Millennials Killed the Video Star Amanda Ann Klein,2021-01-04 Between 1995 and 2000, the number of music videos airing on MTV dropped by 36 percent. As an alternative to the twenty-four-hour video jukebox the channel had offered during its early years, MTV created an original cycle of scripted reality shows, including Laguna Beach, The Hills, The City, Catfish, and Jersey Shore, which were aimed at predominantly white youth audiences. In *Millennials Killed the Video Star* Amanda Ann Klein examines the historical, cultural, and industrial factors leading to MTV's shift away from music videos to reality programming in the early 2000s and 2010s. Drawing on interviews with industry workers from programs such as The Real World and Teen Mom, Klein demonstrates how MTV generated a coherent discourse on youth and identity by intentionally leveraging stereotypes about race, ethnicity, gender, and class. Klein explores how this production cycle, which showcased a variety of ways of being in the world, has played a role in identity construction in contemporary youth culture—ultimately shaping the ways in which Millennial audiences of the 2000s thought about, talked about, and embraced a variety of identities.

Two Hawks from Earth Philip José Farmer,2021-06-29 From the New York Times–bestselling author of the Riverworld series: An alternate history classic in which the American continents never existed. *Two Hawks from Earth*, an expanded and revised version of Philip José Farmer's *The Gate of Time*, is the story of an Iroquois pilot in World War II. First Lt. Roger Two Hawks is on a bombing run over Romania when his aircraft is shot down and collides with a German plane midair. Two Hawks bails out and survives, but when he reaches the ground, gone are the suburbs he saw from the sky. Instead, there are dirt roads, trees, farms, and an unsettling quiet. Then Two Hawks sees the soldiers: fur-clad men with shiny steel helmets shaped like wolf heads and armed with swords and arrows. Soon he comes to understand that, though a world war still rages, the Americans are absent—because they don't exist, and neither does the land they'd come from. With his modern-day military and technical knowledge, Two Hawks becomes a prize that both armies covet. But he'll have to learn to play by the rules of a new realm in order to survive—and live to see another world . . . Praise for Philip José Farmer “An excellent science fiction writer.” —Isaac Asimov “[Farmer's work is a] blend of intellectual daring and pulp fiction prose.” —The New York Times “Farmer offers his audience a wide-screen adventure that never fails to provoke, amuse, and educate. . . . His imagination is certainly of the first rank.” —Time on *The World of Tiers*

Luboml Berl Kagan,Nathan Sobel,1997 The story of the former Polish-Jewish community (shtetl) of Luboml, Wołłyń, Poland. Its Jewish population of some 4,000, dating back to the 14th century, was exterminated by the occupying German forces and local collaborators in October, 1942. Wound Building Danny Hayward,2021-09-29 *Wound Building* is a volume of essays, with digressions, on one group of contemporary poets active in a self-organizing political poetry scene in the UK, most of whom have little to no audience outside of the little magazines that they publish and the reading series they put on. The book is a front-line report on the rapid development of this poetry in the period between 2015 and 2020, with a particular focus on the relationship of poetry to violence and its representation ... Ultimately, Hayward argues that the lessons this poetry teaches is never to write a worthy narrative when a fucked up collage will do. Rather than a cohesive account of a school of poets, or a contribution to the boring tittle-tattle of aesthetic debates over British poetry as an institution, *Wound Building* is a front-line report on the local disasters of a contemporary UK poetry caught in the grip of the historical cataclysm of capitalist culture. *Wound Building* is further concerned with aesthetic problems related to Marxism, anarchism, contemporary trans politics, and class, though its theoretical preoccupations are subordinated to its desire to provide a ground-level view on the writing itself, its production, its intellectual aporia, and the ways it finds itself outstripped by the ongoing march of events ... --

Blindsight Peter Watts,2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, *Blindsight* Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

American Film Cycles Amanda Ann Klein,2011-12-01 A series of movies that share images, characters, settings, plots, or themes, film cycles have been an industrial strategy since the beginning of cinema. While some have viewed them as subgenres, mini-genres, or nascent film genres, Amanda Ann Klein argues that film cycles are an entity in their own right and a subject worthy of their own study. She posits that film cycles retain the marks of their historical, economic, and generic contexts and therefore can reveal much about the state of contemporary politics, prevalent social ideologies, aesthetic trends, popular desires, and anxieties. *American Film Cycles* presents a series of case studies of successful film cycles, including the melodramatic gangster films of the 1920s, the 1930s *Dead End Kids* cycle, the 1950s juvenile delinquent teenpic cycle, and the 1990s ghetto action cycle. Klein situates these films in several historical trajectories—the Progressive movement of the 1910s and 1920s, the beginnings of America's involvement in World War II, the birth of the teenager in the 1950s, and the drug and gangbanger crises of the early 1990s. She shows how filmmakers, audiences, film reviewers, advertisements, and cultural discourses interact with and have an impact on the film texts. Her findings illustrate the utility of the film cycle in broadening our understanding of established film genres, articulating and building upon beliefs about contemporary social problems, shaping and disseminating deviant subcultures, and exploiting and reflecting upon racial and political upheaval.

Sound Of 1 Hand Out Of Print,1975-12-17 When *The Sound of the One Hand* came out in Japan in 1916 it caused a scandal. Zen was a secretive practice, its wisdom relayed from master to novice in strictest privacy.

That a handbook existed recording not only the riddling koans that are central to Zen teaching but also detailing the answers to them seemed to mark Zen as rote, not revelatory. For all that, *The Sound of the One Hand* opens the door to Zen like no other book. Including koans that go back to the master who first brought the koan teaching method from China to Japan in the eighteenth century, this book offers, in the words of the translator, editor, and Zen initiate Yoel Hoffmann, the clearest, most detailed, and most correct picture of Zen that can be found. What we have here is an extraordinary introduction to Zen thought as lived thought, a treasury of problems, paradoxes, and performance that will appeal to artists, writers, and philosophers as well as Buddhists and students of religion.
