Morphology Based Approach to Recognize Number Plates in India

Phalgun Pandya, 2012-07 Morphology based Approach to Recognize License Plates in India studies the problems that are being faced to recognize Vehicle License Plates (VLP) in Indian conditions. This work provides in depth knowledge about the causes of failure of other VLP recognition methods in Indian conditions. This work is based on mathematical operations called Morphological operations such as Dilation, Erosion etc..

Morphology is a technique in which the shape of the image is to be taken care of. Everything revolves around the shape of the image on which operations are to be performed. Some previous studies for character recognition were also referred and a working MATLAB (MATLAB by Mathworks) Program has been created that extracts License plate regions only and displays the actual Characters (Vehicle Registration Number or License plate characters)

Emerging India Bimal Jalan, 2013-03-15 As India marks the twenty-year milestone of economic liberalization, some concerns about the country's future prospects as an emerging power are beginning to be voiced; often, these stem from the past history of sharp swings in India's fortunes. Bimal Jalan, one of the country's well-known economists and former Governor of the Reserve Bank of India, has closely followed the path of India's economic policies across its changing trajectories, from before the time the economy was liberalized to the very present. The pieces that appear here were all written during the last twenty years, with the exception of three prescient notes from the mid-1970s highlighting the need for economic reforms to foster growth. The principal thought behind these essays is that, in the past twenty years, India's capacity to grow faster than ever before has increased substantially because of its comparative advantage in relation to other countries. However, Jalan points out that for India to seize the opportunities that lie ahead, it is essential to bring about further reforms in the running of India's politics and administration in order to ensure inclusive and incremental economic growth.
