarriage provide a fragile guarantee of peace, but a recently-ended civil war has left the families shaken and suspicious. Taken in by her mother's people, she becomes the star of the story of the century-as Cinderella without a fairy godmother. As her mother's heir, Miriam is hailed as the prodigal countess Helge Thorold-Hjorth, and feted and feasted. Caught up in schemes and plots centuries in the making, Miriam is surrounded by unlikely allies, forbidden loves, lethal contraband, and, most dangerous of all, her family. Her unexpected return will supercede the claims of other clan members to her mother's fortune and power, and whoever killed her mother will be happy to see her dead, too. Behind all this lie deeper secrets still, which threaten everyone and everything she has ever known. Patterns of deception and interlocking lies, as intricate as the knotwork between the universes. But Miriam is no one's pawn, and is determined to conquer her new home on her own terms. Blending the creativity and humor of Roger Zelazny, the adventure of H. Beam Piper and Philip Jose Farmer, and the rigor and scope of a science-fiction writer on the grandest scale, Charles Stross has set a new standard for fantasy epics. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The 2030 Spike Colin Mason,2013-06-17 The clock is relentlessly ticking! Our world teeters on a knife-edge between a peaceful

and prosperous future for all, and a dark winter of death and destruction that threatens to smother the light of civilization. Within 30 years, in the 2030 decade, six powerful 'drivers' will converge with unprecedented force in a statistical spike that could tear humanity apart and plunge the world into a new Dark Age. Depleted fuel supplies, massive population growth, poverty, global climate change, famine, growing water shortages and international lawlessness are on a crash course with potentially catastrophic consequences. In the face of both doomsaying and denial over the state of our world, Colin Mason cuts through the rhetoric and reams of conflicting data to muster the evidence to illustrate a broad picture of the world as it is, and our possible futures. Ultimately his message is clear; we must act decisively, collectively and immediately to alter the trajectory of humanity away from catastrophe. Offering over 100 priorities for immediate action, The 2030 Spike serves as a guidebook for humanity through the treacherous minefields and wastelands ahead to a bright, peaceful and prosperous future in which all humans have the opportunity to thrive and build a better civilization. This book is powerful and essential reading for all people concerned with the future of humanity and planet earth.

The Hidden Family Charles Stross, 2006-05-02 The Merchant Princes is a sweeping new series from the hottest new writer in science fiction! The six families of the Clan rule the kingdom of Gruinmarkt from behind the scenes, a mixture of nobility and criminal conspirators whose power to walk between their world and ours make them rich in both. Braids of family loyalty and intermarriage provide a fragile guarantee of peace, but a recently ended civil war has left the families shaken and suspicious. Miriam, a hip tech journalist from Boston, discovered her alternate-world relatives with explosive results that shook three worlds. Now, as the prodigal Countess Helge Thorold-Hyorth, she finds herself ensnared in schemes and plots centuries in the making. She is surrounded by unlikely allies, lethal contraband, and, most dangerous of all, her family. With her modern American attitudes, she's not sure she can fit in, or if she even wants to, but to stay alive, she really has no choice. To avoid a slippery slope down to an unmarked grave, Miriam must build a power-base of her own. She started applying modern business practices and scientific knowledge to a trade heretofore dominated by medieval mercantilists-with unexpected consequences for three different timelines, including the quasi-Victorian one exploited by the hidden family. Blending the creativity and humor, and the rigor and scope of science-fiction on the grandest scale, Charles Stross has set a new standard for fantasy epics. Charles Stross is one of the big new SF writers of the 21st century, and the saga of The Merchant Princes is his most ambitious work yet. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

The Chinese Navy Institute for National Strategic Studies, 2011-12-27 Tells the story of the growing Chinese Navy - The People's Liberation Army Navy (PLAN) - and its expanding capabilities, evolving roles and military implications for the USA. Divided into four thematic sections, this special collection of essays surveys and analyzes the most important aspects of China's naval modernization.

Thinking about Deterrence Air University Press, 2014-09-01 With many scholars and analysts questioning the relevance of deterrence as a valid strategic concept, this volume moves beyond Cold War nuclear deterrence to show the many ways in which deterrence is applicable to contemporary security. It examines the possibility of applying deterrence theory and practice to space, to cyberspace, and against non-state actors. It also examines the role of nuclear deterrence in the twenty-first century and reaches surprising conclusions.
